Year's Study
Mission on Our Doorstep is the year's study topic and the theme for the month was Put Fourth Your Hand. It was shown how Christian Women are required to serve and witness for Christ in the community in which they live.

A study was made about women from the past who stretched forth their hands in love and sympathy and service to those around them, serving their day and generation in their own way, in their own community.

The stories of Dorcas and of Phoebe, as taken from the New Testament records of the early Christian church showed how after 2,000 years, their names still are synonymous with works of love and charity.
