ORAL POLIO VACCINE

Dr. Bull of Halton County Health Unit has announced the following clinics for the administration of Oral Polio Vaccine. Please check the schedule for your nearest school.

All age groups should receive this Vaccine whether or not they have been previously immunized with Salk Vaccine. Maximum immunity is obtained by the use of Salk Vaccine and the new Vaccine, and it is hoped that poliomyelitis can be eliminated entirely by the effective use of these two immunizing agents. Please urge your friends and neighbours to attend one of these schools. Adult clinics will be held from 7.00 to 9.00 p.m. at the schools indicated on the schedule. There will be no evening clinic at the High Schools.
