### Acton's Wasaga At Fairy Lake

Fine golden sand, a foot thick in some places, has been poured on the beach area at the park. Parks board ordered the new beach which much improves the popular swimming spot.

There is no complaint about water level here. Water is fairly high and even safer than last year since there is a better taper.

Even when the air has been chafin, the water has been warm and inviting for hardy swimmers.

### "SCHOOL'S OUT HOORAY!"

Throughout the summer months ahead, Acton youngsters will be out on streets and play areas in more numerous quantity than during the school year, and will unfortunately make an easier target for incautious motorists. And perhaps the lessening of direct authority over them — no more homework, more relaxed bedtime hours, etc. — will tend to make them even less aware than usual of traffic hazards. If so, then the little people of Acton will be at a double disadvantage come the "School's Out Hooray!" that they're so anxiously waiting for.

A child streaking out from behind a parked car is still a child; a motorist has adult responsibilities, one of which is "running interference" for such children. Let's live up to our responsibilities and take heed, not lives.
