Have you checked the termlnals on your battery lately? If they are badly corroded, you might be interested in some clean-up ideas. Wash the top of the battery and connections with baking sods solution. Rinse with water. Remove terminals and clean inside and out with a soft rag. Dun't scrape or sandpaper them because acid could fly into your eyes. Finally, clean battery posts, re-install terminals and coat all exposed surfaces

The looks that women give to other women are more often appraising than praising.
