was recalled that at one time the hardness of the Main Street South spring had been in the neighborhood of 300.

Sewage Satisfactory
The report on the sewage plant operation, during time that sewage had been accepted from Beardmore and Co., was satisfactory. It was suggested that the final effluent would remain satisfactory if an excessive amount of sewage was not accepted.

The financial statement from the H.E.P.C. was received. It showed the total Commission paid \$125,839.34 for hydro electric power and had recouped it for \$200,547. A surplus or profit, after operating costs had been met, of \$74,707.66 remained.

Electric Heaters In
Superintendent Alf Duby of the Sewer Department, reported that the installation of the electric heaters, in place of a space heater, at the sewage plant had been completed and was operating very satisfactorily. The duct work changes on the heat exchanger had been completed also.

Defective Manufacture
Superintendent Lambert reported on repairs made on the water line on Churchhill Road. A split had developed in a section of the main. Commissioners decided that an account for labor and repairs to the main should be submitted to the pipe company because of the very short time the main had been in use. It was the superintendent's opinion that the pipe had been of defective manufacture.

Mr. Lambert noted there had been difficulties encountered with the hydro department had assisted with thawing.

1st Acton "A" Hawk Patrol

The Hawk Patrol consisting of Brian Otterbein P.L., Paul McGeachie second, John McNabb, Brian Sproston, and Brian Sproston left for Blue Springs in the afternoon of Friday, February 20 under the leadership of Troop Leader Peter Newton. The Scouts stayed overnight in the cabin which is owned by the Acton Scout Troop.

During the long weekend the main task was to obtain dry wood and to haul spring water to the cabin for drinking and cooking purposes. The food was cooked over a small stove which seemed to give off enough warmth to heat the cabin but not to cook the food.

However the scouts managed with the main dinner of steaks being cooked by Paul McGeachie, Brian Sproston, John Goy and John McNabb all passed their axeman-ship test but decided not to try and pass fire and cooking because of the raw weather conditions.

Both nights the fire was kept going and the boys commented how warm they were, especially the first night. The thought of home and well cooked food inspired the seven Scouts to head home early Sunday morning and reach Acton a group of tired, hungry scouts.

1st Acton "A"
This week's meeting commenced at 7:15 p.m. with the troop being called to the Horseshoe by Troop Leader Peter Newton. The breaking of the Union Jack was done by Patrol Leader Bob Hinton.

After Scout Silence and inspection, which was conducted by ASM Laurie Duby, the horseshoes were broken off and a few games were played. A test passing period followed the games and then Dave Dills, the District Commissioner, dropped in to see how the troop was progressing.

Towards the end of the meeting, the troop sat around the campfire to watch the Stag, Beaver and Bobolink Patrol put on quite amusing skits. The Beaver Patrol sang the "1st Acton 'A' song" and then the rest of the troop followed up by singing our "Farewell Song".

After all the merry making was over, Scoutmaster Hartley Colas called Norm Elliott, a member of the Stag Patrol forward in front of the troop to present him with his Second Class badge and to wish him on in the wonderful world of Scouting. The meeting was adjourned after taps and prayer. The Beavers were Duty Patrol and there was a Court of Honor.

Peter Newton, T.L.

She suggested having old pictures as well as new to show the various steps in photography. "Remember, she said, a picture is equal to a thousand words." She was surprised too, that no one had ever seen any old glass pictures.
