9 p.m.

Without Water for 36 Hours Receive Supply in Milk Cans

Approximately 12 homes in the Gleason subdivision were without water for their services for almost 36 hours last weekend when a water main on Churchill Road split forcing the shutoff while repairs were made.

Water Superintendent Jack Laurin

Water Superintendent Jack Laurin secured milk cans from a local dairy and supplied the residents with fresh water from Saturday midnight until nearly two o'clock Monday afternoon.

The superintendent reported the 6 inch watermain had split open, forcing the water to the surface of the road. The water was spurting out in the form of a small geyser, it was reported.

When workmen made necessary repairs with a power shovel they had to tunnel three feet of dirt in the ground.
