

Expect Thousands For Show Steam Antique Display Saturday

Milton is in for a big weekend, if only the weather is fine. Special features both days of the planned Ontario Steam and Antique Association reunion, Friday and Saturday, guarantee something of interest for every member of the family. Officials only hope that everything is in readiness for the big show, that Mr. Weatherman will cooperate by providing two warm, sunny days.

Hour-Long Parade

Highlight of the event should be the hour-long parade along the main streets, as rubber-tired steam engines, tractors and antique cars come huffing and puffing out of the past to turn the town into an 1800 scene. The parade leaves the Brant St. school at 1 p.m. and arrives at the fair grounds, arriving around 2 p.m. Thousands of spectators are expected to take in the parade.

The antique display beneath the fair grounds grandstand is another big feature of the weekend. Among the items to be shown are gun collections, old glasses and china, silverware, tools, sewing machines, mule and oxen yokes and shoes, flannel underwear, a sausage stuffer, wool combs, hay forks, Indian skinning stones, candle moulds, fireplace irons, baby carriages, cradles, snuff boxes and spinning wheels — all dating

back toward the turn of the century.

Officials were hoping to get a grain threshing underway, but the grain has all been too wet to cut this year. However three Baker fans will be there to test the strength of the iron monsters. They expect to burn up two truckloads of wood plus four truckloads of coal over the two day show.

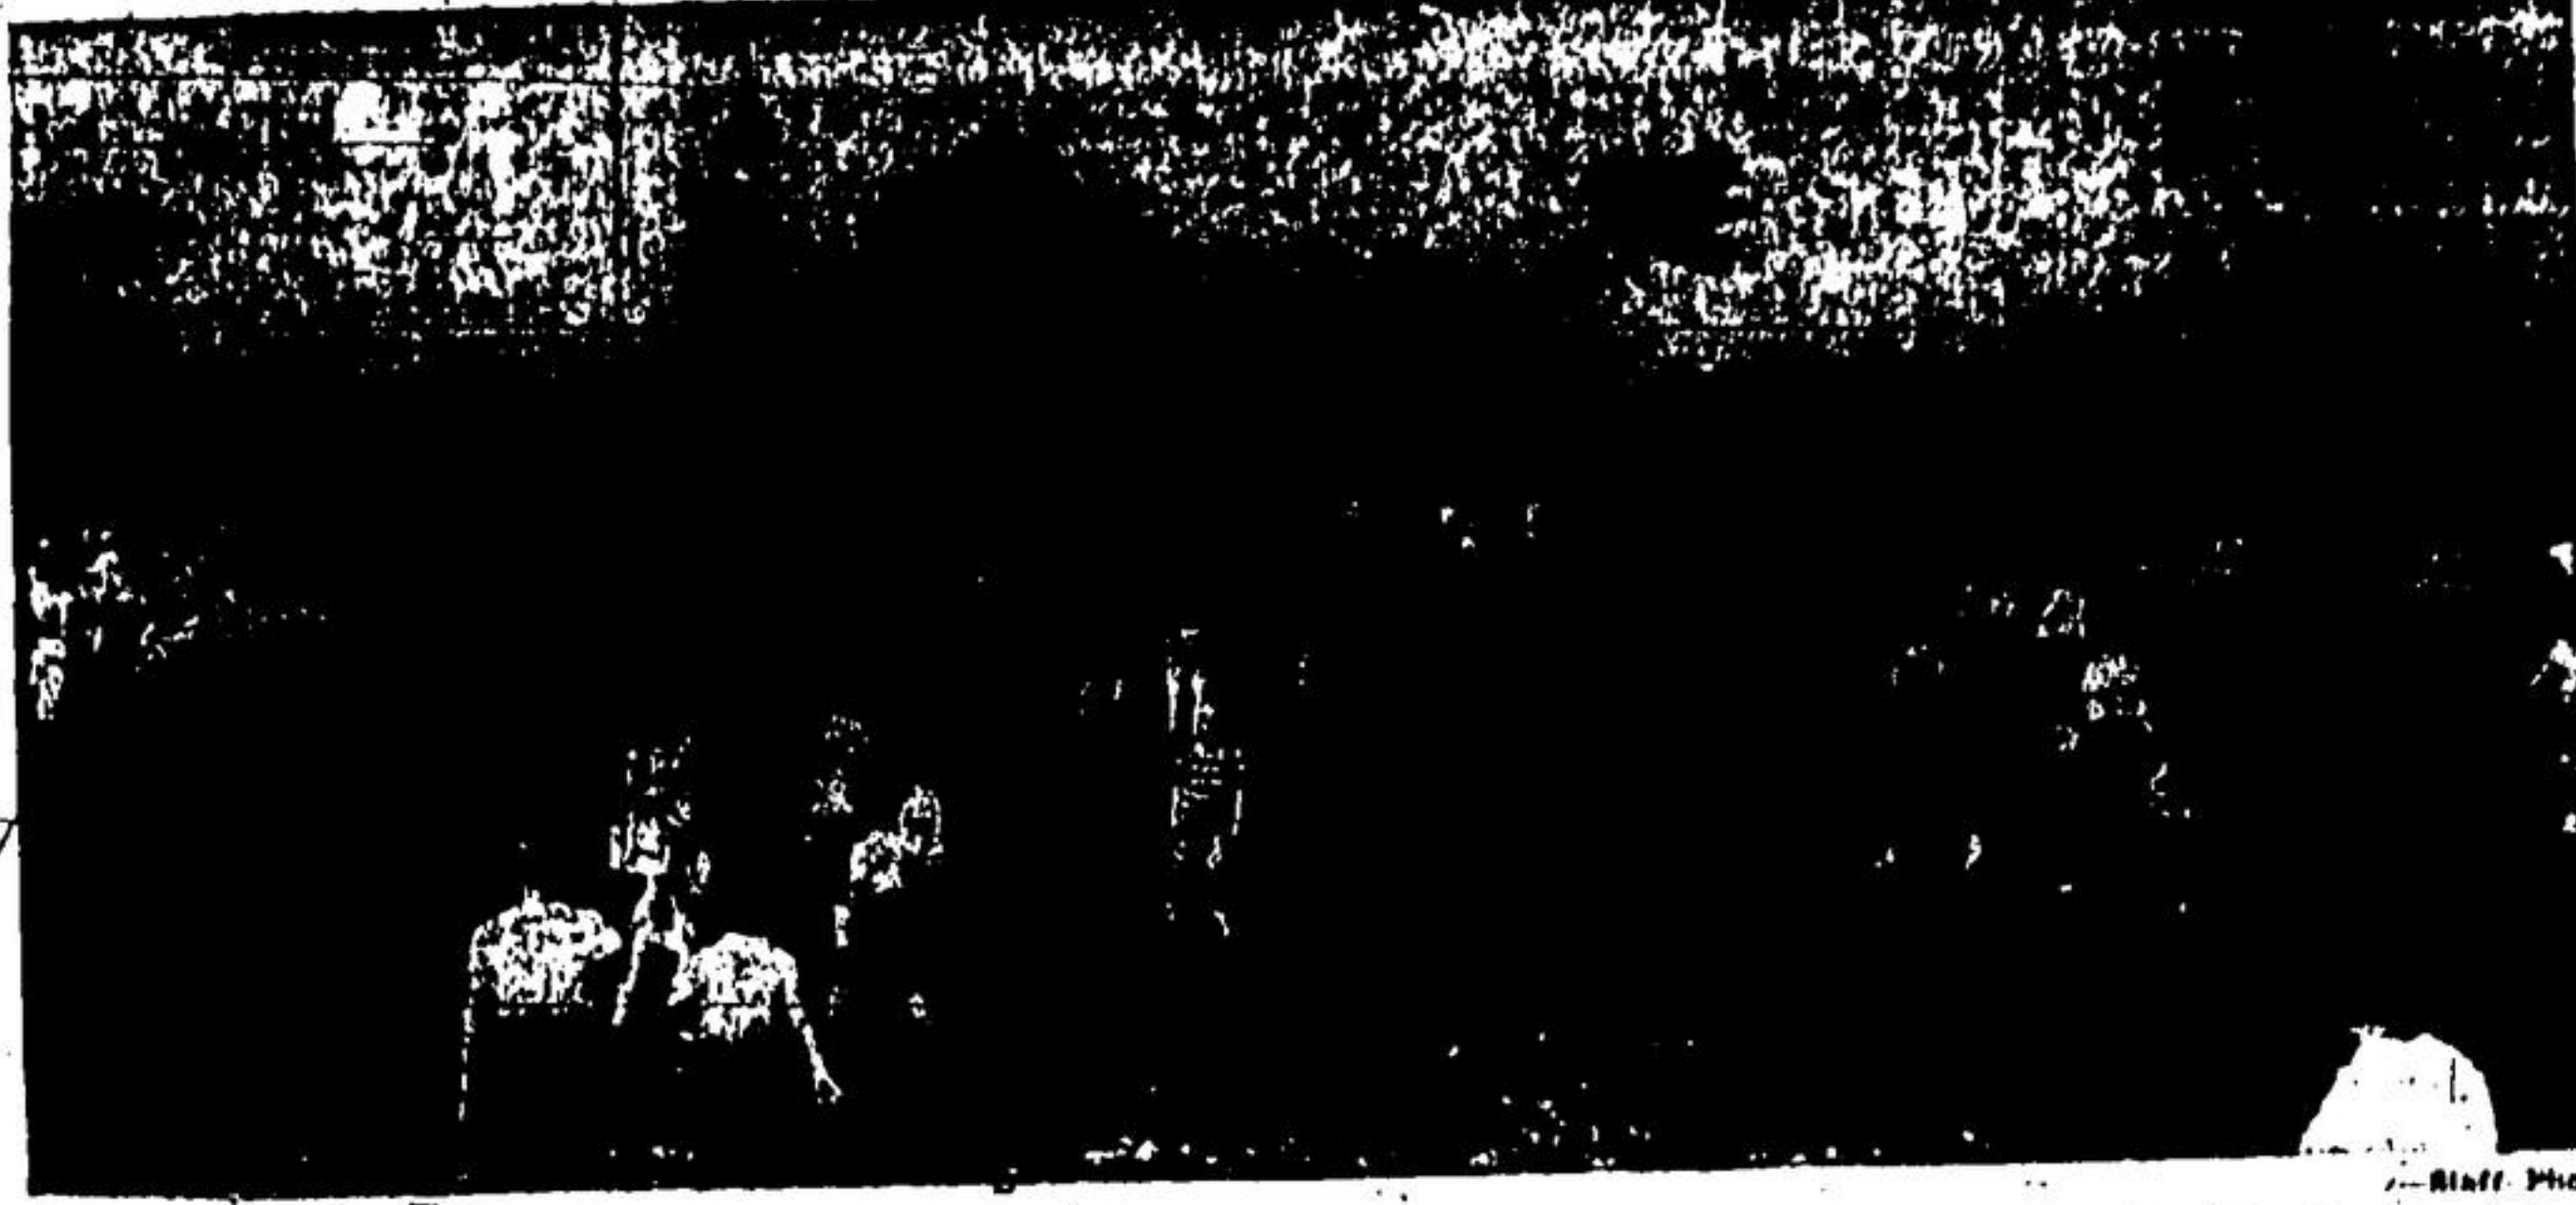

A Toronto antique car club has guaranteed 35 to 50 antique cars will be on hand, but if the weather is good there may be more. One man from United States has promised to bring along an old organ that runs on steam. A small saw mill is expected and also a small shingle mill, and if that isn't enough to satisfy any oldtimer's appetite, there will be model engines and lots of old iron horses on hand.

Arrangements have been made to bring in a feeder tuff, and if you haven't seen a driver trying to balance a cumbersome steam engine on a plank, you haven't seen anything yet!

Dancing Too

On the Friday evening there will be a square dancing display and an old time fiddler's contest, and Saturday evening a dance will climax the affair.

All the events, except for the Saturday parade, take place at Milton Fair Grounds on Robert St.

HUFFING AND PUFFING antique steam threshers competed during the weekend at the Pioneer Power Reunion. A large crowd waited the scene to catch a glimpse of the antique machines at work. Pictured above are a few of the machines during the threshing and reel contest. A dance in the evening concluded the activities and prizes were distributed. Teams of horses pulling wagons provided rides for the kiddies and when passing one of the steam engines, the horses never attempted to shie.

Power-Packed Steam Engines Compete at Antique Reunion

Ancient steam threshers and antique cars, preserved by enthusiasts, belched smoke, footed shrieking whistles and competed Friday and Saturday during the Pioneer Power Reunion at the farm home of Les Lowe, R.R. 1, Campbellville.

"Bill" Lashby of Acton was honored guest during the reunion when he was recognized as the oldest thresher present. Mr. Lashby, a prominent figure on the steam threshing scene in his younger days, recalled many interesting experiences when he sighted the antique engines.

Cars were parked in two fields as visitors flocked to the site, some to catch their first glimpse of the out-dated machines and others to refresh their memories of the operation. Cameos were clicked furiously as fans captured pictures of the antique equipment at work and children were treated to rides on some of the engines.

Keen Competition

Competition was keen as drivers jockeyed for position in the races and contests. Nearly every visitor watched the miniature steam engines, built to scale as they were being operated by their owners.

Mr. Lowe, who is considered tops in his mechanical field and Rev. R. O. D. Salmon, R. R. 1, Guelph were in charge of the program and kept the massive engines huffing and puffing throughout the day as drivers eagerly stoked the boilers to assure plenty of steam for the operation.

Of interest to the large crowd was a scale working model of a C.N.R. steam locomotive built by Mr. Lowe as it ran on some

600 feet of track. The engine represented 3,000 hours of work on the part of the builder.

Hot beef dinners and refreshments were served on the ground and spectators could be seen running, hot-dog in hand as they nursed a bottle of pop dodging the steam engines.

only under a dining room licence, the granting of beer and public house licences for serving beer and public house licences where women are admitted.

Each question must be carried by 60 per cent of those who vote. He added that there is no guarantee the track will get a licence even if the vote is successful, as this is up to the Liquor Control Board of Ontario. It would not mean a hotel on every corner, as some residents feared, it was suggested because the L.C.B.O. would govern all outlets.

Mr. Smith said the "Yes" Committee would be opening an office in the township and would provide transportation on voting day. In closing he warned the guests the campaign should be a "clean campaign". He urged against "mud-slinging."

Mrs. Kathleen King of Georgetown was injured when her car and one driven by Harold Short of Hamilton "sideswiped" on the Base Line just west of Hornby. Mrs. King was making a left turn as the Short car passed, police said. Damage to the cars totalled \$1,000.

Villagers Go Game Up In Series With Dundas

Campbellville, Intermediate took a one game lead in their best of three series for the Halton County Championship by defeating Dundas 12-3 in Campbellville on Sunday afternoon.

The season's largest crowd saw Garry Field go the route and hang up his 14th win of the season as he held Dundas to three runs off five hits. He walked two and struck out 10.

Three Hurlers

Shields, McMillan and Burrows all worked for Dundas and between them gave up 12 runs off 16 hits. They walked three hit one batter and struck out five.

Martin hit two singles for Dundas, Gurney homered and McPhail and Wilson singled.

Stuart Henderson had a perfect day for Campbellville with a home run and three singles. Ken

Moore, Al Wingrove and Bill Cairns all doubled and singled. Elmer Dredge and Stu King each hit two singles and Jack Laking and Earl Cairns each singled once.

Every Campbellville starting player except pitcher Field got at least one hit.

Errorless Ball
Campbellville played errorless ball. There was very little for the infield to do, however, Field put-outs in the outfield. Five pops to the infield, the pitcher threw out one which left only two ground balls, one of which was converted into a double play. The first ground ball the infield had to handle was in the seventh inning.

Dundas 020 000 100 3 5 2
Camp'ville 004 041 000 12 16 0

Camp'ville: Field and Laking.

Will Cut Warnings On Traffic Offences

Provincial and municipal police departments throughout the province have been asked to "lower the boom" on traffic offenders and quit serving warning notices for law infractions.

Local police forces reported that prosecutions are down while the figures for traffic accidents, fatalities, injuries and property damage are climbing higher and higher. "We have strict orders to be more severe, and we intend to carry them out," said Cpl. Charles Wilkinson of North Halton O.P.P.

Hosted jointly by Mrs. Gordon Currie and Mrs. C. E. Nellis, the gathering was staged at the Currie home when an evening of court whist was enjoyed.

Concluding the games, Mrs. Newton was presented with a flower centrepiece and a cup and saucer by the 14 friends present. Lunch was served to complete an enjoyable evening.

Farewell Party

A farewell party and presentation honored Mrs. Jack Newton recently. Mrs. Newton, wife of the popular councillor and fire chief, is leaving with her husband to take up residence in Toronto.

Concluding the games, Mrs. Newton was presented with a flower centrepiece and a cup and saucer by the 14 friends present. Lunch was served to complete an enjoyable evening.

Halton Chiefs At Convention

Halton County was well represented at the Canadian Association of Fire Chiefs annual convention in Kitchener for four days last week. Chief A. E. Clement of Milton, Chief Jack Newton of Acton, Chief Doug Wilson of Oakville, Chief George Wright of Trafalgar, and Chief Reg Law of Burlington represented the county at the business sessions and discussions.

Serve on Committees

Chief Wilson is a member of the board of directors, while Chief Newton served on the fire prevention committee and Chief Clement was on the exhibit committee for the convention that saw 539 fire chiefs from east and west gather to discuss mutual problems.

Speeches were heard by many speakers on industrial fire protection, the Fire Marshal's work, explosives, breathing apparatus, training of firemen, annexation problems affecting firemen, recruiting firemen, propane, government building regulations, standardized fire department codes, hospital and school safety and public relations.

Entertain Ladies

While the men attended business sessions and demonstrations of fire equipment, the women were entertained by Kitchener fire brigade's ladies auxiliary with tours, fashion shows and banquets.

Four Exhibitors Win C.N.E. Prizes

The Holstein Show at the Canadian National Exhibition, Toronto, on August 24 and 25 was one of the largest on record as 333 head were paraded before Judge A. M. Barr of Kemptonville. These were shown by 110 exhibitors, largely from the 11 counties of West-Central Ontario, for which the C.N.E. is designated as the Championship Show.

Last year Waterloo nosed out Peel in the county herd class after the latter had won for 22 consecutive years. This year the placing was again extremely close, with Waterloo on top, Peel second and York third. The two top herds were so well balanced that they beat out York, though the latter herd contained both the Grand and Reserve Grand Champion cows and the Grand Champion bull, Brant, Halton, Wellington, Welland, Wentworth, Grey, Lincoln and Haldimand followed in that order.

Four Halton County exhibitors placed in the winnings in various classes. Tovell Bros., Palermo had third place in the senior yearling bull class, while Ralph I. Ford of Milton had third in the class for cows three years and under four, not in milk. T. H. McGee of Norval took third for three year old heifers in milk, and the Campbellville farm of George and L. H. Leaver won second in the junior yearling heifer competition.

Enjoy Flight Ottawa Holiday

Margo Irving returned to her home from a holiday spent in Ottawa. Margo was accompanied by her cousin Bruce, Neil and the two young folks enjoyed the trip home by plane.

In Oshawa
Mrs. Roy Currie visited with Mr. and Mrs. Gannon in Oshawa last week.

Marlene Irving is attending the Glen Muir camp on Lake Simcoe for ten days.

Mr. and Mrs. Finlay Currie and Mr. and Mrs. George Brown spent a recent weekend at Haliburton.

Mrs. Roy Finlay, Guelph and Mr. and Mrs. Fred Davenport, Kingsville, visited recently with Mr. and Mrs. Ed Davenport.

Visit in Georgetown
Mrs. A. McKenzie and Miss Nancy McKenzie visited their aunt Mrs. Alice Davidson, Georgetown on Sunday.

Mr. and Mrs. Clifford Brown visited with Mr. and Mrs. Orville Brown, Acton on Sunday.

The really good resolutions lead to reform—and reform soon becomes a habit.

Don't saddle Dobbin with a leaky roof!

Poor horse. His reward for a lifetime of hard work is rain in the face. Why doesn't the boss get the roof fixed? Even a horse knows that leaks left unattended just get worse. If money's the problem, all that's needed is to apply for a Scotiabank Farm Improvement Loan. A Scotiabank Loan is available easily and quickly for repairing buildings, buying new machinery, upgrading livestock, and many other worthwhile projects.

Don't wait to get your farm in the shape you want it. Visit your Bank of Nova Scotia branch manager soon. Find out how a Scotiabank Farm Improvement Loan can help you.

1916 THRESHER rebuilt last March was one of the many antique steam engines to compete last weekend at the farm home of Les Lowe, Campbellville. Classed as a Waterloo 20-22 H.P. the equipment is owned and operated by Gilbertson and Laing, Eden Mills and is still being used at their sawmill.

Broken Mower Blade Kills Two Year Old

Police this week urged greater safety precautions with rotary lawn mowers, following the tragic death of a two year old Islington boy on a farm near Georgetown on Sunday evening.

The boy, Robert Andrew Singleton, had been playing on the lawn while his father Robert cut the grass with a rotary mower. The blade struck a stone and broke right at the driveshaft, flinging half the blade out the front of the mower and striking the boy on the forehead. Although he was rushed to Milton District Hospital, the boy was dead on arrival.
