LAWN BOWLING

On Wednesday evening, June 11, an 85 to 71 score over Guelph enabled Acton to move into first place standing in the Inter-County Lawn Bowling League. All games were keenly contested and in spite of the cool weather, a fine time was enjoyed by the participating players.

Next week, the games will be Georgetown at Guelph, and Acton at Rockwood.

Acton has 10 greens, which are rapidly being worked into top condition. We do need more players to use our facilities and hope that newcomers to the town will feel free to come and join us. Up to now the cold weather has discouraged all but the die-hards.

We cited in our last report. Our secretary-treasurer is John Wood, and Doreen Cooper is our tournament secretary.

Normal Spine Health Necessity

Palmer Specific Chiropractor
Perhaps you find it difficult to understand why Chiropractors can fix their work to the spine, when remote parts of the body are diseased. But you find nothing strange about pushing a button on the wall to light a globe suspended from the ceiling. The procedure is practically the same. Connection is made between the source of energy, the brain or dynamo, and the body or electric globe. It makes no difference whether it be heart, stomach, kidneys, or some other organ.

Normal functions of all organs, muscles and tissues of the body depend upon supply of the vital nerve energy conveyed to them over the nervous system from the brain which generates this energy. Nerves run from between vertebrae, so when falls, jabs or strains misplace a vertebrae, pressure on nerves is produced which interferes with normal function, creating disease.

Adjusting misplaced vertebrae is like pushing the button to produce light, its restored flow of vital energy and health is the natural result. To you it may seem miraculous that we can adjust vertebrae and regulate blood pressure, relieve constipation, sinus, stomach or kidney trouble, and in fact, most of the ills to which humanity is subjected.

Instead of treating effects, the scientific Chiropractor seeks the cause responsible for effect, known as disease, and by proper adjustments eliminates the cause. Health is your natural heritage. Thousands of men, women and children realize from experience the health benefits obtained by keeping the spine in normal condition.

Mrs. H. Helwig Hostess to Ladies

The Baptist Women's Mission Circle held their June meeting Thursday evening June 11th at Mrs. H. Helwig's home on Arthur St.

President, Mrs. John Chapman was in the chair and Mrs. L. Hilley and Mrs. D. Hitebein had charge of the devotional period. Mrs. Hilley opened the devotional with the hymn, "Oh Jesus, I Have Promised" and gave a resume of the work on the Holyland Field.

Mrs. Hitebein chose as her theme "God's Promises," reading the 23rd Psalm and quoting promises from different parts of the Bible, showing that there is no need for pessimism when we truly believe God's Promises for us. The devotional period closed with the hymn, "Standing on the Promises of God."

A season of prayer followed with the president and members taking part, stressing the need for prayer for the work in foreign fields and also the work in Acton.

Mrs. C. Landsborough read the minutes of the previous meeting and after a short business discussion, roll call was answered by each member naming their favorite hymn. Mrs. H. Helwig closed the meeting with prayer.

A social hour was enjoyed with Mrs. Dunk and Mrs. Landsborough as Tea Hostesses. Miss J. Coles
