Double Ambulance Rates In Esqueving Township

GEORGETOWN—Subject to ratification by Esqueving Township council, residents of the township will pay double rates when the Georgetown ambulance is used by them.

The town council agreed to accept the township's proposal, offered when Rev. George Currie and Deputy Reeve Campbell Sinclair met with them in answer to an invitation from the town. The proposal was one of three discussed, the others being a five a mile charge and a flat rate of \$25 a call.

Rates paid under the new plan would be \$20 to Brampton, \$30 to Guelph, \$40 to Toronto and \$50 to Hamilton. The township will also be asked to underwrite medical accidents in Georgetown will be rate of 10¢ a minute.

The plan falls short of Georgetown's idea of having Esqueving help subsidize purchase of a second ambulance, and creation of an ambulance district similar to the fire areas which have been created around the three Halton towns.

Reeve Currie said it would be too difficult to set up such an area for ambulance service, and would mean complicated bookkeeping for the township office.

Mr. Sinclair also pointed out that calls for an ambulance differ from fire calls in that it is the doctor who usually decides where a patient is to go, and he is inclined to call an ambulance in the town with which he is familiar. It is only in emergencies that the closest ambulance is called, and the situation could become quite confusing, was the opinion expressed.

Township calls account for 50 per cent of the work of the Georgetown Ambulance Service, established a

12,500 Children Name March "Month of Hope"

To more than 12,500 children and teenagers in Ontario, afflicted by accident, disease, or from birth by crippling conditions that usually mean despair and dependence on others, March is the month of hope.

Easter Seals go on sale on March 8th, through the members of 220 service clubs, as the means by which the people of Ontario join in the vast task of making life better for youngsters who would otherwise find it harder, if not impossible, to become self-reliant self-dependent citizens.

The purchases of Easter Seals means treatment and training, nationally known Varsity Village, the school sponsored and supported by the entertainment profession where trades are taught boys unable to work at manual tasks.

Down through the years Easter Seals have paved a way for a programme which now provides twenty-one specially trained nurses who serve as liaison with the service clubs across the province, seeking out crippled children and directing them to treatment centres, providing them with home nursing skills, and teaching parents what to do to help their handicapped little ones take advantage of medically prescribed plans of rehabilitation.

In five camps, unlike any other camps in the country, hundreds of youngsters will have a chance at summer vacations barred to them otherwise because they cannot play these camps, counselors with knowledge of what to do to teach kids to enjoy life, to learn how to care for themselves and give many of them hope which their conditions, or even their over-protective parents, have not aroused.

possible advances that are dramatic, even though the task is painfully slow and expensive. At the Weston residential training centre in Weston, teams of nurses and doctors are teaching children to talk to walk to feed themselves and dress themselves, even to become helpful family members, instead of helpless victims of a condition that once spelled hopelessness.

Purchasers of Easter Seals mean membership for the buyers in a crusade of mercy and service to children, who through no fault of their own, bear enormous burdens of affliction, but who need only a little help to carry those burdens much more lightly.
