When held up at a level crossing, always stop your car well back from the trucks. The Ontario Safety League warns that cars halted close to the tracks have been bumped into the path of the train by a following automobile, travelling too fast to stop in time. This is a lousy depression. Everybody's working and everybody's broke. At least we didn't have to work in the last one. Some workers have lots of "get-up-and-go" when it's time to get up and go home. Yes, sir, they're the ones who get "fired with enthusiasm."

Check windshield wipers to make sure you'll see where you're going. Heaters and defrosters should work properly; so should headlights and tail lights. And do you recall any news stories about carbon monoxide poisoning? Check your exhaust system for leaks. Get your car in shape for winter now. You might save yourself the inconvenience of an accident.

"MY BANK"  
TO 3 MILLION CANADIANS  
Who is our 3 millionth customer?  
A housewife in Hamilton... a youngster in Yarmouth... a farmer in Fruitvale?  
Frankly, we'd just be guessing. This year our total customers soared above the three-million mark. But which new customer in our network of 875 branches was the one between 2,999,999 and 3,000,001, we have no way of knowing. But we do know our 3-millionth customer will probably use the B of M in many ways... to save for the things he wants, to finance his automobile at low cost, to pay his household bills and to keep his valuables safe.  
If he is a businessman, he might use Canada's first bank to finance his day-to-day operations, to pay his employees, to collect and remit money the world over... if he is a farmer, "MY BANK" might be called upon to finance new trucks, modern barns and labour-saving electrical equipment.  
He's very important to us, that 3 millionth customer. Never before in our long history have we been privileged to serve so many. We number with a good deal of pride those three million expressions of trust from people who call the Bank of Montreal "MY BANK".
