## "Jet Age" Film Enjoyed During Rotary Meeting

A film entitled "Jet Age" highlighted the Rotary Club meeting Tuesday evening, when guests and members saw the manufacturing and testing of engines at Orenda Engines. Rotarian Ken Hardman supplied the film which was much enjoyed and gave the members an inside picture of the plant operations, including the now obsolete CP-100.

Present to join the local club were Charles Wells and Percy Frid of the Guelph club and Bud Bishop, Bud James and Bill Carr of the Georgetown club.

Keen competition is being displayed by members of the Georgetown and Acton clubs as they jockey for first place in the race for 100 per cent attendance during the month of June. To date both clubs are tied and the loser will host the winning team to a steak dinner.

Induction of Nell Bowles Tuesday evening brought the membership to 22 for the Acton club. Ladies' night has been planned for next Tuesday and the event will take place in the form of a social outing at the farm home of Rotarian Jim Ledger.

It was learned that Canada placed fourth in attendance at the Rotary International conference.
