ACTON, ONTARIO, THURSDAY, JULY 17th, 1958

Second Section.

8,000 Mark Anniversary At Ukrainian Camp Here

The tenth anniversary of the Ukrainian Youth Association of Canada was celebrated when 8,000 Ukrainian New Canadians congregated at the Ukrainian Youth Association's summer camp on the fourth east of Acton, Sunday. The summer camp is on the farm formerly owned by W. J. McDonald.

Hundreds of cars lined one hill while family groups wandered in the sunshine over the entire property.

Programs for the afternoon included singing, dancing, speakers, band concert, campfire and bonfire for the special guests. Mass was celebrated by four priests in the morning and the activity continued until late at night.

Guests filed through an honor guard of uniformed Youth Association members carrying flags, and the young campers played "God Save the Queen" and the Ukrainian national anthem, and the raising of the two flags opened the afternoon's program.

Guests included the president of the anti-Communist bloc, Jaroslav Stetko, who had flown from Moscow, Dr. J. Kucherepa, Toronto member of parliament, John Yarmko, member of parliament and deputy minister of labor, Arthur Maloney.

The camp itself was opened four years ago. The buildings there were two old west frame cars. There were 20 children last year. There were 600 children at camp during the season. There are various buildings with dining facilities for 600, a medical staff and small hospital.

The large swimming pool was built by volunteers in one day. Youngsters were splashing about in it all afternoon Sunday.

On the opposite side of the road,

while most of those attending say, the largest swimming pool in Ontario will soon be located in from southern Ontario, there were many there from the United States and Europe. Some had come in chartered buses to visit with former countrymen. Most spoke English as well as Ukrainian.

An orchestra from Buffalo provided the music.

About 1,000 children took part with 300 in gymnastics. The children's choir was conducted by a well-known musician, Bob L. Turekewich, who has composed a opera.

The platform was set at the foot of a hill with groups sitting and standing all down its slopes.

Four Years Old.

The camp itself was opened four years ago. The buildings there were two old west frame cars. There were 20 children last year. There were 600 children at camp during the season. There are various buildings with dining facilities for 600, a medical staff and small hospital.

The large swimming pool was built by volunteers in one day. Youngsters were splashing about in it all afternoon Sunday.

On the opposite side of the road,

the camp has grown steadily in the past four years. A second swimming pool is to be built.

Martin Bauer Receives Degree

Martin H. Bauer, who has been with the Department of Veterans Affairs since 1945 as settlement officer, has just received word that he has successfully completed the academic requirements of the Aboriginal Institute of Canada and received his ACT degree certificate.

Mr. Bauer, who has been secretary-treasurer of the Guelph Chapter, has been promoted to the position of assistant regional supervisor. He was field supervisor in Mitchell, Ontario, for two years before coming to this area.

He has been active in study groups for the Guelph Chapter, leading in discussions. This fall he will be on the staff of Waterloo College, instructing night classes.

Mr. Bauer attained the rank of captain in the last war with the Perth Regiment. This unit was associated with the famous Black Watch Regiment. While overseas he was chief instructor of the Canadian School of Infantry.

His home is in Rockwood where he lives with his wife and three teenage children.

Teacher Takes Course On Electric Motors

An Acton school teacher, P. E. Cudick of Acton High School, was one of 35 Ontario teachers selected to attend a special course on electric motors and motor controls held in Toronto, July 4.

Sponsored by the Farm Electrification Bureau of the Canadian Electrical Manufacturers Association, the annual course is considered to be one of the foremost in Canada. Objective is to assist teachers engaged in shop work to learn the many features and farm applications of electric motors and controls so that they may pass the information along to their students especially those interested in agriculture.

Organized with the assistance of electric motor and motor control manufacturers who are members of CEMA, along with the Ontario Hydro and the Vocational Courses Section of the Ontario Department of Education, the course includes instruction in the selection, application and maintenance of electric motors and controls. The course is built around a series of lectures, panel discussions and practical work.

The teachers also familiarized themselves with a scale model of the St. Lawrence river power project and visited the testing laboratories of the Canadian Standards Association in Rexdale.

80 Attend Reunion Of Rolston Family

Mr. and Mrs. Jas. Rolston, Mrs. Anne Rolston and Lorrie, Mrs. Amy Walker, Jack, Gary and Brian attended the Rolston Family Reunion at Stanley Park, Erin, on Sunday. Eighty guests were there from South River, Peterborough, Peterboro, Toronto, Galt, Guelph, Acton, Arthur and Royal Oak, Muskoka.

Mr. and Mrs. Geo. Hawk and Connie of Rockton had travelled the farthest to be there. James Rolston was the oldest, Lorrie Rolston was the youngest.

Perfect No-Accident Record Trainman Started with Radial

The forgotten hero of railroading is the section hand, asserts a trainee man with a perfect no-accident record in 41 years with the CNR. Joseph Watson, who spent the early part of his life at Acton, has been brakeman, trainman and conductor.

Last month Mr. Watson, whose home is now on Colbeck St. in Hamilton, was greeted by his wife Stella and their twin sons, Leslie and Aurora and Leonard of Peterborough, and a crowd of railway associates, as the "Continental Limited," from 54, pulled into Union Station. Mr. Watson was retiring at 65.

He was born on the fifth line, the son of Mr. and Mrs. John Watson, and went to Banrock school. He started his career on the electric railway between Toronto and Guelph when the line first opened up, and left two years before it quit.

He was conductor on the heavy old coaches. There was also a motorman. He recalls many pleasant trips on the old line. He was 13 years on the radial railway.

He transferred to steam as a brakeman and operated for 15 years on passenger runs between Toronto, Capreol, Hornepayne and Foleyell.

"Sometimes our train has been within a few rail lengths of a washout or broken rail when we stopped, after being flagged down by an alert section crew. My accident-free record is largely due to them," he said.

Then he added, "I've been fortunate to work with excellent train crews, too. They had to be on the job to pick up the warnings that averted accidents."

Mr. Watson was selected for the crew of the Royal Train during the 1951 visit of Queen Elizabeth, then the princess, and Prince Philip. This was a real honor.

Train orders on his last run were full of congratulations and best wishes signed by his superiors and all dispatchers on his run.

Retirement for the couple means car trips to western Canada and California. This week Mr. Watson dropped into the Free Press office when he was passing through.

High School Teachers Take Summer Course

Three high school teachers are completing their teachers' training by taking the five week summer course at the Ontario College of Education in Toronto this summer.

Miss Groode, will be going to teach in Ottawa in the fall. Mrs. Galloway and Thomas Campbell will be returning to Acton high school.

ACTION SONG in Ukrainian is absorbing for these uniformed members of the Ukrainian Youth Association of Canada. The day-long program at the camp east of Acton marked the tenth anniversary of the association as the large crest in the background indicates. Some of the children taking part in the program were dressed in brightly embroidered national costume.

The camp has grown steadily in the past four years. A second swimming pool is to be built.

Encyclopedia Gives Action Information

The Encyclopedia Canadiana, a new volume of reference books concerning exclusively Canadian topics contains an entry on Acton in its first volume.

It reads as follows:

Acton, Ont., town in Halton county, 45 miles west of Toronto and 35 miles north of Hamilton. On the Toronto-Sarnia line of the CNR and at the junction of highways 25 and 7. First settled about 1820, it was known as Davville and Adamsville. In 1844 Robert Swan, the first postmaster, named it after Acton in England. Incorporated as a village in 1873, Acton became a town in 1950. Industries include tanning, woodworking, glove-making, flour milling, machine making, and the production of engineering and factory equipment, knitted products, various plastic products, electrical apparatus, and ceramic, wood and dairy products. Public library and weekly newspaper, Free Press.
