Every day local branches of the chartered banks extend credit so that businesses can fill orders, take on contracts weeks or months before payments start coming in. Companies come to them also for market and credit reports, assistance in handling payments, payrolls, collections, foreign exchange, letters of credit - whatever banking help they may need to keep men at work, goods flowing to market in Canada or abroad. Only the chartered banks are equipped to give this all-round financial service, so essential to doing business today.
