Facts About Rhubarb Revealed As W.I. Members Sip Punch

Mrs. E. Patterson was hostess for the June meeting of the Greenock W.I. Opening exercises were conducted by president Mrs. T. Hensley and Gail Hill was read by Mrs. Stanley Hill. Members responded to the roll call by naming a food which started with her own initial and her favorite way of serving it.

Home Economics and Health Conference, Mrs. E. Patterson presented an excellent program on this subject. W.I. members and all residents of Wellington County were urged to take advantage of Sabin oral polio vaccine which will be available to citizens of Wellington County in the near future.

Mrs. G. Leslie gave a short talk on hay fever and other allergies. Miss E. Pearson gave a paper on food and nutrition stressing June is Dairy Month. The value of milk in the diet for babies, teenagers, adults, and older people was pointed out. For those who must watch their calories but require calcium in the diet, one should try using some of the new skim milk products such as ice cream or process cheese which has less fat and is also cheaper to buy.

An amusing article by Kate Aitken urging people to emulate the family cat for good physical health was read.

Sun Glasses

The increasing use of sun glasses was discussed by Mrs. Patterson. Sun glasses do serve a definite but limited need. They never should be worn inside or at night, as they cut down vision. Continued use of dark lenses may cause a need for stronger lenses. If you require the protection of sun glasses they should be purchased from an optometrist who knows your needs, rather than buying from a local dime store.

An article read by Mrs. C. Aitken, told of a bracelet put out by the Medical Alert Foundation. This bracelet can be worn by people who suffer from such illnesses as diabetes, epileptics, penicillin allergy, etc., and might well be the means of saving the life of the wearer, should they become ill or be involved in an accident while away from home or friends who are unaware of their medical problem.

Rhubarb Punch

An amusing poem "Where is Mary?" was given by Mrs. Tysensar. Mrs. C. Allan treated everyone to a glass of rhubarb punch and also gave the recipe and some interesting facts about the rhubarb plant, which is a member of the buckwheat family originating in Northern Asia. The roots were used medically for years and it came to North America from Siberia.

Mr. Laurence Stancl of Guelph, a delegate to the General Assembly of the Presbyterian Church in Canada, spent the weekend with his sister, Mrs. A. C. Patterson.

The W.M.S. met at the home of Mrs. Mills on Thursday evening. In the absence of the president, Mrs. Sanford was in the chair. She read Scripture and Mrs. Jas. Noble led in prayer. An invitation was received from Miss Irene to hold a meeting at her home in Bradford. A special collection was held for the camp trip for a young girl. Mrs. Kirkpatrick completed the study on British Guiana. The hostess served lunch afterwards.

Vote fever has shown off a little, for a few months anyway.
