# Milton Man Hurt In Wrecked Car

(Continued from Page One)

Richard Pickett, 21, of 177 Sarah St., Milton, was hospitalized Saturday evening following a car accident on Highway 25 near Spesside.

He required several stitches to close a severe facial laceration after his car veered off the highway and struck an embankment. The car, a 1958 Pontiac, was a total wreck. Const. Walter Jordan of North Halton O.P.P. said:

"The elevation of the new reservoirs will be 1547 feet above sea level. The present storage capacity is 1350 acre feet. Considerable increase in water conservation should result in the completion of the new reservoirs.

It was reported that Alf Duby, as a result of the O.W.R.C. courses he has attended, holds a Class B water department operator's certificate.

Councillor W. Denny inquired if any action had been taken to secure a new assessor. It was decided to leave the appointment of a successor to the 1962 Council.

Councillor L. Duby inquired if any consideration had been given to the replacement of the tennis and bowling facilities now being offered for sale. The mayor suggested the members should keep the provision of these facilities under consideration.

The mayor read the holiday greetings he had received from the mayor and mayoress of Acton, England and from Dr. Berry of the Ontario Water Resources Commission.

Accounts amounting to \$589.45 were approved for payment.

# Clean Up Year-end Business During Final Council Meeting

(Continued from Page One)

waterworks extension project was received. The mayor reported the plan and specifications of the O.W.R.C. and action could be expected shortly. It has been determined the cost of the project would be less if two 300,000 gallon reservoirs were built, rather than one 1,000,000 gallon reservoir.

The elevation of the new reservoirs will be 1547 feet above sea level. The present storage capacity is 1350 acre feet. Considerable increase in water conservation should result in the completion of the new reservoirs.

It was reported that Alf Duby, as a result of the O.W.R.C. courses he has attended, holds a Class B water department operator's certificate.

# Tipson Touring

Weekend tours in winter — for hunting, skiing, or sightseeing for fun and education. And driving in winter is a snap if you remember these common-sense tips.

1. Keep your car in top mechanical condition. Make sure you have anti-freeze, the right grade of oil, a fully-charged battery, good tires, and windshield wipers.
2. If you drive on snow, get the "feel" of the road when you first start out. See how your brakes and steering react, then drive accordingly.
3. Keep Air Fresh in the car well ventilated. This helps your windshield clear and helps you avoid drowsiness that might come from a heated car.
4. If you drive much in snow, use snow tires. Carry reinforced tire chains for snow-packed or icy roads.
5. It's ALWAYS dangerous to tailgate. But in winter, keep an EXTRA margin of safety between you and the car ahead.
6. If you have to make a sudden stop, pump your brakes several times quickly. Jamming your foot on the brake pedal is an invitation to a skid.
7. Emergency items for trunk compartment: a shovel, a couple buckets of sand, some old carpeting or wire mesh, and a good flashlight.

Police will be keeping an eye on drivers over the New Year holiday weekend, so if you must drive, don't drink.

Car driven by Dr. B. D. Young of Hamilton and Andrew Caven of Milton received a total of \$400 damage when they collided on the crest of a hill near Spesside, Thursday.
