area reduced to 850 square feet. Mr Rowland suggested to Mr their clients should discover that

meeting heard a report Hidicating a delay of two to three months in the completion of the Industrial Sewage Treatment Plant to be mult in Action

Councillor J H Gos chapman of the Sewer and water Committee informed other members of council this information was reported durng a meeting with the OWRC. Beardoure and Couls Pakers Officials and R V Ande on and Associates Consulting Engineers, with his committee

It was posited out les the chairman the OWRC had advised a portable pilot plant to provide composite samples of Conces waste.

It was also prouted out there would be no trouble to design the plant to handle chalken was a from the new Canada Packers plant

Clerk J. McGeachie advised the council the priot plant was in tranait from the United States and informed them a man would accompany the unit to book it up and work for a period of one week, after which the plant would be turned over to the engineers to operate. Testing operation of the portable pilot plant was to take place for a period of two to three weeks, Mr. McGeachie said

The clerk also printed out transportation of equipment and wages for the operator would amount to a maximum of \$800

Mr Goy told council members W. J Beatty of Beardmore and Company, had stated his plant would stop spraying in the vicinity of the towir water supply when the new dispenal plant was put into opera-

A discussion on how to adminiater costs for the new plant took place in a conversation with Mr Gos and Mr. Beatty, it was pointed out and the official of the Beardmore plant had suggested a bulk bill of additional costs of the plant be presented to them as it was un-

original deadline for completion of ary and in order to speed up the T E Kellett, also representing tests the pilot plant had been advis-

units with a maximum floor at . 'e ho authorized the pilot plant to ca of 1050 square feet. The Acton be moved to Acton and was into-law called for a dwelling unit formed by the Mayor it had been floor area of 900 feet, with, 100 agreed at the joint meeting of town

Council agreed to set up a miscellaneous account to the amount of \$1000 to cover medental costs for

Theron Jones, town assessor, was present to review and discuss the point of Acton adopting the DMA Manual for assessing or continuing with their present method

He im nited out that Halton County was the first to form a County Assissment Association and was fortunate in baving men with expertence ranging from four to 25 years

The assessor stated I am of the opinion that in Acton the change to the DMA Manual would be a reduction of from \$25 to \$300 on homes built within the last ten years and an increase of from \$200

to sow on older houses Council agreed to adopt the reommendation of the assessment majority of municipalities are in agreement to changing to the D.M. A municul

Council members by resolution changed their meeting nights from every Monday night to the first three Mondays in the month

Indigent patients accounts amounting to \$235.25 was authorize ed for payment

A letter was read from Spencer. Adison and Scott, solutions, for L. P Acre owner of the Fish Pond property adjoining Actors new water site, requesting information on the town water project

It was explained by the clerk that a request had been made earlset from the solicitors to have accres to the town's plans and draw ings for the water site on the Davidson property adjoining their chent's property.

Mr McGeach,c. told council he had intimated to the solutions that the information was in the prosesbut of the International Water ... Supply Company but had not stated'it could be obtained

The clerk asked council their wishes in having the information given to the milicitors Councillor W. McLand pointed

out the Acri family was concerned about the town draining their pond by using the new well and until such tune as something happened it was his opinion the graphs should not be supplied.
