The coyotes are often shot from the plane, and it's also used for crop dusting.

"I'm first... after all, this used to be OUR clothesline!"

Clotheslines make dandy skipping ropes. And that's about all that can be said in favour of clotheslines in this modern world of electricity.
What a "Cinderella" change has come over our woman's world with today's weather-proof automatic electric dryers. Never a care about the weather on washday . . . no more heavy laundry basket to lift . . . no more tedious, back-breaking "hanging-out."
Your surroundings change, too, when you own an automatic electric dryer . . . no more drooping, dripping basement washings . . . more space in the yard for outdoor living.
Isn't it time you made some little "skippin'" a present of your clothesline?
