Need Extra Safety Tips For Child This Season

The holiday season introduces many new fire hazards, including the danger from fire if they are left alone and unattended even for the shortest interval.

The highly inflammable Christmas tree, decorated with lights and tinsel, is a fire hazard if not properly cared for. It should be kept away from the fireplace and other heat sources. It should be watered daily to keep it from drying out.

Children should be supervised when they are playing with matches, candles, and other fire-producing items. They should be taught the proper use of these items and the dangers of fire.

Parents should also be aware of the dangers of electrical fires. They should check the wiring in their homes and make sure that all electrical appliances are properly grounded. They should also be sure that all electrical cords are kept away from children.

Cranberries Traditional As Holiday Dining Treat

Cranberries, so much a part of our holiday dining tradition, were first brought to this country by the Pilgrims. They were used in a variety of ways, including as a stuffing for fowl and as a relish. Today, they are a popular addition to many holiday meals.

The berries are rich in vitamin C and are a good source of fiber. They are also low in calories and fat. This makes them a healthy and delicious addition to any diet.

There are many ways to enjoy cranberries. They can be eaten fresh, dried, or frozen. They can also be used in a variety of recipes, including soups, stews, and casseroles. They are a versatile and nutritious ingredient that should be a part of every holiday meal.

Buy, Don't Steal Toy Crime Doesn't Pay

During the holiday season, thousands of people are tempted to buy toys that have been stolen. This is a crime that can result in severe penalties. It is important to remember that buying stolen goods is illegal and can harm the original owner.

Police departments are working to reduce the number of stolen toys. They are encouraging consumers to buy toys from reputable sources and to report any stolen toys to the police. This helps to protect the rights of the original owner and to ensure that everyone can enjoy the holiday season.

Saw Vision of Christmas Seal

Inspiration for the first Christmas seal came to Emma, a Danish postal clerk, in 1848. She was working in Copenhagen and noticed that many of the letters she was handling were addressed to people in other countries. She decided to create a seal that would allow these letters to be sent more easily.

The seal was a small, circular stamp that could be placed on the letter. It contained the name of the recipient and the address. This made it much easier for the post office to deliver the letter to the right person. The seal was a great success and is still used today.

They Love It

They love it because it is a tradition that has been passed down for generations. It is a time when families come together and enjoy each other's company. It is a time when children are excited and adults are nostalgic.

Christmas is a time of joy and happiness. It is a time when we can forget our worries and enjoy the simple pleasures of life. It is a time when we can be generous and give to those in need. It is a time when we can all be a part of something special.

Be Sure Toy is Safe Test it on Dad First

The annual question of how to test a new toy is a common one. The answer is simple: test it on your dad. This is a safe and effective way to see if a toy is worth the money. Your dad will be able to tell you if the toy is safe and fun.

There are many toys on the market today, and it can be difficult to choose the right one. By testing a toy on your dad, you can be sure that you are getting a quality product that will be enjoyed by everyone. This is a great way to make sure that your holiday shopping is a success.
