

Halton 4-H Clubs Compete In Provincial Competition

Bill Sinclair, Burlington, and Bob Peddle, Milton, placed second in the inter-club competitions held at the Ontario Agricultural College. The annual inter-county competition is open to teams of two, from 4-H Clubs in the County. Competitions are held for each of the 4-H Club projects. Bill Sinclair and Bob Peddle were runner-up in the Electric Club competition. The winner of the electric competition was from Perth County.

Approximately 250 teams from counties in Ontario took part in the various competitions. The dairy competition was the largest, with 77 teams competing.

The East Halton Holstein Club of Arthur Lawson, Milton, and John Wilson, Norval, placed twenty-fifth.

The Halton Jersey-Guernsey Club team of Bill Alexander, Norval, and Jeffrey Nurse, Georgetown, placed thirty-seventh.

The Acton 4-H Club team of Murray Fatt, Campbellville, and Frank Anthony, Limehouse, placed forty-first.

Other teams competing from Halton included a Forestry Club team, of Don Featherstone, Hornby, and George Hume, Milton, who placed ninth, out of 12 teams competing.

The Grain Club team of Bryan Marshall, and Murray Dawson, Milton, placed fifteenth, out of twenty-seven clubs competing.

In all of the competitions the teams judge and give reasons on four classes, or take part in a practical test. In addition, each team member answers six oral questions pertaining to farm management. The program is sponsored by the Ontario Department of Agriculture as part of the 4-H Club program.

At the conclusion of the competitions the winners attended a banquet for the presentation of trophies and awards. Speaker for the banquet was Deputy-Minister Everett M. Biggs.

Georgetown Hosts Tri-Club Meet 100 from Acton, Milton Attend

Georgetown Rotary Club last week played host to the annual tri-club ladies night that includes members of the Rotary Clubs of Acton, Milton and Georgetown. About 100 attended the event at the Riviera in Norval and heard

Renewal For Licence

The Ontario Department of Transport recently announced that it is changing its driver's licence issuing procedure from a manual to a mechanical data processing system, a significant innovation which will affect all Ontario drivers.

Under this new method drivers will get their notice for renewal in the mail. This will contain an application for a new licence and a return envelope. Mailing of these notices will begin early in December but it may take two to three months to get them all out. So, don't panic if yours does not arrive early in December. And the following is very important:

Be sure the Department of Transport has your right address. If you haven't notified the department of an address change you won't receive your notice for renewal and you will have difficulty getting your 1964 licence. Drivers should advise change of address within six days of the change.

When you get your notice of renewal, follow these steps carefully:

1. Check information — name, address, birth date, and if there is an error, make notation in box provided on the application form.
2. Answer questions on the back of the application.
3. Sign the application in two places where marked on the front.
4. Mail in the application with the fee mentioned on the front (a return envelope is provided) or bring it in to your Club office, hand it in with the fee and your 1963 driver's licence. The Club will then validate the stub which becomes your 1964 driver's licence. If you mail in the application to the Department of Transport, your 1964 licence will be mailed to you, but you must keep your 1963 licence until your new one arrives.

The first newspaper advertisement in our modern sense of the word, appeared in 1647.

AFTER THAT DATE SAME WILL BE PLACED FOR COLLECTION.

W. G. C. KENNEY, M.B.

HALLOWEEN PRANKSTERS were blamed for a fire which completely gutted the former Strutt home at R.R. 1, Acton, Thursday night of last week. The property is owned by a Toronto man. Nearly three years ago the barn was burned down. No one was living in the house which had been abandoned for some years. Firefighters hooked up the portable pump to a nearby stream to keep the flames from spreading. Fortunately the drought had ended with a heavy rainstorm that night which kept sparks from igniting the tall grass.

Annual in Oakville

Gord Beatty Heads County P.C.s

Gord Beatty of Acton was re-elected for his second term as president Oct. 25 when Halton County Progressive Conservative Association held its annual dinner and dance at the Pine Room of Oakville Arena.

Over 200 attended to congratulate recently-elected M.P.P. George Kerr, elect a slate of eight officers, and hear guest speaker George M. Galimbert, assistant general manager of the Ontario Water Resources Commission, speak on water pollution.

New Officers

Andy Frame of Burlington was named Young P.C. president, John Dewey of Oakville association vice-president, Mrs. Bea Clark of Georgetown, lady vice-president, A. J. "Bud" Nichols of Milton secretary, and William Hourigan of Burlington treasurer. Auditors are Mae Sprawl, Acton, and Robert Hitchcock, Oakville.

Past president Les Clark conducted the election. Later in the evening Georgetown P.C.s made a presentation to Mr. Clark, who retired this year after 14 years as president of the Georgetown association, and two years as county president. Doug Latimer presented a clock and praised his work.

M.P.P. Kerr gave a brief but witty report on his work during the election campaign, and introduced the guest speaker.

Two Objectives

The O.W.R.C. was created in 1956 and its two main objectives are the provision of a good water supply for the citizens of Ontario, and the elimination of pollution from the Province's waterways. "We build \$20 million worth of projects each year," he said, explaining the work of the four main divisions of O.W.R.C. work.

The speaker dwelt mainly on the Lake Ontario algae problem that was of interest to Oakville and Burlington residents in attendance, and praised the cooperation of the Cities Service, Shell and B/A refineries in their fight against polluted waters.

Answering a question from the audience, he said "don't believe all you hear about detergents causing algae. The detergent problem has been over-emphasized." He added the Commission and detergent manufacturers are working to find a solution to the foaming problem that detergents cause at sewage treatment plants. In Germany, he explained, many towns take water from and discharge waste into the same river.

Other Causes

However, he hastened to add, backwashers, from filtration plants, agricultural fertilizers and some industries are bigger causes of lake algae.

The meeting attempted to choose two delegates to the forthcoming annual Provincial meeting, but when eight nominations were received the executive decided to name two delegates at a later executive meeting.

Dancing and a social evening followed.

OBITUARY Long Time Resident Mrs. G. Kelly Dies

After an illness of three months, Mrs. Gertrude Kelly died at her home, 19 July St., Acton, where she lived with her daughter, Mrs. Katherine McCristall, early Friday, October 25. She was 82 years of age.

Requiem High Mass was sung October 28 at St. Joseph's Church by Rev. V. J. Morgan. Six grandsons were pallbearers. Leo McCristall, Phil McCristall, Gerry Forestell, Ronald Hauck, David Molison and Denis Kelly.

Interment was in Dublin cemetery.

Mrs. Kelly was born at St. Marys, daughter of Anthony and Mary King. Her husband Martin Kelly, a district farmer, predeceased her seven years ago. They had lived in this district for the past 55 years. They were married on January 11, 1904 and celebrated their 50th wedding anniversary in 1954.

She was a member of the Altar Society and the Catholic Women's League.

She leaves three sons, Henry, of Spesside, William, London; Patrick, of Oshawa; five daughters, Mrs. Patrick McCristall, (Katherine), Acton; Mrs. James Blackwell (Elizabeth), Kitchener; Mrs. Lawrence Forestell (Rachael), Mrs. James Hauck (Beatrice), and Mrs. Fred Molison (Anne) all of Guelph; and a brother, Henry King, Granite City, Illinois. Also surviving are 40 grandchildren and 28 great grandchildren.

WAGE POWER

While the average weekly wage in Canada manufacturing has increased since 1949 by 88 per cent, because of inflation the increase in terms of purchasing power has been only 42 per cent.

Nassagaweya Club Holds October Meet

The Nassagaweya 4-H girls held their fourth meeting on Monday, October 28. The meeting opened by repeating the 4-H pledge. This was followed by the roll call which was "One characteristic of a good bedroom accessory." Doris Moffat read the minutes of the last meeting. Lexie Maclean acted as president in the absence

of Betty Allison. It was pleasing to have Mrs. Cosson the Home Economist at the meeting. Stella O'Gorman gave an oral quiz. Mrs. Moffat showed how to make corded bias piping. Mrs. Cosson discussed the record books and achievement day. Lunch was served to conclude the meeting.

On his first voyage of discovery, Christopher Columbus was accompanied by 120 men in three ships.
