

# Seeks Costs on 10 Room Addition Council Returns Motion to Board

Continued from Page One  
we give them proper facilities, stressed Mayor Cook.  
Be "Realistic"  
Councillor Watts replied "I agree we should provide facilities but we must be realistic. We will have to ask the taxpayers to pay for this school and I don't think they will pay bills."  
Mr. Lowe suggested a meeting with the entire council and school board be held to discuss the situation further and Mr. Watts suggested a public meeting.  
Mr. Lowe sparked a verbal motion for council to meet with the board to discuss all pertinent facts and was supported by F. Watts.

### Board Knows Facts

Before the motion was called, deputy reeve J. M. Greer reminded council the school board was an elected body and in his opinion they knew all the pertinent facts regarding the necessity of a new addition and said he was voting against the motion.  
Councillor Lowe remarked, "Council is interested in a better end product and want the most for their money."  
Mr. Hachlin said "I'm sure they can find temporary room for the children for next term."  
F. Watts suggested that perhaps the school board did not know all the relevant facts and possibilities regarding conditions at Milton and Mr. Cook explained everything had been discussed at the special meeting with the board.

Reeve Guy reminded council the board is an elected body who are aware of their responsibilities to the people for expenditures.  
At this point F. Watts asked if he could have the assurance that the board was aware of all the pertinent facts regarding the entire situation and Reeve Guy informed him the board had digested everything discussed at the meeting.  
"And they still say they need the addition," remarked Mr. Watts and Mr. Guy answered "Yes, they still say they need it."

Mr. Watts informed council if this was the case then he was willing to withdraw the motion as a second but was informed by the mayor it was up to the sponsor of the motion, councillor Lowe.  
At this point of the conversation Mr. Lowe requested the mayor to call the motion. When a vote was

taken councillor Lowe was the only one to vote in the affirmative to have council meet with the school board.

### Reasons Property

Council endorsed the recommendation of planning board to rezone the property of Mrs. R. Murray on Mill street south from residential to commercial.  
This action followed an explanation by C. F. Leatherland, solicitor for Mrs. Murray, who pointed out his client had received an offer to purchase the property if it could be rezoned.  
Mr. Leatherland reviewed the location and pointed out its location did not favor a residential house and explained the proposed purchaser was interested in operating a plumbing shop and sales office from the location.

Council accepted the gas and oil taxes from Grant's Motors for supplying all the town vehicles following the opening of tenders submitted.  
During the sewer and water committee report by chairman J. H. Guy, he outlined procedure last year with regard to the committee's activities and reviewed circumstances leading to the shutting off of water from the south spring, for the benefit of new council members.

Mr. Goy informed the new members that following a report from the Ontario Water Resources Commission regarding the condition of the water at the south spring and a report from Dr. Ball of the Halton County Health Unit, the water had been turned off.  
Mr. Goy noted that at a hearing with Dr. Berry of the O.W.R.C. in Toronto in the early part of January of this year, it had been suggested that council investigate the possibility of an industrial sewage plant.

Mr. Calinbert of the O.W.R.C. had suggested that the condition of the water at the spring would clear up within two years after spraying at Beardhorns had stopped.  
The mayor informed Mr. Watts the town was contributing quite a bit to Minor Sports in providing ice and hiring a full time employee to make ice at the arena. He also noted that a suggestion by Councillor Hachlin to have the Minor Sports committee approach people with equipment to do the work for them might be a good idea.

Mr. Goy informed council that Dr. Berry had notified him that the holdup in further negotiations regarding an industrial sewage plant had been because Beardhorns and Canada Packers had requested the O.W.R.C. to build the plant to exclude the municipality.  
Would Include Town  
Reeve Guy informed council that Dr. Berry had notified him that the holdup in further negotiations regarding an industrial sewage plant had been because Beardhorns and Canada Packers had requested the O.W.R.C. to build the plant to exclude the municipality.

It was pointed out that the O.W.R.C. had reached a decision that if the plant was built it would include the municipality.  
Councillor Lowe enquired why the O.W.R.C. had refused to build the plant and exclude the municipality and Mr. Goy remarked "The O.W.R.C. decided they would be setting a precedent and their purpose was to work with municipalities."

Want Progress  
Council was notified that the O.W.R.C. felt the best action would be to attempt to get some progress on building a new plant for industrial purposes. Continuing his report Mr. Goy said, "Mr. Gallaher said he would stake his reputation on the fact that within two years after spraying stopped the water would be okay."

Three Action Council  
Councillor Hachlin suggested it might be a good idea to investigate further the possibility of a new plant and reeve Guy informed him it was understood council should be guided by action taken by the companies in view of the O.W.R.C. report.

Mr. Lowe asked what would happen if there was a dry summer and the Churchhill Road water supply wasn't sufficient. Mr. Goy remarked, "I think the first people to suffer would be the industries as we have a sufficient supply for domestic users."

Refuse to Plow Snow  
A request from the Parks Board on behalf of the Acton Legion Minor Sports committee for council to plow an area on the race track for parking cars on Booster Night was refused by council.

The request was forwarded to council by councillor F. Watts, representative on the parks board.  
Councillor W. J. McLeod asked why the Minor Sports did not get their own parking area cleared as they received everything free of charge at the arena.

Councillor H. Peal informed members it took every cent Minor Sports made to provide equipment for the youngsters.  
The mayor informed Mr. Watts the town was contributing quite a bit to Minor Sports in providing ice and hiring a full time employee to make ice at the arena. He also noted that a suggestion by Councillor Hachlin to have the Minor Sports committee approach people with equipment to do the work for them might be a good idea.

Mr. Allen's efforts in obtaining these films from the Oakville Public Library were very much appreciated by his audience.  
A chorus of 12 young girls and boys, 11 and 12 years of age, belonging to the E. J. James School in Trafalgar brought great pleasure to the residents of the Manor on Friday evening February 6, when they presented a program of vocal and instrumental numbers. The singers had been brought to the Manor by the Oakville Kiwanis Club and they were introduced to their audience by Mr. Keith Warren, chairman of the Senior Citizens' committee of the Club.

# Films, Young Songsters Are Winter Diversions

Three tables of chairs were in place at the meeting of the Senior Club at Tuesday evening, February 3.

Film Night  
Four short motion picture films that were both interesting and educational were shown by Mr. Allen on Thursday evening, February 5. The first film, which was in color and bore the title North to Hudson Bay, was one of a series of films called Canadian Vacation Series. It depicted the nine-day journey taken by passengers on the Muskogee Special, an excursion train that runs once every summer from Winnipeg to Churchill on Hudson Bay, with a stop over at Ft. Flin Flon. This film is especially interesting to Canadian audiences in view of the fact that Churchill is daily becoming an important Canadian ocean port.

The second film, "Perspective" described the visit paid by a news paper reporter to Salt Springs Island off the coast of British Columbia. Salt Springs Island has been developed as a community for senior citizens, and the numerous interviews in the film between the reporter, spoken of above, and some of those senior citizens proved how rewarding and enjoyable living in such a community can be.  
Coho Fishing on the Fly was the title of the third film. It shows how the Coho salmon are caught with flies along the coast of British Columbia. This picture too was in color.

The last film "Life on the Western Marshes" was especially attractive and interesting. It had been filmed by field men of the organization called Ducks Unlimited. Although dealing for the most part with Mallard ducks, the film showed the various other forms of bird and animal life that abound in the Western marshes of Canada.  
How research and conservation are carried on in connection with these marshes, how forest fires in the marshes are fought, and how the marshes are kept from drying up by building dams, made a very entertaining picture.

Mr. Allen's efforts in obtaining these films from the Oakville Public Library were very much appreciated by his audience.  
Young Songsters  
A chorus of 12 young girls and boys, 11 and 12 years of age, belonging to the E. J. James School in Trafalgar brought great pleasure to the residents of the Manor on Friday evening February 6, when they presented a program of vocal and instrumental numbers. The singers had been brought to the Manor by the Oakville Kiwanis Club and they were introduced to their audience by Mr. Keith Warren, chairman of the Senior Citizens' committee of the Club.

Appropriate Remarks  
In view of the fact that Ash Wednesday would be observed in three days' time, Mr. E. Orkover, minister of Knox Presbyterian Church in Milton, who conducted the service in the chapel on Sunday afternoon, delivered an inspiring sermon especially appropriate to the Lenten season. Prior to beginning his sermon Mr. Orkover had read part of chapter 6 of St. Mark's Gospel.

Mr. M. C. Overholt of Toronto visited the Johnstons last week.  
Mr. and Mrs. Bob Humley and their two sons of Preston were visiting in town Sunday.  
Mr. Bob Clarke, editor of the Alliston Progress, called at the Free Press last Thursday.  
Mr. and Mrs. D. Ryder and David visited on Sunday with Mr. and Mrs. G. V. Tatham and family, Willowdale.  
Mr. and Mrs. H. W. Hinton have returned from Toronto where they visited with Mr. and Mrs. C. O. Burns and family.  
Mr. and Mrs. G. Rogovskion, Marilyn and Roy, visited former Acton residents, Mr. and Mrs. Kelly Thorntons of Oakville Sunday.  
Mr. Jack Mainprize of Montreal was visiting on the weekend with his parents and other relatives. He stopped off on his way home from a business trip.

Members of the Georgetown Arts and Crafts held their annual meeting at "Spot on 7", the home of Miss Gladys Fraser, when new officers were named. Mrs. W. J. Bentley was elected as tea convener.

### Hints Hot

In case you forget before going out shopping, write down everything you want on a luggage label, then tie it on the handle of your shopping bag. It is much simpler than looking in your purse or handbag for a loose sheet of paper.

### 23 Halton Residents Get Citizenship

Judge Wilfred Cory, of the Canadian Citizenship Court in Milton Monday granted citizenship certificates to 23 Halton County residents.

Mr. Cory also conducted the first hearing on 84 applications for citizenship.  
Four nationalities, Dutch, German, Italian and Hungarian were represented at Monday's court session.

# Mrs. Lloyd Masales Hostess Institute Plans Annual Here

Mrs. Lloyd Masales, Willow St. was hostess to the February meeting of the Acton W.I. Mrs. George Fryer, the president, was in charge of the meeting.  
Following the opening ode and prayer, the roll call was answered by each one donating a gift for the annual Penny Race. The necessary committee was arranged to make all the final arrangements for this event.

### Hold Annual Here

As the Acton Group is to be hostess for the District Annual meeting this spring a discussion was held as to the place for this meeting to be held. No definite decision was made at this time.  
Several items of business were dealt with and reports on the finances given by Mrs. Maddox, the secretary-treasurer.

The motto of the month "Do your best for the organization, and rejoice with those who do better" was prepared by Mrs. Ed Lambert and included two poems "Do something for somebody quick" and "A Boarding house with restrictions".

### Two Contests

Mrs. Hector Lambert conducted two contests in connection with Valentine's day and awarded prizes to the winners. Mrs. James Blackland, Mrs. Geo. Hargrave, Mrs. Sam

### M.P.P. Reports

## Recommend Changes to Act

On Monday, February 2, Honorable James Maloney, Q.C., Minister of Mines, presented the Report of the Select Committee on Labor Relations. Honorable Maloney was appointed Chairman of this Select Committee at the last session of the Ontario Government.  
This Committee in their report is making 51 recommendations for changes or additions to the Labor Relations Act. It is not possible in the limited time at my disposal to give you any details of this report. Any organization connected with labor relations may receive a copy of the report by applying to the clerk of the House.

Honorable James Maloney presented a statement of the development of the uranium mining in the Elliot Lake area. It is now the greatest development of its kind in the entire world.  
Loans Returned  
Honorable Leslie Frost, prime minister, made a statement in the Assembly that the moneys loaned by the Ontario government for the construction of the Trans Canada Pipe Line has been returned to the treasury of the province of Ontario. Therefore, the province of Ontario is clear of any connection with the construction of the Trans Canada Pipe Line.

Honorable J. J. Wintermeyer, leader of Her Majesty's Opposition, in his address in reply to the speech from the throne, made the remark that after the most personal election that he would be pleased to change seats with Honorable Leslie M. Frost, prime minister of Ontario.  
A very pleasant thought, but it is the citizens of the province of Ontario that change the seats in the Assembly of the Ontario government. Honorable Wintermeyer was very critical of the actions and policies of the present government—a very natural attitude for the Opposition Party in the Assembly to take—a critical Opposition always tends to make good government.

Paul Tribak  
Honorable Leslie Frost, prime minister of Ontario, in his address in reply to the speech from the throne, delivered at the opening of this session by Honorable J. Keith MacKay, Lieutenant-Governor of the Province of Ontario, paid tribute to the new members that have been elected to the Assembly since the last session.  
He also said it was the intention of the government of Ontario to do all in its power to see that there would be a group of four at the twin cities of Port Arthur and Port William to serve all of

northern Ontario and central provinces of Western Canada.  
In reply to the address delivered in the Assembly by the new member of the opposition, Honorable J. J. Wintermeyer, the prime minister made the remarks that the province of Ontario leads the North American continent in educational requirements such as schools, colleges, teachers, principals, and the largest government grants per pupil to the schools anywhere in Canada.  
Consider Extension  
The prime minister also said that the government is considering bringing the Northland Railway south from North Bay to Parry Sound.  
Mr. MacDonald, leader of the C.C.F. party, spoke for three and one-half hours on the reply to the speech from the throne. He criticized the government very severely of all its policies, especially the Farm Marketing Acts.

I would say that these Marketing Acts are framed by the producers and voted on by the producers of the different products, the marketing of which is governed by the government.

ed by certain Acts. The government just passes legislation, which is voted on by both the opposition and the government to make the marketing legal. I do not know why Mr. MacDonald attacked these Acts so strongly when he voted for the passing of these Marketing Acts in the Assembly.  
Cardboard is merely thick paper.

The clerk was authorized to pay the Churchhill Road water account amounting to \$1,853.54.  
The following accounts were approved for payment:  
Police \$1,516.28  
Welfare 172.25  
Public buildings 225.25  
Fire 115.31  
Administration, finance 59.22  
Council adjourned at 11 p.m.
