Winter freeze-ups gooled the air know the cause of this but sugat the Public Utilities Commission gered the commission may have meeting on Thursday. Beptember compared this report with earlier 17, when the commission heard a reports He sitt seed that nee at 40 officer, 1; group leader Mrs. letter signed by Derek Milnos, 55 tests taken at the plant were I Greet following the opening ser-Meadvale Road, requesting a re-Following a news resease from bute on his water bill dating back the Ontario Hydro referring to 1955. The writer advised the commission he had been instructed supplying electrical equipment then to leave's basement top ruh- the home economies room at ning to prevent further fromze-ups Acton high school, members agreed to investigate melhods and end-

at his residence. The home owner reminded con- of obtaining equipment for missioners the problem of freezeum at his home had occurred each winter. After the contractor had been advised of the trouble. the water pipes had been lowered from his residence to the property line, but no solution had been had been placed made the buildfound through this action

Mr. Milnes rocalled notifying'J Lambort, water apperintendent proved for payment that the water pipes on the town property were lass than three feet below the surface and identitione | Acton PUC Hydro fout below the ditch level It was Highway Garage pointed out the aspeciatendent had Action Woodcraft: noted nothing could be done at that time until after catch hamin were installed

Advised of Variation

The writer possited out that J Stewart, chalman of the commission, and Deputy Reeve J M Greer were among town officials, whom this variation was pointed

Reminding the commission that winter was fast approaching and Watson Dany Bar requesting consideration he given Petty cash to this problem Mr Milnes re. Bell Telephone Co. quested a redute on his water bill Acton PUC WW from 1955 when he kept a tap running during the winter months in L. Van Norman order to keep the town line from F Prome Motors

The water superintendent in- 111 G Barlow Co. formed the commission, "I will Powerlite Devices 1.1d stake my reputation that the line H.E.P.C., August connecting to Mr. Milnes' property (ILEPC., supplies, is well buried." Mr. Lambert noted. Ferranti Packard Ltd. that during the paving of the road J R Kearney Corp. it had been taised and he was bit the opinion the water line was perfectly safe from frost.

Mr. Stewart added his opinion and said he felt there would be no freeze-ups under the roadbed.

J. McGeachie, secretary-treasurance of agriculture to the people of er, was instructed to refer Mr Milnes to a letter on file from R. farm labor that made it difficult for V. Anderson and Associates, engithe nation to become self sufficient neers, who suggested that the recently sodded area in the subdivision would have a preventative action against freezing. They recommended that dirbious water installations be left until spring.

The commission agreed to take no further action unless a freezeup occurred on Mr. Milnes' property and then dig up the area to determine the cause.

Micro Request Sewer superintendent A. Duby advised the commission a request had been received from Micro Plasties for installation of a new sewer lateral at their Wallace Avenue plant to accommodate new washrooms. 'He pointed out; however, that it would involve tearing up nearly 30 feet of roadway and recommended that plant officials be advised to saw a swatch in the cement flooring in order to hook into existing laterals.

The commission agreed the cost of the installation would be ex cessive if the roadway was torn up and suggested the company be removing a portion of the cement

Mr. Duby also noted that more The speaker was introduced by hose would be necessary to do a E A.
