

With the Acton Boy Scouts

By Bruce Williamson

In just one week, our scout troop will be leaving for Grand Bend and their 12-day summer camp. Summer camp is, or should be, the climax to the year's scouting program.

Our camp program has been tailored to fit the troop's needs. Pioneering, camp cooking, tracking, swimming, patrol leadership, co-operation and spirit are the items that we intend to stress at camp this year. We intend to conduct the camp on an inter-patrol, rather than an individual basis as I feel that inter-patrol contests help build patrol spirit. The aggressive, capable boys encourage and help their less aggressive brothers.

Every member of the troop has been encouraged to attend this camp. If there is anyone who is not sending their son to camp, I ask you to get in touch with me and we will be able to work out a solution.

Governed by Laws

The camp will be governed by the 10 scout laws which have been accepted by every scout on his investiture into the movement and reads as follows:

- (1) A scout's honor is to be trusted.
- (2) A scout is loyal to his Queen, his country, his scouters, his employers and those under him.
- (3) A scout's duty is to be useful and to help others.
- (4) A scout is a friend to all and a brother to every other scout.
- (5) A scout is courteous.
- (6) A scout is a friend to animals.
- (7) A scout obeys orders of his parents, patrol leader or scoutmaster without question.
- (8) A scout smiles and whistles under all difficulties.
- (9) A scout is thrifty.
- (10) A scout is clean in thought, word and deed.

We are leaving Acton confident that our camp log will draw the curtain on a great scouting year—great in fun, great in adventure and great in purpose, all of which has been made possible by the splendid co-operation of the group committee, the scout and guide mothers' committee, our sponsors the Rotary Club and last but certainly not least, the citizens of Acton.

A MESSAGE
To Parents, Scouts, Cubs, Guides and Brownies
Everyone is welcome to the campfire which will be held outside the Scout Hall Friday evening. Please report to the Acton station in uniform at 7:45 p.m., where we will form up and parade to the scout hall. As this will be our last group function until fall, let us have a full turnout.

Bon Voyage Shower For Miss Chapman

One of Acton's librarians, popular assistant Miss Madge Chapman was guest of honor at a surprise bon voyage shower and afternoon tea co-hosted by Mrs. C. Leatherland and Mrs. H. H. Hinton in the latter's Park Ave. home.

Invited on the pretext of sharing an informal cup of tea with the hostesses and Mrs. H. W. Hinton Sr., the guest of honor was surprised by the arrival of other friends bringing useful travel gifts.

Miss Chapman is planning a trip to Calgary next month in the company of a Toronto friend and former local high school teacher, Miss Clara Grindley.

Small Kathy Hinton and Walter Blunn carried in the suitcase full of gifts. Present to say happy journey were Rev. H. B. and Mrs. Stokroff, Mrs. Edward Blunn, Mrs. Ted Moyle, Mrs. Russell Perry, Miss Annie Stalker, Mrs. Anthony Jonside, Mrs. H. W. Hinton Sr., Mrs. E. W. Holmes, Mrs. Art Johnson, Mrs. Kay Alger, Mrs. Arthur Gamble, Mrs. Jack Chapman and Mrs. Harold Denny. Best wishes and gifts were sent by Mrs. H. R. Force, Mrs. Cecil Nellis, Mrs. Jack Alger and the chief librarian, Mrs. Perry Watson, who was unable to attend the shower.

About 150 Attend Knox S.S. Picnic

About 150 attended Knox Sunday School picnic at Stanley park, Erin, Saturday afternoon. There were races, swimming and boating, and boys and fathers joined in a softball game. Supper was enjoyed together.

Stuffed Soft Dolls Needed by Hospital

A few hours spent this summer by interested individuals could bring some pleasure, as well as therapeutic assistance, to emotionally disturbed children at the hospital in Thistleton. This fact was introduced to the Halton Branch of the Ontario Medical Association at the June meeting held in Oakville on June 19.

Each child patient is supplied with a hard doll, which is breakable—consequently upsetting to the child. The hospital finds it can use stuffed dolls in this capacity to greater advantage. It becomes the child's possession and goes with the child upon discharge. As one can see, the demand for soft stuffed dolls is never quite fulfilled.

Anyone interested in making a doll contribution could get in touch with Mrs. A. R. Long, 90 Church St., Acton, representative of O.M.H.A.

GIRL GUIDE NEWS

Friday evening, five girls from the 1st Acton Girl Guide Company met for the senior patrol overnight hike at the Scout Hall. Mr. Hart had brought the St. John Ambulance truck and we all packed the camping equipment into the back.

The hike itself took only 15 minutes and on the way to the campsite we picked up the sixth girl, Joan Ramsden.

By 7:30 camp was set up, tents pitched, food stored away and a blazing fire going. We sat around the fire just singing and talking until about 11 o'clock. Then we doused it and went to bed.

Bright and early Saturday morning, Jill Hurst, Janet Rogivaldson and Mary Grischow were up and making breakfast. When breakfast was over and the dishes done, we began to clean up the campsite and prepare the stew for lunch.

About 2 p.m. we all went for a swim in the river which was just down the road. When we came back, it was time for supper and when that was all cleared away we packed up and left the site. At 6 p.m. Saturday evening, Mr. Blundell came to bring us back to civilization.

E.M.O. Course to Begin Schedule Demonstration

Steps are being taken in the event any emergency results and next Thursday, June 29, the Emergency Measures Organization is holding a demonstration in the scout hall in Acton to explain equipment and aspects of a planned course this fall. County co-ordinator W. B. McGregor will be on hand to explain the basic rescue course.

cheduled to begin in September and outline methods used in emergencies. Rover Scouts and a team from Beardmore and Company will take part in the demonstration and everyone is urged to attend the special meeting and enroll for the fall course. The meeting is scheduled to begin at 8 p.m.

Dr. in the House?

Liberals Show Revitalizing

Are Halton's Liberals showing through a revitalizing process? Is there more fire in the party today than in the days of the last Federal election? Friday's nomination meeting in Milton showed something of the new fire the party promised.

Harley supporters strewed the hall with banners proclaiming the virtues of their doctor-candidate, such as "keep Halton healthy, vote Harley," "If you got beefs, don't vote for Diehl," "Best failed the test," "we want a Doctor in the House," "we're just wild about Harry" and "for what ails you, and won't fail you, vote Dr. Harley."

The 20-piece Acton Citizens' Band played "Hallelujah" after each nomination was announced. There was more than a good sprinkling of youth in the audience.

The crowd rose, clapped and cheered when the Hon. Paul Mar-

Choir Picnic Driven Into Pavilion by Rain

On Monday the senior choir of the United Church held its annual picnic at Terra Cotta Conservation area. The ones who wanted to go swimming left at three o'clock with Rae West and George Elliott. Everyone went in for a dip and by 6:45 everyone had arrived and supper was almost ready.

A delicious meal of cold meats, salads and all the things which go with it. Unfortunately the rain came and all were forced to finish the meal inside the pavilion.

ATTRACTIVE LIONETTES were busy on Saturday afternoon at the Post Office as they sold admittance programs for the Community Night entertainment this Saturday at the park. Pictured left to right are Yvonne Duvall, Charlene Marshall, Mary Baker and Barbara Adams. The girls are standing beside an old buggy decorated to advertise the big event. Proceeds from the evening will be used to finance a new school for retarded children in North Halton.

Liberals Choose Harry C. Harley Next Federal Election Candidate

A crowd of 300 faithful supporters roused their approval Friday night when Halton's Liberal party chose Dr. Harry C. Harley a 35-year-old Oakville physician, to carry the county's federal banner into the next election.

Friday's nomination convention at the Milton town hall was full of surprises. Over a month ago four candidates announced their intention to contest the riding, and each conducted a stimulating campaign for several weeks preceding the nomination. But last Wednesday Cy Young dropped

out of the race and Harry Pollard, another of the original four candidates, wasn't even nominated on Friday.

In their place were Oakville supporter Lester K. Whiting and 1957-58 candidate Kenneth Y. Dick of Milton. Both declined to accept the nomination, and Michael Mutzak of Oakville, the fourth of the original four candidates, resigned to give Dr. Harley unanimous support.

Bad Times With All

In his message, Dr. Harley claimed the government's order of planes from the United States

contradicted their statement that the Avro Arrow was obsolete. "With every Conservative government, we have had bad times," he said. "Lester Pearson has proved to the world and at least John F. Kennedy that he is the man to lead us out of troubled times in international affairs."

He termed unemployment Canada's most serious problem of today, and said the government was using James Cooney as a "scapegoat" to hang their financial problems on. Dielenbaker, he added, had promised a better deal in taxes but all Ontario got was a three per cent sales tax. Education is "a necessity, not a luxury" and needs a federal program to straighten it out.

Sees Great Interest

The Hon. Paul Martin, guest speaker, demonstrated his "for Victory" sign and said "I have a strong feeling the next Liberal M.P. for Halton will be Dr. Harley. There never has been as great an interest in the affairs of the party as there is now being shown by the young people."

Attacking the Dielenbaker administration, the guest M.P. said the government is giving the farmers a poor deal and Dielenbaker's promises of better things for farmers hadn't been fulfilled yet. Turning to the recurring Avro question, he said "a whole decade of Canada's achievement was scuttled overnight" when the Arrow plant closed down. Now, Mr. Martin went on, 66 Voodoo planes have been bought from the U.S. to equip Canada's R.C.A.F. and to do the very same job the Arrow was designed to do.

Scouts to Leave for Camp Grand Bend Site Chosen

No stone has been left unturned by the Boy Scout Group Committee and scoutmaster to provide for the safety of the Acton Scouts during their ten-day camping trip to Grand Bend beginning July 2.

Months of planning for the excursion have paid off and parents of the boys can rest assured every means of safety and control has been accounted for.

An advance party will leave Saturday with equipment and tents and will be busy men setting things up in readiness for the scouts' arrival Sunday afternoon. The main campers will leave by motor car from the Scout Hall Sunday, July 2 at 10 a.m. and will return Wednesday, July 12. The site chosen for the summer

camp is Pinery Provincial Park, Grand Bend where a good sandy beach is spread over a four mile area. Medical aid will be under the supervision of two trained St. John Ambulance leaders and in cases of emergency a Grand Bend doctor is on call.

A sick-bay tent will be set up in the campsite where a trained leader will be on duty at all times and a light will be kept burning throughout the night. Tents will accommodate five or six scouts and the area will be roped off to provide safety.

Strict rules will be adhered to at all times and scoutmaster Bruce Williamson will assume complete charge of the boys. A full program of training and exercises has been planned.

Heslop Offers 150 Acres Free to Conservation Area

More than 150 acres of land and enough fill to build a dam 1,300 feet long and 44 feet high were offered free to the Credit Valley Conservation Authority on Friday night.

The offer was made by Rex Heslop, president of Delta Developments Limited, to assist in damming Silver Creek at the Ninth Line. Cost of building the dam and hauling the fill were estimated at \$250,000.

Both Mayor Ernie Hyde of Georgetown and A. M. Greenwood of Port Credit, Authority chairman, spoke enthusiastically of the proposal which was turned over to the Flood Control and Advisory Board for further study.

Mayor Hyde added that the project was vital for future water supply of Georgetown.

Chairman Greenwood pointed out that federal and provincial grants were available, if the project could be included in the

overall conservation scheme for the area.

William Carr, Georgetown Supervisor, attended the meeting of the Authority with Mr. Heslop.

"It's an ideal location for a dam," he said estimating that 300,000 cubic yards of material could be moved to the site from the immediate area.

Mr. Carr estimated from the limited details available, that it would cost \$60,000 for the earthwork on the dam and "at least twice as much again" for control structures.

Answering questions asked by members of the Authority, Mr. Heslop said his offer covered all the flood lands, amounting to 150 acres or more.

Mr. Heslop also intimated there is a possibility he would turn over to the Authority some land at the lower side of the dam.

"Good Reception" Census Ending

Only a few call-backs remained to be done today in Acton's census. Three of the four areas were completed yesterday with just a few calls left in the fourth and last.

The country census takes longer, but will likely be finished on time—this Saturday.

Mrs. Les Clark of Georgetown, census commissioner for this district, said the task has progressed well from the beginning with few difficulties. "They've been getting a very good reception," she said. Most people were expecting the enumerators and were prepared and helpful.

—A truck driven by Don Thomson of Acton received \$1,000 damage on Friday when it rolled over in a field and broke a pole on the Seventh Line near Hornby. The driver was unhurt.

Persistence indicates a strong will; obstinance a strong won't.
