## We heard you were looking for a tough little car that'll flatten any road!

(the Tough Little Car from General Motors)

Take the scenic route? Not in an ordinary little car. Not unless you have all the instincts of a pioneer and the name of Buck Rogers. Many small cars just aren't built to take bumps. Notable Excepbon: Epic, the Tough Little Car from General Motors! The 1985 Epic travels rough winding country roads almost as smoothly as it travels highways, thanks to an unconventional and versatile suspension system. Epic's independent front suspension with transverse leaf springs absorbs road shocks at each wheel, independently. So a bump under one wheel ien't catching.

And what do we mean by versatile? Simply this Wost small care tend to pitch and yaw with drastic changes in road and speak. especially when comering. Epio doesn't. Epic is characterized by "variable springing . . . that is, soft springing for comfort on the straightsway, and stiffer springing to resist roll and sway under

Yest cornering conditions. Visit your Chevrolet-Envoy dealer during Trade 'N' Trevel time. and inspect the Tough Little Car from General Motors. Take it out on the road. Any road.

It's Trade 'N' Travel time . . . At your Chavrolet-Envey Dealer's Now!
