Local Leos' Gong Gone

Seven members from Blackheath Binnington Lions Club attended the regular Monday night meeting of Acton Lions Monday night. The visitors noted the much travelled gong back home with them under the rules of the gong swapping competition leaving the local Leos with only one. It belongs to Erin Lions and was swiped by a delegation of Acton members back in 1964. No effort has been made by the Erin club to retrieve it yet.

Acton Lions assured their visitors they would be making the journey to Blackheath soon to retrieve their gong.

The brief business part of the meeting was preceded by a song by Tail Twister Al Lauder who also managed to extract lines from everyone present by an ingenious quiz in which he alone seemed to have the right answers.

Lions discussed plans for a draw, the spring carnival and the western show in which most of them are wrapped up for the present.

Sniff Spring

Is spring just around the corner? On the weekend children sniffed the mild air and went back inside for bicycles, skipping ropes and marbles, despite the slush and mud on the ground. A couple of hardy girls put on knee socks. Tuesday brought a word of warning in the form of light snow, and Wednesday we had reverted right back to winter.

FORD...Quietly takes your breath away!

With a hot new 240 Big Six and solid, silent ride!

It used to be that a Six had to be weak on power to be strong on economy. But Ford's new 240 Big Six is very economical and it delivers a wallowing punch, especially with Cruise-O-Matic transmission.

The new 240 Big Six is standard on Custom and Galaxie 500 models. It is more powerful, more durable, smoother running and more economical than last year's Six.

There are other advantages to buying a 6-cylinder Ford besides getting the most powerful Six in Ford's class.

There's Ford's Cruise-O-Matic with 3 speeds for easier passing and gas saving. And two driving ranges. The second starts you in 2nd gear—helps prevent you spinning your wheels in mud or snow.

You've heard of the silent ride... It's the first thing you notice and it is wonderful. The ride is also smooth. So before you buy any new 6-cylinder car, check out the silent riding Ford with the new 240 Big Six. See your Ford Dealer. Ask about a six-cylinder convertible... Spring is coming.
