by C. J. Catalano your telephone manager

LOOKING FOR A JOB?

I'd like to suggest that any young ladies who are looking for fulltime employment might consider a lob with the telephone company. While we have no openings here in town, there are jobs available in our offices in some of the larger centres, including Guelph. At the moment, we're in need of girls who would like to work as triophone operators. If you have a high school education, are in good health; enjoy working with the public, and are interested in a challenging and rewarding career, we'd he happy to have you drop in and talk with us. Our business office to at 20 Cork St. E. In Guelph. I'm ours you'll find the Bell a pleasant place to work, and we're sure you'd enjoy working with the other people on our staff.

A. G. BELL'S PROPHECY

"It's conceivable that cables of telephone wires could be laid underground or suspended overhead, communicating with private dwellings, counting houses, manufactories only so, but I believe in the future, wires will unite different cities and a man in one part of the country may communicate by word of mouth with another in a distant place." Alexander Graham Bell made this statement in 1878. He understeest, and in remarkably prophetic words foretold, how the usefulness of his invention might be extended throughout the world With him began the unccasing scientific progress which has intercome the harriers of distance one by one, so that today there are no earthly limits to human speach. All who give telephone service and all who use it are his inheritors

TO SERVE THE COMMUNITY BETTER

change, but never more so than at present. The scope of the Boll widom comptantly so the Company provided more and more customers with new and advanced services. Representatives of all departments most engularly to local committees to consider how they can bust serve their respective communician decide upon the activities that should be undertaken to oftake these made and make every effort to heep employees fully informed of plans and policies, both local and Companyolds. Programs have been developed and foreines and other super visure held regular misetings with their people to discuss both Company activities and the continuing requirements of good parties for explanate and the educates
