### Home and School Association Finalize Season's Program

With over 1,100 children registered at the three Acton schools, the executive committee of the Home and School Association have acted with commendable achievement in meeting the challenge of formulating the 1958-59 program.

Details were finally agreed at the executive committee meeting held on September 8. Under the chairmanship of Mrs. Eileen Buckner, the program committee has succeeded in obtaining the services of a number of prominent speakers to participate in the varied programs, each of which should provide an exceedingly interesting evening.

Particulars will be mailed to each parent within the next few days.

**Prizes Awarded**  
As in previous years, a prize will be awarded to the room with the best parent attendance. A novel innovation will be the method of scoring which is to be based on the status of the parent, e.g. one point for a Mother, two for a Father and so on. The competition is to be open to the three schools and awards will be in the form of film strips.

Under the chairmanship of E. Scott, the publications committee has been busy establishing a library of pamphlets and booklets of particular interest to parents. These will be displayed at each meeting and copies can be purchased at a nominal cost. Other literature from the "Country Learning Library" will also be available.

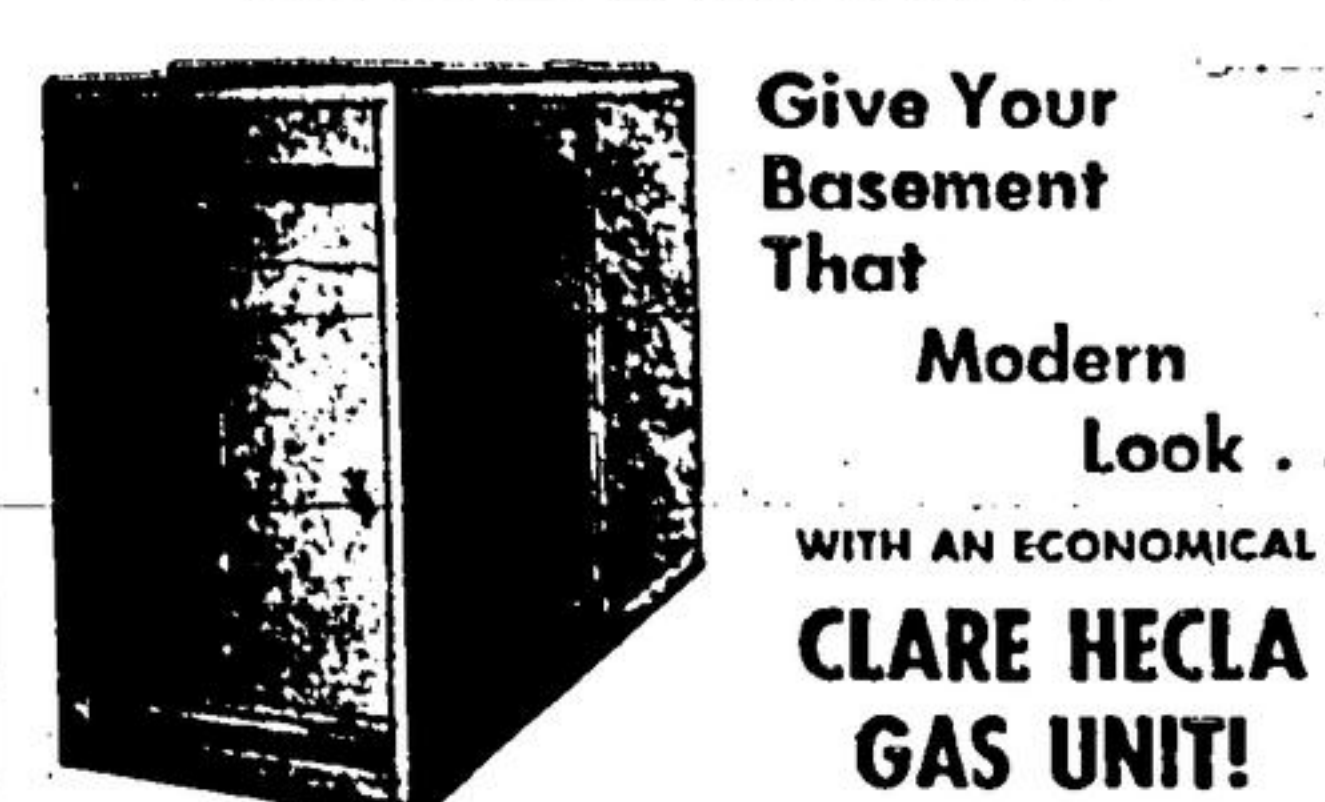

**Skills to be Presented**  
Mrs. E. G. Franklin has kindly consented to present skills of logical interest at some of the meetings. At other meetings, short teacher addresses explaining the curricula for the various grades will be delivered.

Mrs. Enid Tarrant is the lunch convener and will be responsible for providing the refreshments. The meetings are to open promptly at 8.30 pm and to finish as closely as possible to 10.30 pm.

The committee is endeavoring to establish a "baby sitting service". More about this later.

A great deal of effort has been expended during the summer months by the various committee members and a first class program has been arranged.
