Eighty Fourth Year, No. 22.

ACTON, ONTARIO, THURSDAY, NOVEMBER 27, 1958

Second Section.

Vote on Public Utilities Formation in 1926 Commission Begins Operations in 1927

CALIBRATING METERS of the hydro building on Alice Street keeps workers busy, in order to have a supply on hand. Pictured above D. Mason, hydro superintendent gives a meter the final check before putting the okay label on it. One of the many jobs handled by the department of the P.U.C. it assures consumers their hydro consumption is correct. Other workers in the hydro department are E. Evans, A. Showers and D. Anderson.

Chairman J. J. Stewart Explains P.U.C.'s Hydro Improvement Plans

A major hydro improvement program and improvements to the stated that they should help the local commission to provide still more efficient service and at the same time meet the growing needs of the community.

Such undertakings are part of a long range expansion program now under way in the province to provide improved service for both urban and rural Hydro consumers. Work is depending more and more on a wide range of conveniences to enable them to "Live Better Electrically."

Mr. Stewart said that the expenditure of \$42,160, approved by the Acton Public Utilities Commission, J. J. Stewart, the chairman, announced today.

The program includes the purchase of Ontario Hydro's No. 1 Substation at Acton as well as ex-

Commenting on these plans, he

said: "The P.U.C. has been

endeavoring to keep the cost of hydro as low as possible.

Mr. Stewart said that the ex-

pense of \$42,160, approved by

the Acton Public Utilities Com-

mision, will be financed from available funds.
