Seek Board's Approval To Start Glenlea Paving

By-Laws covering road paving improvements until the entire Glenlea subdivision and extension of paving on Acton Boulevard were given two readings and forwarded to the Ontario Municipal Board at a special council meeting on Thursday, July 31.

Deputy Reeve J. Grey and Councillor G. V. Barbeau were absent.

It was reported the total cost of the work would amount to \$19,000 including engineering fees, less grants from the Department of Highways.

Over 10 Years

It was recommended that debentures be issued for the work over a 10 year period and finance chairman Reeve W. Wilson suggested the debentures be levied over a 15 year period.

It was pointed out by the Reeve the 15 year period would equally balance the present cost of maintenance on the roads in the sections affected by construction.

Install Services

Councillor J. Goy enquired if the pavement would have to be torn up to install any services into Glenlea and clerk J. McGroarty informed the councillor that 32 water services would be installed this fall before paving.

Mayor W. H. Cook informed council members the road committee was trying to ensure the prevention of tearing up new pavement.

Enlarging on his opinion to spread debentures over 15 years, Reeve Wilson reminded council that prospects on hand indicated close to a 10 mill increase.

Budgets 15 Years

He suggested if the debentures were taken over the 15 year term it would cut the increase by one mill. Mr. Wilson reminded his colleagues he agreed it was money well spent on the project but would consider spreading the payments over a longer period.

Councillor J. Hurst added, "We are only throwing approximately one mill down the drain keeping up the maintenance on them roads."

Council discussed the possibility of the O.M.B. refusing the request and Mr. Hurst pointed out the road committee had spent considerable time reviewing the situation and making recommendations. He told council the committee agreed this proposed paving and work would put a finish to expenditures in those areas for roads and drainage.

Section A Year

"I favor a recommendation be put in the book for next year's council to take another area in town and make necessary improvements."

Two Hospitalized In Car-Truck Crash

Two persons, Mr. and Mrs. William Harding of 20 Cameron Ave., Scarborough, were hospitalized Wednesday morning shortly after 8:10 a.m. when the small English car in which they were travelling was in collision with a transport truck owned by Crawford Transport, Guelph, at the corner of Queen and Yonge Streets.

Corporal Ray Mason of the local OPP detachment was called to investigate and after examination by a local doctor, the couple was sent to Guelph Hospital. Mr. Harding was unconscious.

Corporal Mason reported the small car driven by Mr. Harding was proceeding west at the time of the accident and failing to make the turn, crashed into a heavy transport truck driven by Sheldon Pemberton of Guelph, proceeding east.

Corporal Mason estimated \$1,000 damage to the car and \$25 to the truck. He also noted there was a light rain at the time of the accident.

Two Local Drivers In \$450 Accident

An estimated \$450 damage resulted from an accident on No. 7 Highway, one mile west of Acton, Friday. The drivers of the cars were reported by police to be Clinton W. Taylor of R.R. 1, Acton, who suffered \$200 damage to his car, and Chester Peysa of 40 Acton Blvd., Acton with \$250 damage.

A CALITHUMPIAN PARADE started off the third and last day some of the many children with their decorated bicycles, tricycles, doll buggies and fancy dress costumes, proudly marching before the crowd that lined the streets from the C.N.R. station to the Acton park. Local O.P.P. officers and Acton firemen policed the area and halted traffic during the parade.
