Halton Hosts Scot Girl

Halton County farm people played host to a young visitor from Scotland this past week. Miss Mary Steel of Stirling, Kilmarnock, Ayrshire, Scotland, enjoyed every minute of it.

She and five other Young Farmers' Association members from England and Scotland are presently visiting Canadian farms on a three month exchange educational tour. Each year Canada sends delegates to Great Britain to learn about the farming customs, and in return Canadians play host to the visiting English and Scottish delegates.

Tour the Country
Miss Steel accompanied two girls and a boy from Scotland and a boy and a girl from England on the trip over. They arrived April 30 and all spent three days at Ottawa seeing the Capital, then separated and went touring about the country.

Halton's visitor spent 10 days each in Dundas and Northumberland Counties before arriving in Halton for an eight day stay, Wednesday of last week. For the first four days she stayed with Halton's 1962 Dairy Princess Marion Hunter, at Miss Hunter's father's farm on the Walker's Line, Burlington. Saturday she moved to stay four days with former Junior Farmer president Bill Wilson and his wife at Norval, then Thursday she was off again for an evening at Toronto and then three days of free time at Niagara Falls before heading to the next county.

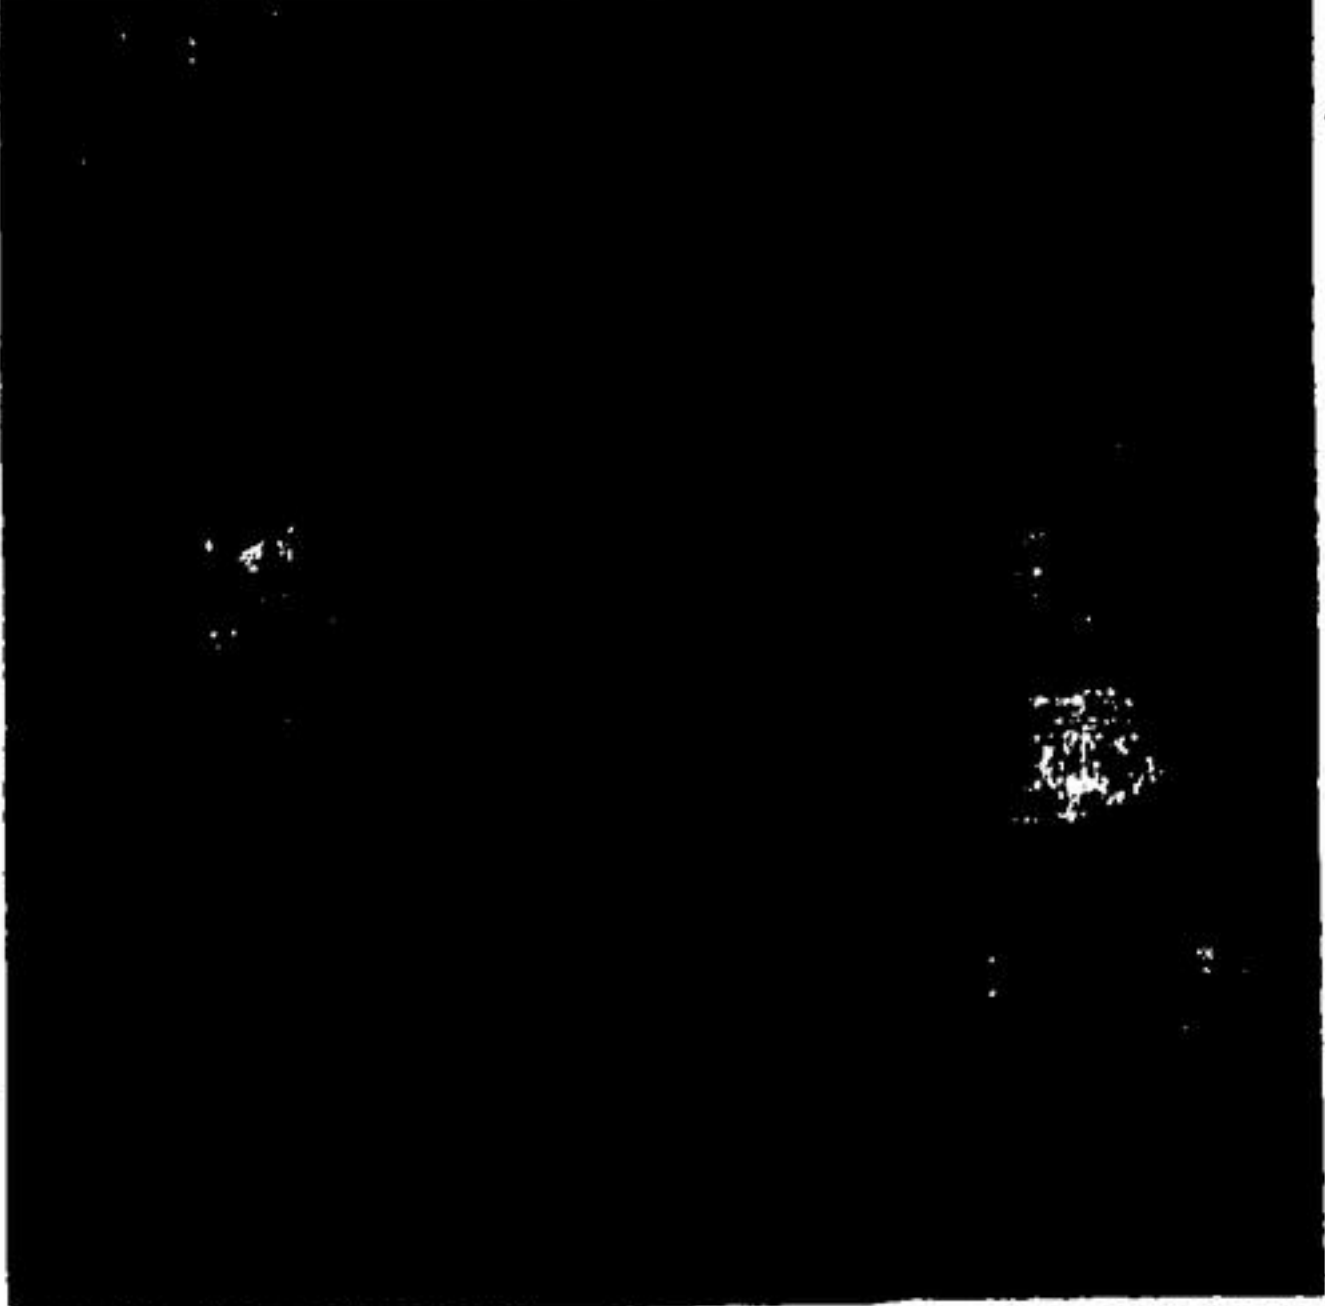

During her stay here she attended the West Halton 4-H Club meeting and the Holstein Breeders' twilight meeting at

Oakville, visited an Ayrshire cattle farm, toured the Leaver Mushroom Farms at Campbellville and spent Sunday at a Junior Farmer get-together in Brampton.

Miss Steel has been quite active in Young Farmer work in Scotland. She is secretary-treasurer of her group, secretary of the Ayrshire Association, and a mem-

ber of the south-west area ladies committee. At home she helps her parents run a 150 acre mixed farming enterprise, including 70 dairy cattle as well as secondary beef and sheep enterprises.

The Ontario Junior Farmers' Association and the Ontario Department of Agriculture are joint sponsors of the tour.

SPECIAL VISITOR in Halton County farm circles this week is Miss Mary Steel of Ayrshire, Scotland, left, a Scottish Young Farmer delegate on a three-month tour of Canada. Last week she stayed with Halton Dairy Princess Marion Hunter of Walker's Line, Burlington, right, and this week is staying at the home of Mr. and Mrs. Bill Wilson, Norval.

Confirm World Plowing Match Dates - It's Caledon, Oct. 8-12

The 11th World Plowing Contest will take place on Conn Smythe's farm near Caledon, Ontario, October 8 to 12 this year. It was announced at the World Plowing Contest headquarters today. Plowmen from 19 countries are expected to take part.

The contest is one of the world's most prominent agricultural events. About 10,000 people are expected to visit the event each day, and it will be run in conjunction with the Canadian championship and the annual Ontario International match.

The World Contest was started in Canada in 1953 at Cobourg.

Since then it has been held in nine European countries. This is the first time it will be back in Canada.

Canada's champion plowman, Toby Tumble of Portage La Prairie, Manitoba, and Grand Wells of Stouffville, Ontario, will represent Canada at the contest. This is a very important annual event, said Alex McKenzie, president of the Canadian Ploughing Council, and a great deal of interest is being aroused here in Canada. In addition to the plowing, displays of machinery and side events of interest to women and children are being planned.

Esqueuing Protests Acton Move Closing Third Line to Trucks

Esqueuing Council lodged a strong protest at an Acton Council by-law seeking to close the Third Line (Churchill Rd S) to heavy trucks when Acton residents and truck fleet owner Jack Ridley appeared before the township council Monday.

Councillor George Currie called Acton's move "ridiculous" when Mr. Ridley explained the road would be closed to empty trucks over three tons, and loaded trucks weighing over five tons. "This will interfere with one of our biggest businesses," said the councillor. Other members of council noted the restriction would even prohibit farmers from transporting cattle along the road.

80 Miles Extra

Mr. Ridley operates 10 trucks out of Acton Limestone Quarries, and said the extra mileage his vehicles would have to travel to avoid the road would mean 80 miles a day. The council's protest will be forwarded to the

Town of Acton, Department of Transport and Ontario Department of Highways.

(Acton Council has meanwhile held up the third reading of the by-law for further investigation.)

Esqueuing Council on Monday raised the minimum square footage requirements for houses. Single storey homes will be required to have 1,000 square feet on the ground floor (it was 800 feet), one and one-half storey homes 825 (220) and two storey homes 750 (650). If a home has no basement an extra 100 square feet must be added to the ground floor.

Brief Items

The council also:
• Agreed to buy a four ton truck from Maveal Motors, Georgetown, at \$6,728. A Provincial subsidy of \$3,228 is available on the purchase.

• Decided to purchase \$4,131 worth of furniture and drapes for the new township building from Office Specialty Co. Ltd.
