All in Readiness

Work bees have been held this week to prepare the grounds for agriculture's showcase, R. L. Davidson is in charge of hall exhibits. The red shed has been renovated for poultry and pets.

Last year, exhibits were housed in huge tents. This year, following the successful community centre drive, they're back under a roof . . . and one that doesn't leak. Many will combine enjoyment of the fair with their first inspection of the new addition to the rink. Bustling secretary-treasurer Mrs. C. Swackhamer will also have her office in the community centre for the first time.

Those in Charge

President again is Nino Braida. First vice-president is Calvin Aiken, second vice-president Fred Kentner Sr. On the board of directors are F. Kentner, B. Watson, M. McCullough, M. Hunter, L. Review Grade 13 Results During Midnight Session

Acton District High School board members rolled up their sleeves and tackled a lengthy agenda during their first meeting since the summer recess on Monday night. Headlining the midnight session was a sober appraisal of grade 13 results.

The charter resulting in had publicity on the progress of grade 13 student in English and mathematics last term was related by chairman E. S. Force when final examination results were reviewed.

During a breakdown of results presented by principal E. A. Hansen, it was noted there were a total of 102 passes in 143 papers written by the grade 13 students.

Breakdown of Marks

Three grade 13 exams were tried by grade 12 pupils, with two passes recorded and one grade 11 student gained pass marks on a grade 13 examination.

The percentage breakdown is as follows:

First class honors, 23 per cent and over 13 papers for 103 per cent

Second class honors, 66 74 per cent 16 papers for 109 per cent

Third class honors, 60 65 per cent 14 papers for 95 per cent

Credits, 50 59 per cent 61 papers for 41 3 per cent

Failures, under 50 per cent 41 papers for 27 9 per cent

There were five passes in 46 exams rated under 50 in confidence marks submitted by the staff to the Department of Education.

maintain a grade 13 anyway."

Trustee Dwight Engel maintained that grade 13 should be restricted to those taking grade 13 subjects only, when he learned some were taking grade 12 subjects as well. He asked principal Hansen and assistant principal Michael Bevan if the Department did not exercise control of this and was told there was no record of concrete legislation.

When the midnight bell had tolled, board members still had a further review of examination results to review but tucked them away in briefcases for a fresh start next meeting.

Schoolgirl Gives Speech to Institute

The Acton Women's Institute met with a large attendance on Thursday at the home of Miss Marjorie Hall, Brock Ave. Mrs. Cecil Maplewood presided. The highlight of the meeting was the life story of the late Sir John A. Macdonald, told by Miss Kathryn McKenzie, daughter of Mr. and Mrs. Garnet McKenzie, who won honors the past year in public speaking using this topic. She was thanked by Miss Hall who was convener of the program.

The roll call was answered by a memory of community interests of childhood. The business of the meeting was mostly planning for the fair display in the hall. "Ten ways of serving potatoes" A committee was appointed. The usual plans for the booth were made.

The meeting closed by singing School Days. A lovely lunch was served at the close of the meeting. Mrs. Earl Lambert expressed appreciation to Kathryn to her mother who accompanied her and to all who assisted in making the afternoon pleasant.

—The historic mill at Stewarttown, which has been in the Lawson family for four generations, has been sold to Master Feeds, and a new manager has taken over.

90% of all oil company product research in Canada is done by Imperial

The fuels your car will use in the future are being designed today. In Imperial's ultra-modern research laboratories at Sarnia, scientists and technicians are working to ensure that gasolines for today's cars—and tomorrow's—are tailored for top performance. In the last ten years alone, Imperial has spent more than \$50 million to build the equipment needed to bring you top gasoline quality.

At Imperial Oil's laboratories at Sarnia, Ontario, more than 200 scientists and technicians are working to improve present petroleum products—and to develop new ones. Their research covers many fields, from gasolines to household detergents. Another 130 scientists and technicians are working at Imperial's Calgary laboratories on ways to find and produce more Canadian crude oil and natural gas. Imperial does more research than all other oil companies in Canada combined.
