Playing on home ice has always been a great stabilizer for teams, especially amongst the minors. Clubs that must play all their games away from home rarely do well.

The time when Acton fams had to apologize for their club's showing because of lack of practice is in the past. Acton youngsters have the same advantages as those in other centres now.

PLENTY OF bookey in Acton since the community centre opened its facilities, but we still don't have an industrial league. To remedy this, a few interested sportsmen are calling a meeting in the fire hall next Tuesday evening at 8 p.m.

The object is to form an industrial or "bush" league and give all the frustrated hockey players in Acton a chance to blow off steam. Actually, the first meeting of the league was slated for the Tuesday just past but our forgetfulness and the Christmas merrymaking produced only sparse attendance.

All those interested in playing industrial bockey, refereeing or potential sponsors are urged to attend. I'm sure there are many in this district who would like to give the game a whirl again before they hang up the blades for good. Who knows? Maybe they'll call you're good enough!
