

SALLINAFAD

W.M.S. Thankoffering Held Institute Meeting at Manor

The W.M.S. group held their fall Thankoffering meeting in the church on Sunday evening. The main feature was the film recently produced by the World Council of Churches, "The Long Stride," which illustrated the work done by the church among the refugees in Europe and Asia. Mrs. Ernie McElroy, president of the Evening Auxiliary, presided. The west end service was taken by Miss B. Hiltz and Miss F. Smith. The C.G.I.T. assisted with the music. Three members of the Mass Band accepted the offering.

Rally at Clarkson

A car load of Y.P.U. members attended a Provincial leadership training rally at Clarkson and enjoyed a very pleasant afternoon and evening with spirituality and socials.

Mass at Masser

Seven members of the W.I. met at Masser and held their meeting with the residents at Holy Name. Mrs. Jessie McElroy opened the meeting with the regular Mass and Mrs. Stewart Clegg. Mrs. Frank Smith gave an inspiring talk. Roll call was answered by 13 members with 10 more attending.

Mrs. Robert McElroy had charge of the scripture study from Roll call was answered by 13 members with 10 more attending. An increase to 12 pupils will probably mean another teacher.

Acton Pupils at Sunshine School

From its beginning with three pupils in 1953, the Sunshine School for Retarded Children in Milton has grown to a present enrollment of 10 that includes pupils from Acton, Eylesburg, Milton and the district.

Today officials are stressing the urgency of the future in providing for an even larger enrollment that those who are retarded may be offered constructive activities.

See Larger Group

Executive officials foresee a possibility of five more pupils being admitted in the near future. It is felt that, indeed, if our quarters can accommodate 15 pupils, a pamphlet is being submitted during Retarded Children's Week.

The present school has one principal and one teacher. An increase to 12 pupils will probably mean another teacher.

Support for School

President G. Addison noted recently that the Association's 1958 budget shows an anticipated deficit of nearly \$4000. This money is required to operate the present school, expand facilities next year, at least by the addition of a speech room, and prepare the capital expansion to larger quarters.

Fire Help

Officials this week are asking citizens when they receive the bill of fare, to contribute the needs of the Association to return whatever contributions possible that the work for the Retarded Children of this district might be carried on.

Mr. and Mrs. Wm. Near of Elora attended church here on Sunday morning and visited with Mr. and Mrs. Fred J. Shorthill.

Mr. James Kirkwood, visiting with Mr. and Mrs. Max Camp McElroy, congratulated Rev. and Mrs. James K. Westcott of Masson Park on the arrival of a young son.

PERSONALS

Mr. and Mrs. J. Krepek and family visited in Huntsville the past weekend.

Mr. and Mrs. Frank Marion of Toronto called on Mr. and Mrs. O. Dills on Sunday.

Many from this district are attending the Royal Winter Fair in Toronto. Some are exhibitors.

Mr. and Mrs. Frank Browning of Toronto visited with Mr. and Mrs. G. A. Dills on the weekend.

Mrs. Frank Gibbons has been a patient in Guelph General Hospital for the past two weeks.

When fat or other greasy substances catch fire on the stove, another flame with a cushion ring or anything which will keep it away from the flame. Don't grab the hot pan and try to carry it outdoors.

Acton police are continuing their investigation of the break-in.

RED GAS CAN

Cadence, benzene, naptha and other flammable liquids should be kept in metal containers. Paint gasoline cans too so they won't be mistaken for kerosene cans. And never try to start a fire with gasoline. The vapour explodes.

Acton police are continuing their investigation of the break-in.

SUNSHINE SCHOOL for Retarded Children serves a need for the people of the North Halton district with its four room school where mentally retarded children receive the proper instruction in education by qualified teachers. Acton students at the school are Barry Cripps, Harold Johnson (left) and Kenneth Sternitt, shown with teachers Mrs. R. P. Jeffreys and Mrs. Tom Mitchell, both of Campbellville.
