AND WHEREAS it is desirable that the attention of the public be directed to the extent and underlying causes of the preventable loss of life and property by fire, and to the best and most practical means for its control and that a specific period of the year be set apart and properly designated for the dissemination of such information;

NOW KNOW YE THAT WE by and with the advice of Our Privy Council for Canada have thought fit to designate and do designate the week commencing

2. All theatres, hotels, hospitals, institutional and assembly buildings be inspected and provision made for all changes necessary to protect the occupants in case of fire.

3. Fire drills be held for the children in all schools for the inmates of all institutions, and for the employees in all factories, in order that a greater degree of safety be ensured by acquainting the occupants with the best and most expeditious mode of exit in time of danger.

4. Special instruction on the subject of fire prevention be given by the teachers and by municipal officials in the schools and that such appropriate literature as may be made available be distributed to the pupils.

5. Federal, Provincial and Municipal authorities endeavor by means of public meetings, the press, radio-broadcasts, specially prepared motion pictures or otherwise at any to their own means to impress upon the citizens the national importance of protecting life, property and natural resources from loss by fire.
