

**R. L. SCHOOL CARETAKERS** Jim Bradshaw and Albert Robinson were all ready for pupils to return to school Tuesday. Everything was spic and span and walls and ceilings in the hall had been painted as well as some rooms. This is the first year caretakers undertook the chore of painting and school board members claim the work was of top calibre and done at a saving to taxpayers. Chief caretaker Colin McColl who also works at the M. Z. Bennett school assisted in the summer work.

### Fine Schools Not Substitute For Old Ways, W.I. Concludes

The monthly meeting of the Acton Women's Institute was held at the home of Miss Nora Kenney on Wednesday, September 9. The president, Mrs. Roy Lindsay opened the meeting with the Institute Ode and Mary Stewart collected. The roll call, and incident memories of school days going through drifts of snow and walking miles — and now, school buses to pick them up.

Business of the fall fair was brought up for the display and Mrs. Wilderspin, Mrs. McAuley and Mrs. Winn were appointed to look after this.

It was decided that the members would not have the Fall Fair booth this year but would have a sale of home made baking and sewing at Simpson's store on September 25 instead.

Mrs. Lindsay and Mrs. Winn were appointed delegates to go to the area convention at the O.A.C. at Guelph on September 29 and 30. Several resolutions were passed for the delegates to vote on.

**Fall Bus Trip**  
A Braecridge color tour, water cruise and lowl supper at night was to be arranged by Mrs. G. Fryer for October 1.

The annual fall visit to the Hatton Manor is October 22. Mrs. George Hatgraves and Mrs. George Fryer will be in charge of the program.

Mrs. Earl Lambert gave a reading for home economics, how it all adds up.

Mrs. R. L. Davidson on historical research told of the Golden Age club bus tour, Stephen Hancock's writings and the pioneer village.

**Education Puzzler**  
Mrs. Winn's education topic was The Golden Rule days. Fine

**Scout Hall**  
Rotarians met again at the scout hall Tuesday to continue painting wallboard inside, and painting the exterior. By next week the work should be near an end. Their summer project doesn't interfere with group meetings.

Public school pupils remained in school for the entire day but high school students were dismissed at noon to obtain the balance of books. By Wednesday, all three schools were holding regular classes and the fall term was underway.

### Tom McKeown Tells I.O.D.E. of Seminar

When the Lakeside Chapter I.O.D.E. held their first meeting of the season Tuesday, high school student Tom McKeown spoke to them in a very capable way on his experiences at the United Nations seminar in Waterloo last spring. He was sponsored by the chapter.

"I can't repay you for the knowledge and fond memories," he said sincerely. "Archaic ideas about other parts of the world were dispelled through the students' research and they also had an insight into university life. We gained faith in the UN and hope for the future."

The six Acton students represented Ghana and Nigeria at sessions.

Mr. and Mrs. George Muswell showed lovely colored slides of their trip to England, in particular picturesque villages in Devon and Shropshire and fine interior pictures of cathedrals and castles.

Plans were made for the group's exhibits at the fair, which raised money for chapter work. Lists of recent articles made by members were compiled and these articles will be taken to the home of Mrs. H. H. Hinton on Wednesday and Thursday before the fair.

It was agreed the October meeting will begin at 7:30 to allow plenty of time to tour Don Stewart's antique shop at Rockwood.

This would be a better world if we had more wild life in our forests and less in the big cities.

### Model Aeroplane Fan Cops Awards

An enthusiastic model aeroplane fan and member of the Acton Hi-Flyers Club, Jim Jennings topped two trophies this summer with his home made plane.

In the combined stunt and speed competition at the C.N.E. August 22, he received the second place trophy and during the weekend placed third at Jarvis in the endurance flight during the district Ontario Nationals.

Jim is an Acton high school student.

Club members have been active this summer flying their equipment at the school grounds and attending lectures under the supervision of high school teacher Oscar Durbie.

Members hope to have a display at the fair grounds Friday night, September 18 and will be flying their planes between the hours of 6:30 p.m. and 8 p.m.

If you want to know what's behind the headlines, ask any housewife. She'll tell you it's her husband, especially at the breakfast table.

### ACTON MAN HURT

Jean Paul Desserault of Acton suffered severe head injuries in a car accident on Highway 25 at Speyside early Thursday morning of last week. Milton O.P.P. reported he was treated at Hamilton General Hospital. His car received \$1,000 damage.

All of Canada's early newspapers were called The Gazette, as were papers elsewhere, because the price of one of the world's first newspapers, published in Venice, was a small coin called a gazet.

### Vigorous Work Bee at Arena For Lady Directors of Fair

Armed with brooms, mops, and dust cloths, nearly 20 members of the Lady Directors of Acton Fall Fair Board met at the arena last Thursday afternoon for a work bee. Old decorations were taken down, beams dusted, lamp shades washed, windows cleaned, tables and chairs washed, and the floors in the auditorium, corridor and offices cleaned.

By 4:30 p.m. with the place cleaned, and the new decorations in place, the arena had taken on a new look, and all expressed a hope that this fine building could be kept in a more respectable condition in the future.

During the afternoon, as each lady worked at her respective job, Mrs. Donald C. Matthews, the president, presided for the usual monthly meeting. In the absence of Mrs. R. Dennis, the minutes were read by Mrs. W. MacDonald, the assistant secretary.

**Hope for Floats**  
Tentative plans were made, and personalities named for the float representing the Ladies' Board on Fair day. All hope that many other organizations will prepare floats. A good parade helps to create interest in a Fair.

Mrs. W. Waldie requested all entries to be at the C.N.R. depot previous to 12:30 p.m. Saturday so that the parade can get started around 1 p.m.

Judges were named for the children's classes of decorated doll buggies, tricycles and bicycles.

Additional screen protectors for the homecraft displays have been made and painted.

All conveners were asked to advise their committees to alternate as attendants in their respective departments Friday evening and Saturday afternoon of the Fair.

**Musical Program**  
With the ice surface in the arena being available for industrial exhibits this year, it was decided to have a short musical program during Saturday afternoon with Mrs. I. Archibald and Mrs. M. McCullough in charge.

Another work meeting is called for Thursday, September 17 at the arena at 1:30 p.m. with all members requested to attend.

**Wear Smocks**  
Members were reminded to have their smocks ready for

### Four Rooms ...

(Continued from Page One)  
in an attempt to have other rooms ready as soon as possible with as little confusion as could be managed.

Public school pupils remained in school for the entire day but high school students were dismissed at noon to obtain the balance of books. By Wednesday, all three schools were holding regular classes and the fall term was underway.

**FIRST DAY AT KINDERGARTEN** was fun for beginners at the Robert Little school. Left to right are Heather Anne Reid, Jeannine Patricia Stewart, teacher Mrs. Nancy Webb and Marvin McNabb. Toys were available for the children to amuse themselves as they became acquainted with each other.

### STOP QUICK

Sudden stops usually indicate inexperience on a show-off behind the wheel. The Ontario Safety League suggests that, every time you have to jam on your brakes, you ask yourself whether it could have been avoided if you had been driving more carefully. Sudden stops advertise bad driving, cause unnecessary tire wear and risk rear-end collisions.
