

GOY CARTAGE LTD. will play host Saturday, March 6 during "Open House" for the public. The new warehouse which opened recently is located on No. 7 Highway west of town.

### Weed Inspector Plans 1965 Program of Control

An expanded program of weed control enforcement and education is planned in 1965. Halton Weed Inspector V. E. McArthur of Lowville informed members of the county's Agricultural Committee recently.

The Weed Inspector has mapped out his 1965 program which includes:

- Support and assistance to local inspectors in enforcing the Weed Control Act.
- Encouragement to local councils on good weed control practices on public and private property.
- Co-operation with road authorities in planning chemical spray programs for roadsides.
- Assistance and advice to farmers for chemical weed control.
- Co-operation with the Agricultural Representative and county farm organizations.
- Continuation of the Barber

ry eradication program,  
 • Action to control poison ivy and ragweed, especially in urban and suburban areas.  
 • Solicitation of co-operation from hydro commissions, Bell Telephone Co., railways, the De-

partment of Highways, and park and conservation authorities to keep their properties clear of weeds.

- A bus trip to O.A.C. Guelph for entrants in the 1964 weed essay competition.
- A poster contest for grades 7 and 8 of the elementary schools.
- Weed projects for 4-H clubs.
- Weekly articles to the press and radio stations in Halton.
