

STILL THRILLED with school are two M. Z. Bennett kindergarten pupils, Merinda Cunningham and Karen Burcombe. Pretty teacher Miss Joan Park is training her morning and afternoon students in how to behave in school. She is recovering nicely from an opening day incident: a bite on the arm from an unwilling scholar!

### Culmination of Year's Work Ladies Finalize Fair Plans

Mrs. Wilfred Waldie was hostess to the Ladies Directors of Acton Fall Fair last Thursday evening at her home near Churchill. There was a good attendance of enthusiastic members.

Mrs. Waldie, the president, occupied the chair, and Mrs. Ralph Denny, the secretary, read the minutes of the two previous meetings. Final plans for the monster parade on Fair Day were made.

Mac Sprowl, representing the men's board, was present, making detailed arrangements for it. Mrs. William Thompson was named to assist in organizing the parade at the CNE tracks. Members hope that school children and other organizations marching, as well as the floats will be in place at 12:30 p.m. next Saturday.

#### Draw Tickets

Judges for the fancy decorated doll buggies, tricycles and bicycles were chosen. Mrs. D. Matthews reported that the new signs designating the different exhibits in the arena are in readiness. Cash returns from the sale of books on the draw up to the present time were presented to the convener, Mrs. G. S. Matthews, and were very encouraging. The articles, an occasional chair, coffee table and transistor radio are on display in Acton Home Furnishings' window. Tickets will also be on sale at the Park on Friday and Saturday from any of the Ladies Directors. The draw will be held at 4 p.m. Saturday.

A new turquoise smock was presented to each director to wear on Fair Days and all were pleased with the design and color.

#### Year's Culmination

This meeting was the culmination of a year's planning, hard

work and enthusiasm to assist the men's board to have a bigger and better Acton Fall Fair this year. Now everything is in readiness, and all hope good weather will favour the Fair again.

Mrs. Don Matthews was courtesy convener.

On the invitation of Mrs. Walter Linham, the next meeting will be held at her home on the Fifth Line, Exquising.

A delicious lunch was served by the hostess, Mrs. Waldie, assisted by Mrs. Jesse McEnery, Mrs. George C. Wallace and Mrs. W. Linham.

### Arts and Crafts Display At Hoey Farm Saturday

Over 1,000 thronged to Elm Tree Farm Saturday morning and afternoon to shop at a most unusual collection of booths. This was the annual display and sale of the Georgetown arts and Crafts club, held for the second year at the attractive farm home of Mr. and Mrs. W. A. N. Hoey, on No. 25 sideroad in Nassagaweya.

Among the exhibitors were several Actonians, Mrs. Wesley Beatty with silver articles and wool novelties, Mrs. Bennie who demonstrated weaving, Mr. and Mrs. Clarence Roggvoldson and their daughters Janet and Nancy who demonstrated spinning and had spinning wheels on display.

Caroline and Martha Hoey, Acton high school students, showed how wool from the sheep at the farm is washed, carded, dyed, spun and then knitted. The family has been experimenting with natural dyes; elm bark and onions produce surprisingly lovely shades.

Altogether 24 artists took part in the show. Mrs. Les Clark is president of the club.

Dublin W.I. and Eden Mills ladies helped provide refreshments.

### Ford Motor Company Announces New Cars

A new two-door hardtop, a sports coupé with bucket seats and three new station wagons, all to be assembled in Canada, are added to the 1963 Fairlane line.

Wide-set, circular taillights identify the 1963 Fairlane as a member of the Ford of Canada family of fine cars.

The popular sized Fairlane offers three distinctive new station wagons for 1963, with many owner benefits in the fields of lubrication, self-adjusting brakes, longer oil change intervals and load space almost that of bigger station wagons.

The Squire, with its side panels of simulated wood and luxury interiors, is durable and reliable. Extensive use of sound deadening materials offers a quiet and comfortable ride.

Underbody rust and corrosion problems have received special treatment in the 1963 Fairlane through extensive use of zinc-rich primer and galvanized steel.

Torque boxes at each corner of the underbody help absorb sound and vibration.

The luggage compartment is lighted by "bleeding" light from each taillight.

Single-speed, parallel-action, electric windshield wipers are standard equipment on the 1963 Fairlane.
