Yule Garbage Most Ever Collect Load Each Hour

Six town workmen using two trucks worked nine hours on Monday collecting 18 loads of garbage during the regular collection and had to leave three streets uncollected.

On Tuesday morning three streets lined with garbage were completed to end the after-Christmas collection.

All Rutland town workmen repaired the largest garbage collector in the history of the town after Christmas Day.

In summing up the Monday's work one person noted that a full load of garbage was collected each hour of the working hours on Monday.
