ABOUT

A CAREER IN COMMUNICATIONS

The demand for telephone service in Canada grows as the nation progresses. During ten years the telephones in service in Bell Telephone Company territory nearly doubled. Each day research in the field of communications brings remote corners of the earth nearer.

The space age is upon us and the challenges it-creates far exceeds the imagination of even a "Buck Rogers," To keep pace with this fast moving technological world around us we need men and women of special calibre - men and women who are ready to take up the challenge and grow with the communications field.

We want ambitious young men and women with courage and determination to succeed. We want those who will help us build - those with initiative - the doers, planners and thinkers.

If you think that you are this kind of man or woman please fill out the clipping below and mail it today.
