

2, 4-D Kills Dandelions Easily, Cost is Negligible

Spring dandelions are again blooming in profusion, says Halton county weed inspector V. E. McArthur. Each year, this early bird is the first weed to start a yellow glow over lawns and pastures. They are not listed as one of the noxious weeds under the Ontario Weed Act; but rather may be called "obnoxious" as they are considered to be an unsightly nuisance by most home owners.

Fortunately, these yellow offenders can easily be removed from the lawn now by the use of a 2, 4-D spray. Spraying was the old-fashioned method but was not very effective as two or more plants seemed to spring up from the part of the root remaining in the ground. Application of 2, 4-D is so simple and effective that a prominent authority on this subject recently published the following quote:

"Today, a child with a tank sprayer can kill all the broad-leaved weeds in a good sized lawn in less than an hour."

While we realize this is true, we can't help but wonder why there are still so many every year.

Ducks, Mallow Plant, Sheep's Purse, Fall Dandelion and Oseye Daisy are additional

broad-leaved weeds that are common lawn pests later in the season. All of these can be controlled with 2, 4-D sprays. The material cost is small as the acre sells for approximately 10 cents per ounce in gallon lots (slightly more in very small quantities).

For treatment of large areas with mechanical weed sprayers, 16 ozs. acid in five to 20 gallons water per acre is the recommended rate of application. However, when using a hand sprayer for medium or small lawns, mix 1 oz. 2, 4-D acid to four gallons water and thoroughly wet the turf with the mixture. Care must be taken to keep the herbicide off of any ornamental shrub or flowers that are susceptible to 2, 4-D.

The above sprays are most effective in the spring or in early September when the broad-leaved weeds are in a fast growing stage.

STOP SHORT!

A motorist driving through Boston, drew up and asked a passerby "My good man, could you tell me where I might stop at?" "I would advise," said the native Bostonian coldly, "stop just before the 'at'."

THIS SUNDAY'S

Church Calendar

WE ARE NOT DECEIVED

We are living in strange and wonderful days; never have we had it so good, yet when the claims of God are considered, never have we appeared so unthankful. These are days of prosperity and days of privilege, but to many days of carelessness and indifference. This is the day that the Lord has made; we should rejoice and be glad in it. Meet Him in church this Sunday.

THE CHURCH OF ST. ALIUM

THE MARTYR
ANGLO-CAN.
