

Following the dinner and program, members enjoyed a sing-along led by pianist Jack Page, Acton and baritone player Stan Campbell of Brampton. After tables were cleared, many old memories were recalled as a

time was enjoyed, after which many members and their wives attended the regular Saturday night dance in the Legion.

The event was termed one of the most successful held by the branch.

Mayor Urges Veterans To Unite For Expansion

(Continued from Page One)
Stan Hall, M.P.P. for Acton, received a warm tribute from the chairman when he stated the member of parliament had an enviable record of attendance at Remembrance Day services and noted it matched or surpassed many local members.

In his report, Mr. Hall told the audience the Legion's "m. Hallton" was doing a "fantastic job" in marking "It behooves every citizen to get behind them and assist in their excellent endeavors."

Father V. J. Moran thanked the Legion for the invitation to attend and urged members to assist in their excellent endeavors.

Rev. H. B. Stokroff, a former member of the Dutch Under ground, thanked the veterans for their help in restoring freedom to the people of Holland after five terrifying years of war.

Rev. K. Reid also expressed his thanks for the invitation and wished the Legion success in all future ventures.

Classed as the "work horses" of the branch, members of the Legion Ladies' Auxiliary were thanked on behalf of the membership by second vice president Jim Mills for their excellent work in the past and for the preparation of the wonderful dinner.

Mrs. Robert Angel expressed the ladies' pleasure in serving the branch. Members gave the ladies a big ovation in appreciation.

BP Buys Micro No Change Seen

Announcement was made this week by Building Products Limited of their purchase of the Micro Plastics Division of Consolidated Frybrook Industries Limited. Building Products also announced the purchase of two other Canadian firms.

In the announcement to shareholders by Leonard F. Long, president of Building Products Limited, he reported:

"The plastics extrusion company whose assets we are acquiring is the Micro Plastics Division of Consolidated Frybrook Industries Limited. The division's office and two factories are located in Acton, Ontario, and they are engaged in the extrusion of Carbon Polyethylene Pipe (known as 'The Pipe with a Stripe') and also the custom extrusion of a multiplicity of sheets and shapes, some of which are finished products, in themselves, but many of which are incorporated in the product of other manufacturers. As we have been doing considerable research and experimental work on plastic building elements, we feel that the organization, know-how and equipment acquired in this purchase will be of great assistance in diversification and expansion of the company's sales and profits."

No changes in the operation of personnel of the Micro plant are contemplated in the immediate future.

Began in 1946
Micro Plastics commenced operation in Acton in July, 1946, when the plastic industry was just getting started. The growth of the company has been steady.

In 1957, the original plant had grown to 30,000 square feet. At that time the building covered all the property available at that location and 14 acres were purchased on Main St. North.

Here a 40,000 square-foot plant was erected and the head office and some of the manufacturing operation were moved to this location. The original buildings on Wallace Avenue continue in use as the pipe manufacturing plant. Micro was purchased in

September, 1955, by Consolidated Frybrook Industries Limited.

Mr. Long concluded his report to the shareholders with this statement: "In addition to broadening and diversifying our operations and increasing our plant and equipment, these acquisitions either created or increased Canadian ownership of production facilities in these fields in Canada. We believe that all B.P. shareholders will be gratified as is the company's management of the successful conclusion of these negotiations."

MARCH OF DIMES campaign in Acton is being sponsored by the Rotary Club and Mrs. J. Ledger has been chosen as chief marching mother. Tuesday evening captains from various churches met with the Rotary Club members and finalized plans for the blitz. Left to right are Mrs. F. Anderson, Knox Church; Mrs. J. Bowman, Christian Reformed Church; Mrs. D. Cohen, Baptist Church; Mrs. W. Kerr, St. Alban's Anglican Church and Mrs. A. Nolan, St. Joseph's Roman Catholic Church.

March of Dimes Plans Complete Ladies to Canvass Entire Town

Working in conjunction with the Acton Rotary Club, ladies from the different churches in Acton will captain teams to blitz every home in town January 30 in an effort to assist the March of Dimes and aid the disabled.

"To make them fit to earn a livelihood again" is Mrs. J. Ledger's definition of rehabilitation. She is Chief Marching Mother for the 1961 Mothers' March on January 30 for the March of Dimes.

Mrs. Ledger outlined several valuable points during the Rotary Club meeting Tuesday evening, noting "The March of Dimes rehabilitation program has to include whatever it takes to bring the disabled man or woman to this goal."

Rehabilitation facilities must include surgical, medical and vocational aid; and for disabled mothers of small children, there must be housekeeping help as well. Rehabilitation facilities are readily available to an adult man or woman disabled from accident, disease or injury.

The comprehensive rehabilitation program of the March of Dimes is available to disabled mothers at home as it is to the family breadwinner. 1,104 handicapped persons were referred to the March of Dimes Rehabilitation Foundation in the past 12 months. Each was individually different as far as physical disability was concerned. Each disabled person required and is receiving individual attention.

Aim is independence. Sometimes expensive equipment is needed; some patients need treatment and training; others need corrective surgery. Whatever form the rehabilitating process takes, the aim is independence and self-sufficiency for the patient. Medical science provides the skill; the March of

Dimes makes it available — anywhere in Ontario.

In 1960 the March of Dimes required \$570,000 to meet the needs of rehabilitation for disabled men and women. This was about \$50,000 more than in 1959. Each year, many patients are referred to the March of Dimes. None have ever been turned away and the March of

Dimes committee in Acton hope that no one will be turned away from lack of funds.

At this time of the year, residents of Ontario know that the Marching Mothers are finalizing plans for their annual "big day" Mothers' March. Here in Acton, the local committee is planning the biggest campaign ever.

One was present to conduct the oath of office to Mr. Beatty and Mr. Taylor, who had been re-elected to the commission for another term of office.

Following this, he explained the pension plan adopted by the town to include meter reader N. Hunt. The commission agreed to pay their share.

Mrs. Urquhart chaired the meeting and the commission was appointed and then resigned over the terms to Mr. Beatty, Commissioner G. McCutcheon will act as assistant chairman for the year.

Meeting dates for future meetings were set for the second and fourth Thursday of each month. Signing power was given to the treasurer, along with the chairman or vice chairman.
