Fool: Yes, and there are two sides to a sheet of flypaper, but it makes a big difference to the fly which side he chooses.

HAPPY DAYS
If the cost of a college education continues to snowball for many more years, a person can make a profit by remaining ignorant.

LITTLE DOUBT would reign in the judge's mind about choosing first in the wheat class if these two pretty girls were attached. However, the girls were snapped by the photographer as they moved in close to admire the quality of the grain. Pictured left to right are Bernice Wasowicz and Lesley Anné Dudy. Incidentally, the girls are not farmerettes but students at Acton High.

WHO WOULDN'T be a mangold or turnip if they had a pretty lassie like Jane McPhedran to cuddle them? Jane, an Acton high school student, took time out during her rounds at the Fair to recall days on her father's farm when she helped in the turnip patch.

Medallion Electric Homes

built with your dreams in mind

To be able to Live Better Electrically is all-important to modern families. Recognizing this, the electrical industry has established a standard which will guarantee the excellence of a home's electrical system. A home that features the better installations and facilities that meet this standard is awarded the Medallion Symbol.

When you buy a home built to Medallion electric standards—you are assured of extra comfort, convenience and efficiency in these three important ways... all of which help to protect your investment.

1. FULL HOUSEPOWER—with plenty of circuits, outlets and switches
2. PLANNED LIGHTING—a new high standard of lighting for all areas
3. APPLIANCE CONDITIONING—at least one major unit is already installed plus wiring to accommodate additional major appliances.

You can modernize your present home to Medallion standards

All progressive builders and electrical contractors recommend and will install electrical systems that qualify for Medallion certification.

Be sure to see the Medallion Homes on display in your area during **NATIONAL HOME WEEK** September 17th—24th
