**75,000 Adults Children Will Get Free TB Tests**

More than 30,000 children will receive tuberculosis tests at clinics now being held in Halton County public and high schools. It is expected that 45,000 adults will receive similar tests in a survey scheduled to continue until mid-December.

The survey is sponsored by the Halton County Tuberculosis Association in cooperation with the Ontario Department of Health.

"Once a disease that killed thousands annually, tuberculosis nowadays seldom results in fatalities," said William Benson of Acton, president of the association. "Early detection and prompt medical attention have reduced TB cases to a fraction of those previously treated."

**Visit All Homes**  
Plants having 50 or more employees will be visited by mobile X-ray clinics. Employees of smaller firms, housewives and others will be invited to attend community clinics. Canvasers will visit all homes in a community before the clinic is held.

President Benson said that volunteers are needed to make the survey a complete success. They should telephone collect to Mrs. M. E. Lunan at Victoria 5-0858, Oakville.

**Executive Members**  
Members of the survey executive are James MacKenzie, Burlington; general survey chairman; K. R. Arbill, Shell Oil Co., Ltd., Oakville; vice chairman of districts; Lloyd Dingle, Burlington; civic chairman, professions; Dr. A. J.
