

FRAME BARN at the farm home of Rudolph Mulder on the sixth line of Eramosa township was severely damaged during a recent storm with high winds. The milk house is a recent addition. The stables beneath were not affected. This type of wind damage is being reported in the province-wide farm accident survey.

Plan Improvements At Church Manse

Mrs. A. M. McPherson presided for the March meeting of the Knox Ladies' Aid on Tuesday afternoon. Mrs. C. Hanson introduced the devotions with the Scripture lesson taken from the 33rd chapter of Isaiah and read responsively. Mrs. A. J. Murray led in the prayer. Easter hymns were used including "When I Survey the Wondrous Cross" and "Christ, the Lord Is Risen Today".

Reports Given
Mrs. W. McLeod reported on the various groups collecting the food products labels and Mrs. Matthews, treasurer, gave the financial report including the dinner served the Chamber of Commerce the past month.

Mrs. Fred McCutcheon, as a member of the Manse Committee, told of their visit to the manse and the improvements they wished to make.

These were approved and an early start is planned to get this project completed as soon as possible.

Members were given the holiday gift envelopes to distribute among our church women as a financial project for 1959.

Reading, Penn.

Mrs. S. Matthews contributed a reading entitled "The Green Gate" and Mrs. George Somerville a poem "A Little Kindness".

Following the closing prayer the group adjourned and the group of Mrs. R. L. Davidson, Mrs. C. Hanson and Mrs. A. J. Murray, had lunch prepared and a social time was enjoyed.

Birthdays were sung to Mrs. Peter Murray who had celebrated a birthday the day previous. Mrs. Margorie Hall expressed thanks to all those who had assisted.

Four Times

Everyone who knows the story of Dick Whittington knows the tale where the bells seem to say "Turn again, Whittington, Lord Mayor of London." As a matter of fact, Whittington was never Lord Mayor of London for the title did not exist in his day. But he was Mayor of London four times.

The first time was in 1296 when Adam Blunne, the Mayor, died after only seven months in office. King Richard II appointed Whittington to fill his place for the remaining five months of the year.

The other years in which he was Mayor were 1397, 1406 and 1419.

The title of Lord Mayor came into use in the reign of Richard III. Because paper is a vehicle of culture, its use in itself generates its own further use. Similarly, the printed word on paper sacks and paper-padded containers stimulates demand for more paper and paper.

Personal Notes...

Of Actonians Visiting Out-of-Town Points and Visitors in Acton Homes

Items for this column are always welcome. There is no charge, of course. Drop them into the office or phone 500.

Miss Helen Buckler will be in New York City for Easter.

Master Dean Lemon arrives home on Friday for his Easter holidays.

Miss Ruth McLellan of Toronto spent the weekend visiting friends in Acton.

Mr. and Mrs. C. F. Leatherland and family will be spending Easter in New York City.

Away on a three week trip to Florida are Mr. and Mrs. Mousell, Nelis, Roy, Ray and Ralph.

OBITUARY

Mrs. D. Gordon's Father Passes On

Father of Mrs. D. Gordon of Acton, William Henry Conrad passed away in Halifax, Nova Scotia, on March 20. He had had a lengthy illness and died in hospital in his 97th year.

Mr. Conrad was a retired businessman who was active in the Knights of Columbus and Holy Name Society of his church, as well as the Legion.

He was in the army in World War I, and was always fond of sailing.

Funeral service was held at Halifax on Monday with Requiem High Mass sung at St. Theresa's Church by Rev. Father Burns.

He was predeceased by his wife. Three daughters remain, Marie, Mrs. Gordon; Beatrice (Mrs. F. Murphy) Halifax and Helen (Mrs. C. MacInnes) Halifax, two brothers, George and Charles of Dartmouth and one sister Anne (Mrs. F. Pettigrew) of Nova Scotia.

He had four grandchildren.

Tips on Touring

By Carol Lane
Women's Travel Authority

Women often ask me for tips on traveling. I'd like to pass along three guide posts which I use before I give a gratuity. I ask myself "how good was the service?"

"What is the quality of the particular hotel or restaurant?" and "how much money have I?"

Consider the answers to these rule-of-thumb questions and then tip in accordance with the amount of service rendered and you can't go far wrong.

Some standard, accepted fees for specific services may prove helpful or give it to the maid personally. It isn't necessary to tip her for a one night stay.

In restaurants, tip 15 to 20 per cent of the cheque, depending on the class of restaurant. If you visit a beauty shop in the course of your trip, the operator who cuts and sets your hair gets 25c as a rule.

An operator who owns her own shop and has no help does not expect a tip. Your manicurist receives 25c in most shops, as much as 50c in luxury salons.

POET'S CORNER

HAPPY EASTER

A joyous Easter is almost here. Bringing us hope for another year. Hope that we may live to see...

He died that we may live in peace. And the reign of sin would ever cease.

He was always so kind and gentle. That he forgave me still. As they nailed Him to the rugged Cross.

Up high upon that hill. So now comes another Easter. A time for us all to pray. That our thoughts be always of Jesus. At Easter and every day.

Edith Sharpe.

For instance, in most city hotels a 25c per bag minimum should be given to the bellboy. For extra services, it is also necessary to tip the doorman for opening your door, unless he unloads your luggage or performs some other service. In smaller hotels, no tipping is required. Hotel chambermaids usually get at least 25c per person per night for stays of two days or more. It's best to leave the tip under your pillow.

Advise Commissioners Regarding Sewage Plant

Continued from Page One

duced to approximately 3,500 gallons daily. Mr. Townsend informed him it was a step which should be taken as it would reduce the hydraulic and strength loading on the town plant.

Mayor W. H. Cook told Mr. Townsend that at a joint meeting last week, R. B. Parker of the Beardmore Company had been asked about the filtration and screening process and had led the members to believe that the proceeding was quite adequate. Mr. Cook charged "You are disproving his story."

The engineer told Mr. Cook if he was doubting the observations made by Mr. Duly and himself that afternoon he could view the situation for himself, as he was in no position to answer the charge. He stressed however that all the screens in use had this hairy material on them.

Not Adequate
Mr. Cook then enquired "Actually the screening unit is not adequate?" and Mr. Townsend replied "No."

Sewer superintendent A. Duly stated "There should be nothing on the last screen and if something is showing on the last screen it is bound to get through."

Quoted on the position of the O.W.R.C. in such a case Mr. Townsend informed the commission that as far as the act was concerned, the O.W.R.C. could only take action if the effluent discharged from the plant was affecting nearby streams.

"What goes on outside of the plant arrangements with Beardmore's is not our business. We are not legally in a position to go to Beardmore's. We are only making you the P.U.C. aware of the situation and you in turn should make Beardmore's aware of the situation."

Request Letter
E. G. Taylor Sr. requested Mr. Townsend to have his department supervisor send a letter to the P.U.C. outlining conditions at the disposal plant, and the findings during the tour that afternoon on the Beardmore property in order to give the commission some basis to approach Beardmore's.

Mr. Townsend agreed to take the situation up with Len Ows of his department and suggested a letter would be drafted up reviewing the problem and returned to the commission immediately.

J. McCreche, secretary-treasurer, renewed a guarantee made by Beardmore's a few years ago when they stated the BOD content would not exceed 125 and informed the members that at present it was 400. He remarked "They say 'Sorry, we can't do anything about it.'"

Mr. Townsend suggested that if Beardmore's could cut down on the amount of water used in the plant they should be prepared to cut down on the amount of effluent to be processed at the town disposal plant.

Flooding Overloads Plant
Mr. Duly informed the commission it had been necessary to shut Beardmore's sewage off that day owing to the flooding conditions caused by the weather overloading the plant.

The engineer pointed out there was a serious condition being caused by water running off the streets.

L'Fulford President Reading Association

A meeting of the Halton Chapter of the International Reading Association was held in the Robert Little school here Wednesday last week.

Returning president Mrs. Beatrice Richardson of Oakville handed over the chair to the incoming president Lloyd Fulford, principal of Oakville Central School.

Guest speaker was Miss Marion Harvey, retired primary specialist at the Toronto public schools system.

Superintendent to procure prices on the conversion and materials. Payments of convention expenses amounting to \$200 for J. J. Stewart and \$50 for D. M. on were approved.

The following regular accounts were approved for payment:

Waterworks Accounts

Wipers & Waste Pro. Ltd.	16.53
Acton Free Press	5.00
C. F. Leatherland	5.00
	\$12,117.78. Board.

Superintendent's Report

Mr. Duly reported a pump shaft at the disposal plant had been seized and also a pump seal had broken but informed the commission both had been repaired.

The sewer superintendent also renewed his alarm at the amount of sand being received at the disposal plant.

Water superintendent J. Lambert informed the commission he had the south spring tank plowed again recently since the big blow the Sunday before.

The superintendent reported the break on Church St. Road had been repaired and pointed out there had been no freeze-ups recently.

Hydro superintendent D. Mason suggested the installation of a new breaker switch at the number one substation on Willow Street and also the conversion of the transformer in order to get 85% capacity.

He suggested it would enable the P.U.C. to purchase power cheaper. The commission instructed the
