The Gas Genie Gift Home is located in Cardinal Heights on Hamilton's Mountain. It is an architect's interpretation of modern, comfortable living. The cathedral ceilings, year-round "fresh-air conditioning", thermopane windows, slate entry hall, and open fireplaces are only a few of the many features that lend themselves to this theme. Add to these the newest automatic gas appliances and you have the ultimate in pleasant living. Visit the Gas Genie Gift Home and receive your free entry form. Residents in outlying areas can get their entry form at the nearest United Gas office. The model home will be open from May 17 until October, 1962.

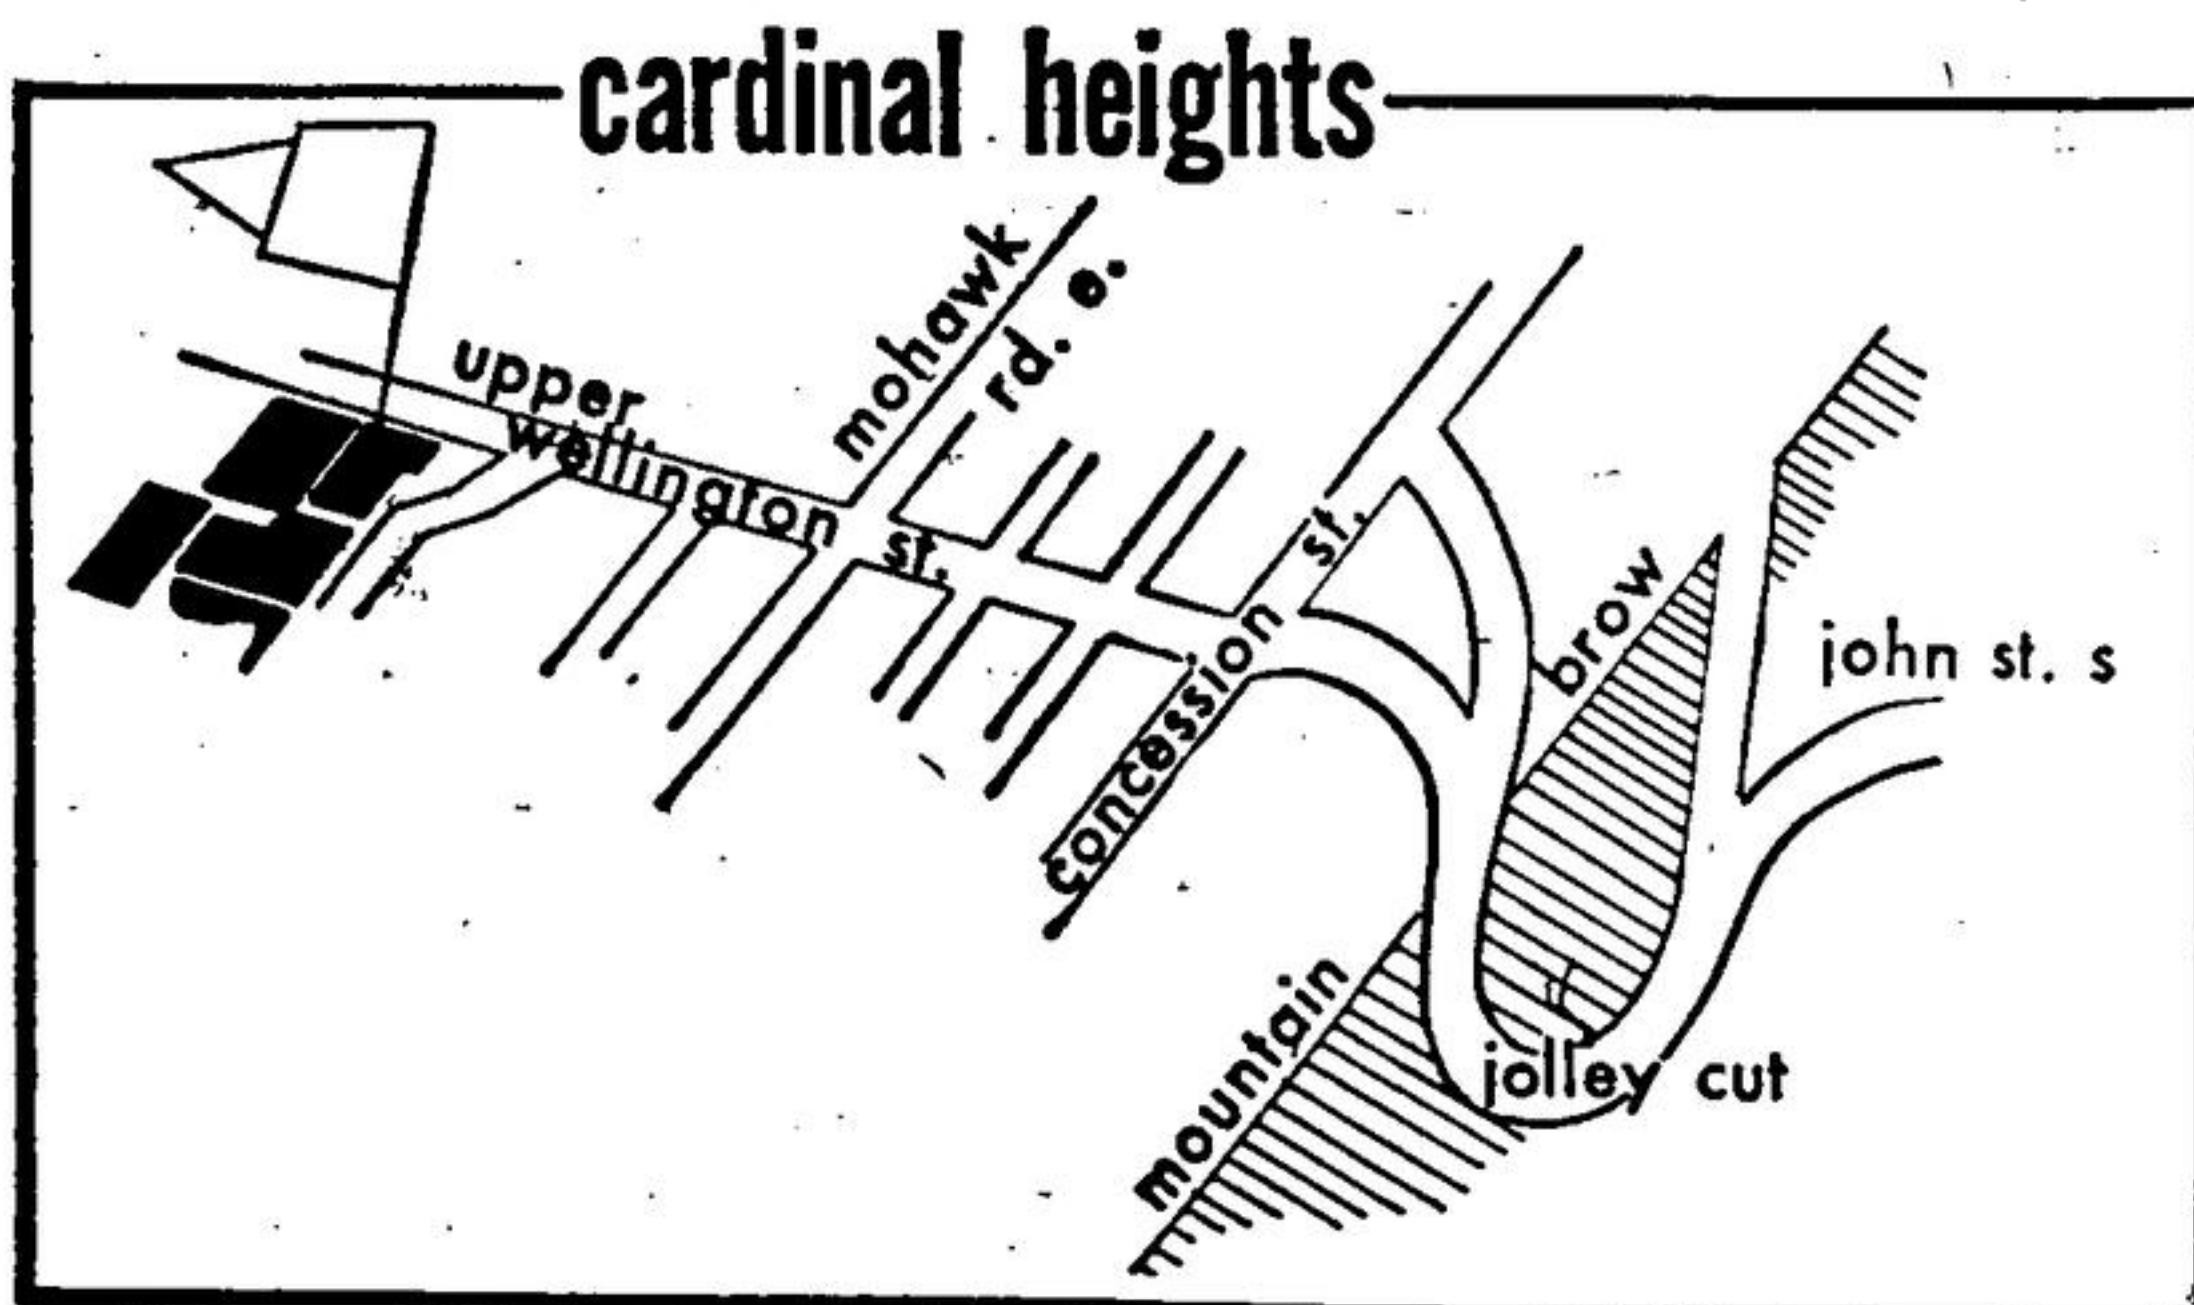

One of the features in the Gas Genie Gift Home kitchen is the Fabulous "400" gas range shown in the picture to the left. Also, included in the kitchen is a Tappan automatic dishwasher and a R.C.A. Whirlpool gas refrigerator.

This is the gas appliance wall situated in the basement. From left to right: The Arkla gas heating and air-conditioning unit; Rheem gas water heater; Hamilton Coffield automatic washer and gas dryer.

The automatic gas barbecue is the highlight of the patio for convenient outdoor summer cooking. Also seen in this picture is the outdoor gas lighting for the patio. A gas light enhances the front entrance as well.
