

# Re-elect "Doc" Harkley President Acton Minor Hockey Association

Garnet (Doc) Harkley was re-elected president of the Acton Minor Hockey Association at the annual meeting of the association Monday night. It's the second term in the Acton minor hockey chair for the extroverted Harkley who's known in the sporting fraternity as "Doc".

He assumed the mantle last year when the association was in its sophomore year, succeeding Eric Marks who presided over its initial season of operation.

Elected to fill the vice-president's post at the well attended meeting was Gord Fricker. Secretary is Harry Lawson, treasurer Dick Lee.

Tri-County Rep. Eric Marks, association representative will be the president with secretary Harry Lawson as alternate. Equipment will be looked after by Charlie Thompson, an old hand well qualified for the job. Don Ford is the official timekeeper and the finance chairman's post will be filled by René Schatz. He'll be assisted by Bill Morrison, Ed McGalloway and Jim Morrison.

Recreation committee representative of the association will be Harold Townsend Harry (Bunk) Holmes will be Legion house league representative.

Gatekeepers selected are Charlie Thompson and Bunk Holmes. Drays will be supervised by Herb Dooks and Ed McGalloway.

Some Vacancies  
Managers and coaches for some of the Association's five Tri-County

All-Star teams were named but some posts are not yet filled. The novices so far have no officials but Herb Dooks and Harold Townsend will carry on as manager and coach of the Ramtams. The Pee Wees will have Bill Morrison managing and Gord Fricker coaching. "Doc" Harkley has agreed to manage the Midgets but no coach has been named. Same situation exists for the Junies where Wilfred Duval Jr. has agreed to act as manager but no decision has been heard from last year's coach.

Next meeting of the Association will be held next Monday, August 13th at 8 p.m. in the community centre. Anybody interested in minor hockey is invited to attend.

Prize lists are being mailed and interest of exhibitors is date promises another successful fair.

Midway Booths  
King Shows Ltd. remembered for its excellent midway on an anniversary year, will again provide midway rides and concessions.

Local charitable organizations are welcome to set up food stands on the grounds under the control of the fair board. Acton Minor Sports will be having a food booth in the arena for the duration of the fair.

Saturday Full  
The Royal Albert Drum and Bugle Corps of Guelph will lead the parade from the C.N.R. station at 1 p.m. Saturday, September 18. The band will have a drill and concert at the park during the afternoon.

Good prizes are being offered for floats and all worthy entries will receive a prize with top prizes for the best float. There are also prizes for best decorated bicycle, tricycle and doll bug.

There is a first-time junior horse show at 10 a.m. Saturday morning. During the afternoon, there will be a baby show — the first for 13 years — sponsored by local merchants, and a horse shoe pitching contest — another first. Vince Mountford will emcee the afternoon entertainment.

Friday Parade, Show  
Friday night, a parade from downtown at 7:30 by Acton Citizens Band will lead patrons to the arena. The band will play a concert prior to the official opening of the fair at 8 p.m. by Mayor Dubs. The hall will be open at 7:30.

Cliff McKay, an enthusiastic director of the society, will present Cliff McKay and his Variety All Stars program featuring artists of TV fame. Miss Acton Fair will be crowned and reign during the fair.

Display space on the arena floor is still available. The fair night dance with the Melodaires orchestra is last on the program.

# Junior Horse Show, Horse-Shoes Baby Show "Firsts" at Fall Fair

Acton Agricultural Society held a meeting Monday, August 23, when president Jack Marshall presided with a good attendance. The president is pleased with the interest shown by the new associate directors.

Committees reported work on the poultry barn had been completed, repairs have been made to the walls and new cages troughing installed.

A new platform is to be built

this year to be erected on trexels for the afternoon program, rather than using the rear of a truck.

vide midway rides and concessions.

TOO MANY CHIRPS and not enough Indians could be the though from seeing Michael and Jeffrey Jobb and playground leader Donna Landsborough. The trio were part of the summer playground closing program and took part in the parade from the C.N.R. station to the park.

## Recreation Committee

(Continued from Page One)

when they play away from home.

(8) A new bulletin board be installed with room for hockey and other activities, not to be used only for curling bouzies.

The committee discussed Mr. Harkley's suggestions after he left with some sympathy but left all decisions for the administrative committee. Changes in rate structure met a cool reception when the chairman polled members for their opinion.

"We're running at rock bottom now," commented Dr. J. Oakes.

Would Donate Hot Plate  
New committee member Charlie Perry indicated he would be willing to donate a hot plate for use downstairs if the committee was interested in doing something about facilities down stairs.

The committee felt the cancellation of the \$37.50 owing by minor hockey would be setting a bad precedent and felt the debt could be carried over to next year's operation.

It was agreed discipline problems were the arena manager's problem. "It's up to the arena manager to be boss in the building," said the chairman.

Discussion of the recreation director's annual report, submitted in neat booklet form, was left to the next meeting when Mr. Roe would be present to participate. The chairman advised Mr. Roe was on vacation.

Personal Gift  
Former secretary Joe Hurst was present early in the evening at the committee's request, to receive a gift of books in appreciation of his services to the committee and parks board through the past few years. Mr. Hurst replied fittingly and expressed the hope he had contributed something to recreation and parks while in office.

Other Business  
The committee also:  
• Heard a suggestion from member Ab Irwin that a hort-

cultural society be formed with a view to beautifying parts of town where flowers could be grown.

• Instructed the treasurer to pay accounts totalling \$1,269.41.

• Gave approval to the recreation director's request to advertise the first square dance of the season in the Robert Little public school auditorium and make arrangements for regular dances.

• Advised Nick Owen of Western Contractors to see Mr. Hatch before the committee releases the 16th chip tract to him.

• Heard a suggestion from Gord James that ice be installed in October so teams can get in practices.

• Heard from the building chairman the convertible stage and players box was being erected by Frank Thompson at an approximate cost of \$144.

• Advised the art class to see the fair board with regard to setting up a display at the fall fair.

Chairman Hugh Patterson presided at the three-hour long meeting with members Ab Irwin, F. G. Oakes, G. James, C. Cook, a new member C. Perry and secretary O. Coultrup all in attendance.

## Bible School All This Week

Two field missionaries from the Child Evangelism Fellowship of Ontario are in Acton this week conducting week-long summer Vacation Bible classes with 30 youngsters taking part.

Miss Elaine Goudy, Elmira and Miss Jean Paslow of Addison, Illinois, conduct sessions at several homes throughout town both mornings and afternoons. Included in the program are missionary and Bible stories. The program ends this Friday.

The classes, each an hour long, are held at private homes and the children's hostesses are Mrs. Peter Jimmie, Mrs. Stan Cripps, Mrs. Gordon Kabin, Mrs. William Kestner, Mrs. Murray Seavey, Mrs. Gordon McCutcheon in Acton and Mrs. Carl Hill in Lunenburg.

## Trying Experiment Garbage in Big Bags

Easier and cleaner handling with less mess is the main aim of Council in conducting an experiment with Lakeview and Warren Grove residents using plastic garbage bags instead of metal containers.

Each resident was handed four of the large plastic bags, specially made for garbage purposes and a questionnaire to fill out. After trying the bags out every resident is requested to answer the questionnaire in order for Council to determine if this method is more suitable than garbage cans.

In the event the new plan works out, home owners will be able to purchase plastic bags. Although only a few of the questionnaires have been returned it appears that some using them already are quite satisfied with the system.

## Monday Meeting McLeod Application Passed For Planned Office Building

After receiving its decision for two weeks on an application by William J. McLeod for approval of variances for a proposed office building, Acton's Committee of Adjustment Monday evening approved the application after inspecting the property and a submitted plan for parking.

At the original meeting August 9, only two members of the three-man committee, present chairman Murray Smith and Lae Marks. At that time Dave Manes through his solicitor Aldo Brada, presented an objection to the planned parking facilities. A decision was withheld until the

## See Pollution in Streams

# Tour Variety of Conservation Projects

The next stop was on Bell School Line at Indian Creek, which feeds into the 12 Mile Creek. Because of the serious flooding problem from spring runoff, the channel is to be improved by widening the creek to 15 feet and making it eight feet deep.

Mount Nemo was the scene of a survey of population, rainfall, crops and soil by the conservation authorities. From this survey, recommendations of land use and methods of farming can be made. Farmers putting in ponds, lakes and dunes are subsidized 75 per cent by provincial grants.

Twenty-five acres of flood-prone land at Carlisle has been turned into a tree-shaded community pond and picnic site with modern facilities provided.

Members visited the site of the new Mountsberg Dam and Reservoir which is currently under construction. Of the 1,000 acres, 600 will be covered by water. The main purpose is the maintenance of a summer stream and flood control. The dam will hold the spring runoff which will later be released when the water is needed. At the deepest point, the dam will be 20 feet. The cost of this project is \$150 per acre foot of water. Mr. Mackrell guided the members around the construction site. Sheets of in-

formation about the contents of the book entitled "Design of Small Dams" were handed out. Mr. Mackrell stressed the importance of the planning of the project from 1962 until 1965, with completion expected in October. The dam consists of two earth embankments, a concrete centre and a spillway. The earthwork, the steel and the concrete are tested for strength and safety.

The Conservation Authorities have to contend with other things besides water in this development. Highway 401 (Macdonald-Carter Freeway) is only a mile from the dam. The C.P.R. railway, which is located nearby, has to be raised eight feet for quite a stretch as well as raising No. 15 Sideroad. The dam is located in layers of shale.

Members had lunch at Kelso Dam. Kelso is an 80-acre reservoir set in 147 acres of rolling greenery providing pleasant picnicking, strolling and boating. Large modern swimming and wading pools with change houses offer cooling summer fun. Water sports are favored by skiers, toboggan hills and ice skating. The swimming, Halton County Museum is housed in a historic building on the property.

After a look at the creek flowing through Peru, the bus returned to the Milton Quarries on the Base Line. At the conclusion of the trip, Verna Thompson thanked the buses for a most interesting, informative and educational tour of the conservation areas in the district.

Little Pollution  
After lunch, the next journey was to the Burns property of 25 acres, part of the headwaters of the 12 Mile Creek. The four and a half-acre pond has a pollution count of 44 compared with the 2000 count of the 18 Mile Creek. The main object of this pond is the draining of swampy land around it and holding spring runoff.

The next visit was to the Halton Crushed Stone Quarries where members were taken up the steep hill and through the 100-foot cut. The Conservation Authorities own the land located around the quarry but allowed the quarry a 100-foot cut through the face of the mountain. Rather than spoil the face

Any way you figure it...

## Verna Thompson Tops in Safety

Verna Thompson, R.R. 2 Milton was chosen as winner of the Safety Scrap Book Competition sponsored by the Halton Farm Safety Council. The Scrap Books were judged at the August 9 meeting of the council held in the Agricultural office, Milton, under the chairmanship of Mrs. A. R. Coulter.

Verna's Scrap Book entitled "The A. B. C. of Safety" discussed the many steps needed to prevent accidents. Stuart Nurse, Georgetown 2, was second followed by Carol Swackhamer, Acton 2, and Elizabeth Norrington, Milton 6. These Scrap Books will be exhibited at the three county fairs this fall.

The Directors of the Halton Farm Safety Council also approved the ordering of several hundred fire extinguishers to be sold at the Show and Fall Fairs by the Halton County Junior Farmers.

## Couple Will Assist Son Teach Children in India

Rev. and Mrs. Lawett Eaton, who recently purchased a home on a farm at Carlisle which they sold recently.

## Area Man Killed Friday Retired Three Weeks Ago

Retired just three weeks after 43 years of association with Milton Brick Co., Angelo Nadalin, 70, of R.R. 3, Milton, was killed late Friday evening when he was struck by a pick-up truck less than half a mile from his home.

Mr. Nadalin was apparently walking across the First Line Extension bridge just four-fifths of a mile north of his Base Line Rd. home when the accident occurred. A 16-year-old

## Campbellville Driver

The driver of the truck was John A. Baynton, aged 37, of R.R. 1, Campbellville. He was driving to work at the night shift at the P. L. Robertson factory in Milton, and was southbound at the time of the accident.

Funeral service was at Holy Rosary Church Monday morning with burial at Evergreen Cemetery, Milton.

## Listen Here:

It's been called The Wonderful World of Sport and Bill Stephenson's three-times-a-day look at its characters, its events, heroics and heart-breaks will keep you informed on every facet of it. The popularity of Bill's spirited look at sports at 7:55 a.m., 12:40 p.m. and 6:40 p.m., his highly capable handling of the play-by-play of football games and other major sports events, make his shows "must" listening for anyone interested in the Wonderful World. And who isn't...?
