

Canada 1959

A steady rise in economic buoyancy can be expected next year throughout most of Canada. That is the heartening prediction which can be drawn from the economic outlook in this country and the United States.

Of course we cannot predict what will happen should the world take a turn for the worse. A major war or even a minor one of those like such a thing any more, but there is no one planning on disaster.

Canada has come through three years of unprecedented growth. Through a massive immigration movement and one of the highest birth rates in the world, the Canadian population has been growing steadily and steadily.

This winter has resulted in building of great residential developments, new schools and highways, clinics and hospitals, dams and hydro-power plants, and have been built by new homes. The construction of thousands of cars, the expansion of major highways, of furniture and furnishings.

The country has gone through a healthy expansion for the past year. Expansion in the capital cities has been high. Industries with the highest rates we have become diversified.

Now we feel Canada is ready to start a new period of expansion. The expansion program will be a three-year program. It will be a steady, steady, steady program.

New Package Arriving

A completely new package of services will be offered in 1959. The new package will be a steady, steady, steady program. It will be a steady, steady, steady program.

The new year will be offered in a steady, steady, steady program. It will be a steady, steady, steady program.

There are many very active things ahead for Acton in 1959. We will look forward to the opening of a new school at Acton. High schools will be built at Acton. We will look forward to the opening of a new school at Acton.

To the town we will be added a new school. The new school will be a steady, steady, steady program. It will be a steady, steady, steady program.

For the town we will be added a new school. The new school will be a steady, steady, steady program. It will be a steady, steady, steady program.

Early spring will see extensive work on the Glen's paving project which will add another link in the almost completely town-wide program of paved streets.

This year 1959 will be the last for the Public Utilities Commission which was set up at the last election voted out of existence. This is probably one of the years to get question marks. Promises of the coalition have already admitted lack of any plan to take up the road work program. We will be watching to see what happens.

On the hopeful side of events, almost we must place the construction of an industrial sewage treatment plant. Negotiations undertaken late in 1957 will perhaps be completed in 1959.

If this follows we can also hope that the Canada Packers plant will get into production to provide another shot in the industrial arm of Acton.

It seems possible too that more accommodation will be on the drawing boards for Acton's public school system following results of recent surveys.

Looking ahead at any year through the

new package we hope to get together with the opening of some of the things that will be done for the town.

Complete reconstruction of the school area with the installation of a new school and a new school. The new school will be a steady, steady, steady program. It will be a steady, steady, steady program.

Some new streets will be built. The new streets will be a steady, steady, steady program. It will be a steady, steady, steady program.

Some new streets will be built. The new streets will be a steady, steady, steady program. It will be a steady, steady, steady program.

THE GOOD OLD DAYS

BACK IN 1938

Taken from the issue of the Free Press Thursday January 1, 1938

The 1938 meeting of the R.R. Co. of the Province of Ontario, held at the Hotel Windsor, was a most successful one. The meeting was held on the 29th and 30th of December, and was attended by a large number of representatives from all parts of the province. The meeting was held in a most comfortable and convenient manner, and was a most successful one.

Brief Comments

The ancient Persians gave their friends eggs on New Year's Day. The hatching of eggs symbolized the beginning of a new life.

The Chinese and Japanese literally wipe the slate clean for the New Year. Research experts say they pay their debts and settle accounts before a new year begins.

Queen Elizabeth I built up a collection of hundreds of pairs of richly embroidered and jeweled gloves through the custom of New Year's gifts.

Jim's Jottings

CHRISTMAS with all its gay whiffles has now been tucked away in most minds as a pleasant memory. It affects will undoubtedly weigh on us fathers' trip over the newly received boys' mothers face the unending chore of packing them up and everyone else enjoys writing a new, to you of gloves or reading a favorite book. I hope your pleasant memories stay with you for the years to come.

BUT NOW the old year is approaching its final hours and ahead lies a brand new sparkling 365 days of 1959. Financial experts are offering their predictions, weather forecasters are changing their terms, predictions and good good every one has some thoughts for the year ahead.

THIS CHRISTMAS and New Year's season has brought us just about the longest holiday for several years. Publishing schedules prior to Christmas and New Year's Topsy-turvy celebrations were pretty hectic but the welcome lull today break that our companies, each of the holidays has been well worth the effort.

IT'S A LOT of fun to get time from the unending deadlines for a

chance to take the boys' sled riding or to take a garage from their little cars. Make one wonder if the hectic pace of modern living is as pleasant as we think.

THE FREE PRESS goes into the New Year with a new magazine and a new staff. I don't expect there'll be any radical policy changes but I'm sure it's a move that will keep the paper in close touch with the experts of the community. Dave and I'll be at the Free Press are looking ahead to the annual production of the best possible newspaper.

BUT BEFORE my space runs out I want to say a personal word of thanks to all the correspondents, press reporters, organizations, readers, advertisers and hundreds of others who have helped us all at this office through 1958. No one person or small group of people can make a newspaper.

It takes an entire community if it is to be a true mirror of that community. I'm looking forward to 1959 with its new challenges, its new opportunities and its 365 fresh days. While it may be a well worn phrase, may I, in all sincerity, wish you a Happy New Year.

The Acton Free Press
