IMPORTANT ANNOUNCEMENT

about your

ONTARIO HOSPITAL INSURANCE

The need to obtain a bed in hospital is a matter of urgency to a seriously ill person. It is vital, therefore, that every hospital bed in Ontario be used only when it is essential in the treatment of a patient. Proper use of hospital beds is a matter of concern to every resident of the province.

To help make more hospital beds available...

the Commission now will provide Ontario Hospital Insurance benefits to an insured person who receives hospital care, as an out-patient, for which he or she, otherwise, would require admission as an in-patient to stay in hospital overnight.

IMPORTANT

These benefits will be provided only if the hospital has the required facilities and after these facilities have been authorized for such outpatient use by the local hospital board on the advice of its medical staff.

Here are the details:

- Benefits will cover only the hospital charges for medical and surgical treatment procedures which, otherwise, would require the patient to be admitted to hospital. Examples of these procedures are certain minor operations, electro-shock treatments, blood transfusions, etc.
- It is up to the patient's doctor to decide whether the treatment will be given on an in-patient or out-patient basis.
- Visits to established regular clinics in hospital out-patient departments are NOT covered.

Extension of EMERGENCY Out-Patient Benefits

Effective March 1, 1962, when an insured person has received emergency hospital treatment for a fracture within 24 hours of an accident, Ontario Hospital Insurance also will cover subsequent out-patient services for check X-rays and the change or removal of cast, until treatment of the fracture is completed.

Hospital treatment for emergency conditions other than fractures will NOT be covered beyond the first visit to hospital within 24 hours of an accident.

POINTS TO REMEMBER

1. Ontario Hospital Insurance in-patient benefits cover the regular and usual hospital services (use of operating room, X-rays, drugs, laboratory services, etc.) in standard ward accommodation for as many days as such services are medically necessary.
2. Dependent children cease to be covered under the parents' certificate when they reach age 19, or marry. They must then register separately at the applicable Single or Family premium. Application forms are available at all hospitals, most banks, and all Commission offices.
3. Married persons must pay the Family premium.
4. There is no change in Ontario Hospital Insurance premiums: they remain at \$2.10 a month for a single person and \$4.20 a month for a family. More than 6,000,000 Ontario residents (over 95% of the people) are now insured in the plan.

Ontario Hospital Insurance does NOT cover...

- any hospital charges for semi-private or private accommodation.
- any diagnostic services which are not part of insured treatment procedures or which do not, by themselves, normally require admission as an in-patient.
- any medical, surgical, or private-duty nursing fees, take-home drugs, home care, or ambulance and other transportation charges.
