United Church to Hold Second Stage Canvass

The development program of Acton United Church, begun in 1955, entered its second stage this week with the formation of a committee to supervise a "let's-finish-the-job" canvass of all congregational families. The goal of the canvass has been set at \$85,000.

All Long canvass general chairman, said that the funds secured will cover the cost of finishing the new church building, and also will include normal weekly contributions to the church budget and to Missions and Maintenance.

"We will seek weekly pledges, payable over a three year period," said Mr. Long, "just as we did in the 1955 canvass. This time, however, we are asking all church members to include in their pledges not only building fund contributions but also their normal weekly envelope giving. In that way, we will be able to meet the financing costs of operating the church, make a more fitting contribution to the United Church Missions and Maintenance program, and also build the upper structure of the new building. We also plan extensive repairs and renovations in the existing church structure."

Handy School Increasing

Mr. Long said that although the basement of the new church had been built and was being used by the Sunday School, more children than ever before were now on the rolls.

"We simply must have more space," he said.

High point of the canvass was the Loyalty Dinner, to be held in the Legion Hall next week. The dinner will be free, there will be no solicitation of pledges at that time, and every church family will be individually invited by the

Estimate Over 75 In Poppy Drive

H. O'Rourke, chairman of the Poppy Drive this year for Acton and district, reported what looks like the biggest poppy campaign to date will get underway tomorrow evening (Friday) with a canvass of homes.

Again on Saturday, another force of volunteer workers will conduct the traditional flag day on the streets. An estimated 75 people or more are involved in this year's campaign.

It is expected that Acton and district areas will be thoroughly canvassed, reported the chairman.

Mr. O'Rourke emphasized that poppy funds are held in trust and are not used for Legion branch operation.

"This money is earmarked for welfare work and that's where it goes," stated the chairman. He added that over 70 per cent of all such welfare work was for veterans or dependents who do not belong to the Legion.

In commenting further, Mr. O'Rourke pointed out that all proceeds from the campaign in Acton are used in this area for welfare purposes.

**KNOW THE FACTS
CONCERNING THE BAND
BY-LAW**

Here are some of the facts:

1. This will not be an added burden as the Town has been paying this 1 mill grant for a number of years. A "yes" vote will insure its continuance.
2. To support the Acton Citizens' Band and the Junior Pipe Band in their work will only cost the average taxpayer about \$2.00 per year.
3. If Bands were to be hired for every parade and concert held in Acton every year, the cost would far exceed the amount of the grant.
4. A tremendous amount of musical training is provided free to Boys and Girls wishing to avail themselves of such training.
5. Every time these Bands go out of Town to play Acton gets a great deal of good publicity.
6. Acton has had the honour of having a Band for 80 years contributing to the cultural life of its citizens, both children and adults.

The baby feels secure... but is he?

Family safety involves more than physical protection. There should be guaranteed financial security. Millions of Canadians get this through Life Insurance. They own more of this valuable property, in relation to national income, than any other people in the world.

Waste no time worrying about that small boy. He has a two-fisted grip on security. He belongs to a family which considers Life Insurance an essential part of its progress towards financial security.

Canada is rich in families that treasure life insurance as a present pledge and future promise of security obtained by their own initiative.

Friendly, helpful agents have shown 7 1/2 million Canadians what a valuable property life insurance is. Every year an increasing number of families buy life insurance as their major source of family and personal security.

Nowadays, living policyholders receive 5 1/2 million dollars, every week, from the Life Insurance Companies in Canada.
