

FIVE PERSONS WERE INJURED, including a mother, her daughter and granddaughter, on Saturday afternoon on Highway 25 south of Acton, in a two-car collision. The car shown above was passing another north bound car when it collided with a south bound car, ripping out the entire rear section of this vehicle. Milton O.P.P. investigated. See story for details.

Exam Before Achievement Day For Members of 4-H Calf Club

The fifth meeting of the Acton 4-H Calf Club was held on August 15 on the "Eagleswing" township farm of Lloyd McEnery, R.R. 1, Limehouse.

The business session, which included plans to enter a 4-H float in the Fall Fair parade, was chaired by president Wayne Atken and secretary Bill Lashby read the minutes and called the roll. Bill Sinclair had charge of the meeting.

Club leader Nino Branda introduced the hosts and called Mr. McEnery's long and valuable service to the Acton Agricultural Society. He thanked the hosts for their splendid cooperation and told members that it is only through the active support of the parents that a successful 4-H program is possible. Mrs. McEnery also received praise for her contribution to the success of the ladies board.

Judge Cows
The first part of the evening was devoted to a judging competition during which the members placed a fine class of mature Holstein cows in milk from the McEnery herd. Each member gave oral reasons for their placings which were scored by Bill Sinclair and the club leader in attendance.

Two senior members, Walter Trissenaar and Wayne Atken gave demonstrations on clipping and grooming of dairy and beef calves respectively. Mr. Branda

Algae in Ponds

Hot Weather Brings Problems

The recent hot weather has increased the numerous types of aquatic plants and algae in farm ponds and streams.

These plants serve as food for fish, help to keep water temperatures at the low levels required for certain species of fish, and are used as food for many species of waterfowl.

However, ponds become unsightly because of the presence of dense mats of decomposing algae. Fishing, swimming and boating may be impaired and water is not satisfactory for livestock or human consumption. Winter-killing of fish can also occur due to oxygen depletion in the water caused by the decomposition of the plants.

Control of aquatic plants may be achieved by either mechanical or chemical means. Shoreline plants may be cut with a scythe. A chain or harrows may be dragged across the pond to pull out or break off the plants.

Care with Trout
Chemical methods of control are the most practical. Algae and pond scums can be treated with Copper Sulfate or Bluestone at approximately two pounds per acre foot of water to be treated.

Farm Contest

Farmland improvement projects are being encouraged for Canada's centennial. The contest has been announced so farmers will clean-up, dress-up and paint-up their property for 1967. There will be a prize for the winner in each township and county, and also provincial prizes.

There is no entry fee and anyone can participate. Entries close the first week of September.

In Halton county, entry forms may be obtained at the Department of Agriculture office in Milton.

For Erin township and Wellington county, further information and entry forms may be obtained from Ward Bruce, R. R. 3, Acton; William McLean, R. R. 1, Glen Williams; Allan Watson, R. R. 1, Hillsburgh; Hillsburgh Milling and Farm Supply, and Halton District Co-Op, Erin.

4-H Seed Judging Contest Winners

Thirty six 4-H Agricultural members competed in the Annual Seed Judging Competition on Monday evening, August 9 at the Fair Grounds, Milton. This competition is sponsored by the Halton County Soil and Crop Improvement Association.

In the novice section for the first year members, out of a possible 600 points, the winners were: Ken Peer, Milton 2, 463.5; Bill Lashby, Rockwood 2, 450.5; and Carl Middlebrook, Milton 2, 449.5. In the Junior Division, for those 16 and under: Elizabeth Norrington, Milton 6, 514; John McGee, Norval 1, 509.5; and Bob Leslie, Acton 3, 503.5. Top Seniors were Bill Alexander, Norval 1, 527.5; Bill Sinclair, Burlington 1, 527; and Larry Gardhouse, Milton 5, 524.

Bill Alexander is the winner of the trophy for champion seed judge. Winner of the Course Grain Trophy for top score in Oats, barley and weed identification is Larry Gardhouse. Bill Sinclair is the winner of the Small Seeds trophy for scoring high in hay, red clover, and forage identification. Art Lawson won the Cash Crop Trophy for top marks in the quiz, potato and corn judging.

Those in charge of the competition were C. H. Kingsbury and Bill Hurst, Soil and Crop Specialists; Delmar Ford and Nino Branda, 4-H Grain Club leaders; Henry Stanley, Agricultural Representative; and Charles Warner, Fruit and Vegetable Extension Specialist.

A good listener is not only popular everywhere, but after a while he knows something.

CAMPBELLVILLE

10 Young People Plan To Attend Week Camp

By Mrs. George Ingle
Mr. and Mrs. Charles King and Mr. and Mrs. Beverly Ella and John have returned from a week's holidays at Sauble Beach. Mr. and Mrs. Robert Shutt and family have left the village and have taken up residence at Streetsville.

The Gospel Predestiny Young People's executive met at the home of Shirley Ella on Wednesday evening. Final plans and preparations were made for the week camp and Labor Day Council held at Haliburton Lodge, from August 28 to September 6 inclusive. Approximately 10 are planning to attend from Gospel Presbytery.

On Friday evening a presentation was held at Ligny Hall for Mr. and Mrs. Gordon Coulter. The newly married couple received a beautiful table and chair set. The presentation was made by Mrs. Coulter's friends and relatives.

The village welcomes Mr. and Mrs. Peter W. Paszek from Port Credit. They have taken up residence at Purdy's Store.

Miss Tammy Henderson had the misfortune to fall and break

her elbow while at the ball game in Oakville on Wednesday evening. We wish her a speedy recovery.

Congratulations are in order to the Campbellville Merchants for their outstanding performance in Oakville both on Wednesday and Sunday evenings. We wish them all the luck as they enter the finals against Hamilton, to maintain their tenth consecutive Halton County Championship. Best of luck to you all.

Visit Relatives
Rev. and Mrs. Burgess, former minister of Dulles, were weekend guests with their daughter and son-in-law, Mr. and Mrs. Allan McClean of R.R. 3 Campbellville.

Rev. Schried has once again returned to his pulpit at St. David's and on Sunday welcomed American friends who were passing through on their vacation and stopped at Campbellville to attend church.

Relatives and friends from London, Milton and Campbellville were Sunday guests with Mr. and Mrs. Douglas Ingle and family. A corn roast finished off a lovely day.

Extensive experience with, and an intense interest in, the problems of neglected and underprivileged children are only two of the many qualifications offered by Dr. Gordon K. Askwith, the newly appointed director of the Halton County Children's Aid Society.

Dr. Askwith, a 1948 graduate with a B.A. degree from Trinity College, University of Toronto, has been working in the social and child welfare field since 1950. He took over his new duties on August 2, replacing Paul Joffe who resigned from the post recently.

Married and the father of two young boys, Dr. Askwith is residing in Burlington and although he is just starting to know his way around the office, he thanks "Halton County will be a tremendous and exciting County to work in."

Background Experience
Also a graduate of the School of Social Work, University of Toronto in 1950, Dr. Askwith's experience in the field includes three years (1950-53) as a caseworker at the Jewish Family and Child Service in Toronto three years (1953-56) as a casework supervisor with the Renfrew County Children's Aid Society, two years as a field supervisor with the Child Welfare Branch of the Ontario Department of Public Welfare and from 1957-62 as a supervisor of trained and untrained workers in protective casework services and a supervisor on fellowship with the Philadelphia Society to Protect Children from Cruelty, while working on an advanced certificate course at the University of Pennsylvania.

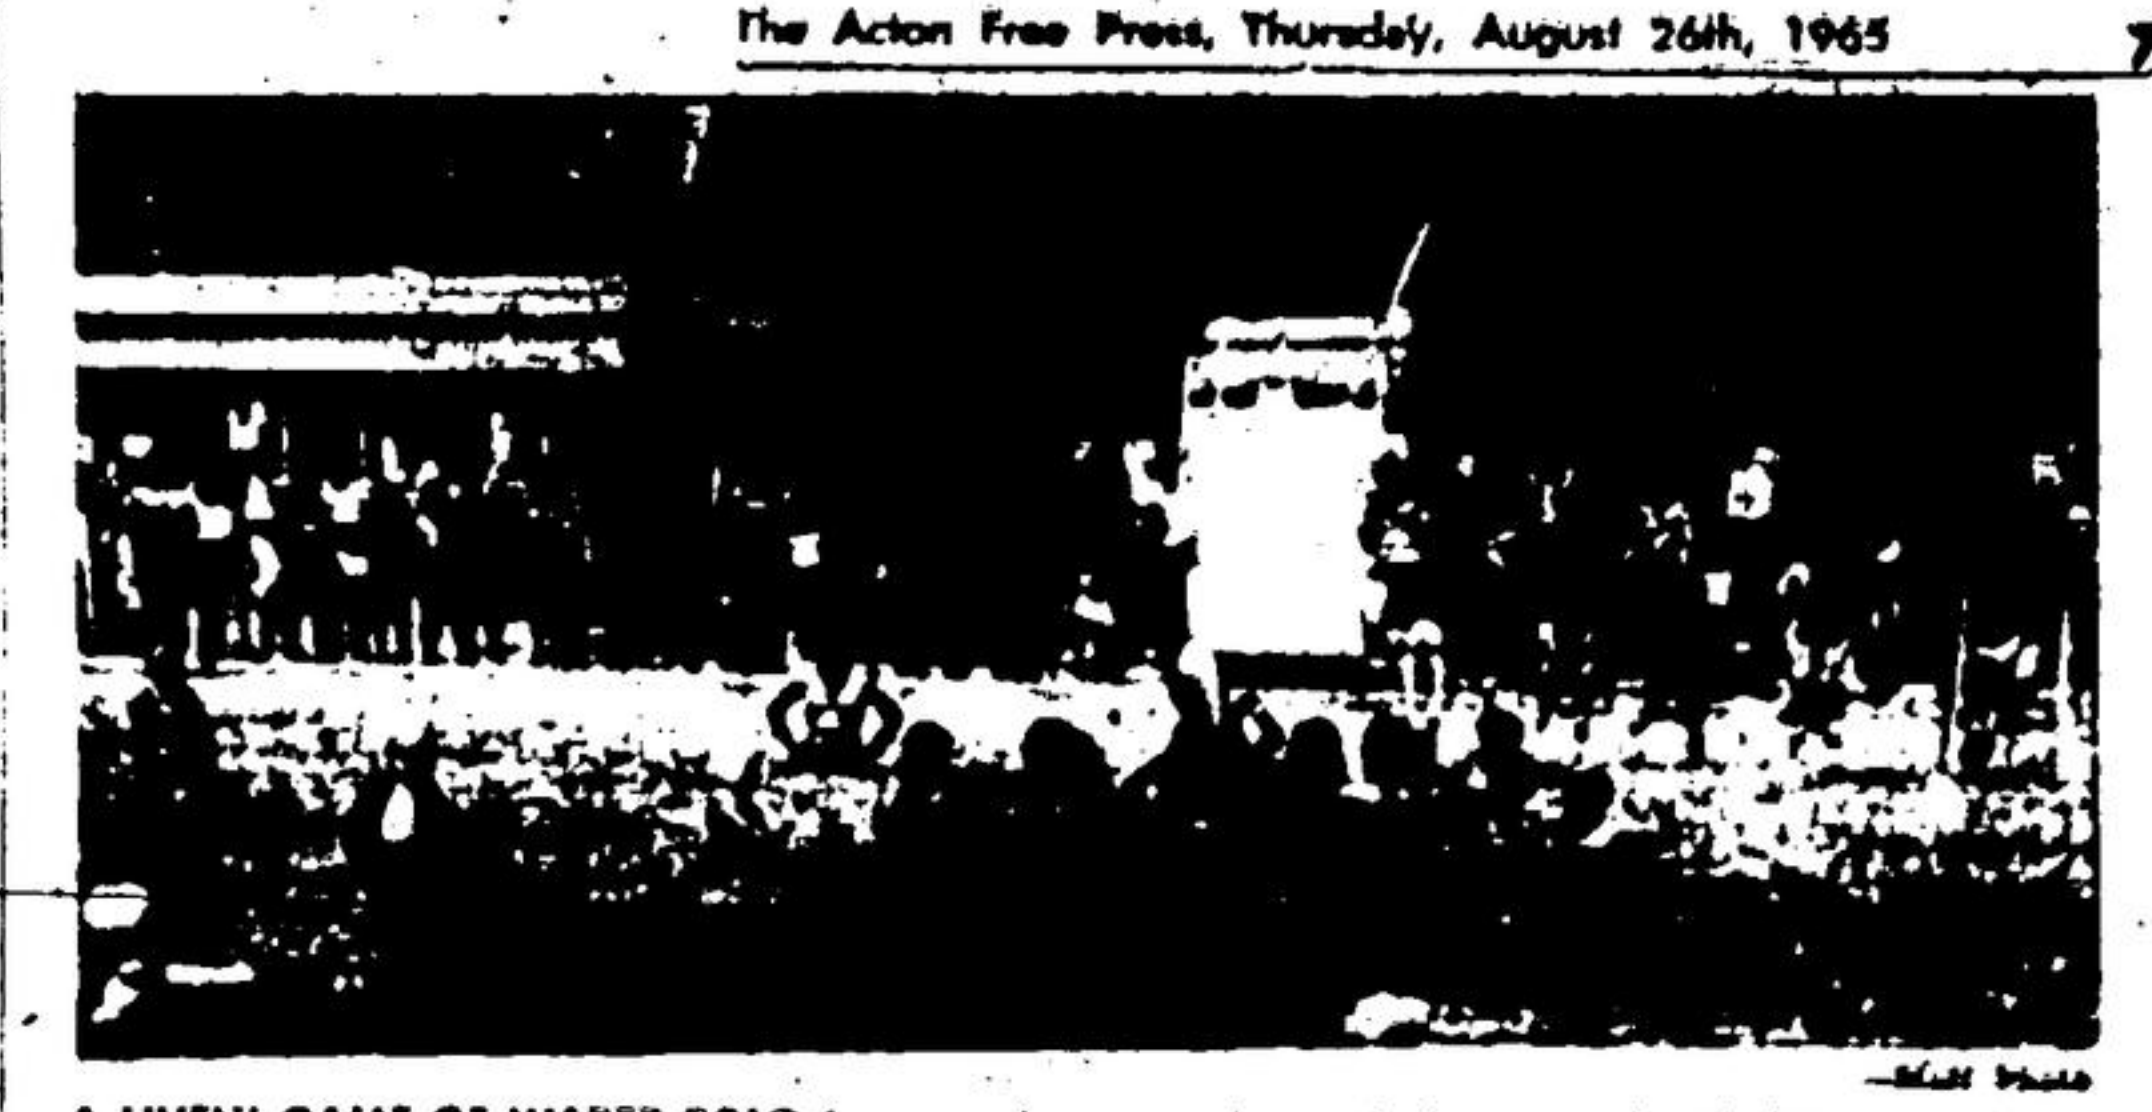

From 1962-63 he was employed as a family counsellor with the Jewish Family Service, covering marital counselling and parent-child problems.

"Tremendous Staff"
So far the new director has found the local Children's Aid Society has "a tremendous staff which is keenly interested in the work." "The agency," he notes, "is very well organized and the facilities are satisfactory."

Child Welfare in the County is becoming more and more important with the great increase in population, he suggests. He sees the need for a tremendous lot of work to be done to meet the problems resulting from "burgeoning population, especially in the southern portion of the County."

Because of its combination of urban and rural makeup, Halton will have many special problems and despite the wealth of the county, it will have many of the same problems that Dr. Askwith has had to deal with in the past. "Children are being abused and neglected far more than the normal person could ever believe, probably right here in the County," he said.

As the head of a staff of 19, it will be his duty to see that resi-

A LIVELY GAME OF WATER POLO (re-named watermelon polo because the "ball" was a large-size watermelon) entertained about 200 guests at the Yelso swimming pool's water sports day Sunday afternoon. Kelso superintendent Ross Johnson donned a bathing suit to join in the merrily, and nearly drowned in the effort as a host of swim course graduates seized the opportunity to give the popular "super" a dunking. A crowd of players is shown here chasing the melon.

34 Junior Farmers, 4-H Members Judge Livestock at Exhibition

Halton County is annually represented in most of the competitions at the Canadian National Exhibition. With the change in prize money this year in the Dairy and Beef classes, there has been an increase in interest in exhibiting. Approximately \$10,000 is available in prize money for each breed.

Dairy cattle are to be judged this Tuesday and Wednesday, August 24 and 25. Steers are on Friday, August 27; Shorthorns on Monday, August 30; Aberdeen Angus and Herefords on Tuesday, August 31.

Young Farmers
The county 4-H Members and Junior Farmers will be represented in the C.N.E. Judging Competition to be held on Friday, September 3. Thirty four contestants will be leaving the Agricultural Office at 7:15 a.m. for the Coliseum. In addition to judging dairy, beef,

sheep and swine classes, they will complete tractor, safety and livestock quizzes, identify tractor parts, weeds forage plants and forage seeds.

That evening the young people will be guests of the C.N.E. at the grandstand show. A practice for this competition is to be held in the Agricultural Office, Milton, on August 31.
