WHEN YOU CALL "REPAIR SERVICE"

In times of emergency, when telephone service may be interrupted by freezing rain, floods, fires or high winds, we are all familiar with the restoration job done by telephone repair crews. You may not realize it, but it is the dependable manner in which day-to-day telephone repairs are made under normal circumstances that conditions our people to act in critical times. It takes a skilled team to provide efficient repair and restoration service. When "Repair Service" (114) receives a report on a customer's line, a whole team of employees goes into action and this teamwork goes far to insure that service restoration is made as promptly as possible. Clearing trouble when it happens, whether inside or outside . . . in all kinds of weather . . . the Repair Service men and women play an important part in helping us to provide you with dependable telephone service.

MY, WHAT A DEEP VOICE YOU HAVE GRANMA!

Once in a while your finger may slip when you're dialing a call. What a surprise when you find yourself talking to a gravelvoiced stranger ... especially if you expected to hear the gentle voice of someone like your sweet old grandmother! Embarras-'sing isn't it? Of course, careful dialing can prevent this wort of thing. Let's see what the experts say about good dialing habits, To save your time and other people's tempers be sure to look the number up first put it down listen for the dial-tone ... dial carefully " "They also say that if we follow these simple rules we won't be caught by surprise thinking that poor Granny has a frog in her throat."

YOU CAN TALK LONGER AFTER NINE O'CLOCK

Remember, you get Double Value on station-to-station long distance calls of 18 minutes or more within Ontario and Ouebec after 9 p.m. any evening.
